The First Of Oil:

The First World Oil War Timothy C. Winegard, 2016-10-27 Oil is the source of wealth and economic opportunity Oil is also the root source of global conflict toxicity and economic disparity When did oil become such a powerful commodity during and in the immediate aftermath of the First World War In his groundbreaking book *The First World Oil War* Timothy C Winegard argues that beginning with the First World War oil became the preeminent commodity to safeguard national security and promote domestic prosperity For the first time in history territory was specifically conquered to possess oil fields and resources vital cogs in the continuation of the industrialized warfare of the Twentieth Century This original and pioneering study analyzes the evolution of oil as a catalyst for both war and diplomacy and connects the events of the First World War to contemporary petroleum geo politics and international aggression

The First Half of the Age of Oil

Charles A. S. Hall, Carlos A. Ramírez-Pascualli, 2012-12-05 According to the conventional wisdom we live in a post industrial information age This book however paints a different picture We live in the age of oil Petroleum fuels and feedstocks are responsible for much of what we take for granted in modern society from chemical products such as fertilizer and plastics to the energy that moves people and goods in a global economy Oil is a nearly perfect fuel Energy dense safe to store easy to transport and mostly environmentally benign Most importantly oil has been cheap and abundant during the past 150 years In 1998 two respected geologists Colin Campbell and Jean Laherr re published a detailed article announcing that the end of cheap oil would happen before 2010 which meant that the world would face a peak or at least a plateau in global daily oil production in the first decade of the new millennium Today two billion people under the age of 14 have lived the majority of their lives past the point when this century long growth in oil supplies came to an end which also marks the end of the first half of the age of oil This transition has ushered in a new reality of high oil prices stagnating oil supplies and sluggish economies In this book a leading authority on energy explores the contributions and continuing legacy of Colin Campbell and Jean Laherr re the two geologists who modified the terms of the debate about oil The book provides a unique perspective and state of the art overview of today s energy reality and its enormous economic and social implications Covers a topic that eclipses climate change as the most important but least understood challenge for contemporary society Explores the works of Colin Campbell and Jean Laherr re the leading authorities in the field of Peak Oil authors of *The End of Cheap Oil* Scientific American 1998 and founding members of the Association for the Study of Peak Oil Gas Addresses a broad audience of scientists engineers and economists in a format that is accessible to the general public Provides a complete overview of the basic geological chemical physical economic and historical concepts that every oil consumer should understand Presents the latest information on oil production reserves discoveries prices and fields in easy to understand graphs and plots

The First Kuwait Oil Concession A.H.T. Chisholm, 2012-11-12 First Published in 1975 The first Kuwait oil concession agreement granted on 23rd December 1934 by the late Shaikh Ahmad al Jaber al Subah to the Kuwait Oil Company Ltd has

been of fundamental importance in the history of the State of Kuwait whose great increase in prosperity and international influence during the last twenty eight years has directly resulted from its oil production since 1946 under the Agreement and its 1951 successor Hitherto no full or authoritative account of the very long and complex commercial and political negotiations preceding the Agreement has been compiled and consequently all descriptions of them so far published except those merely quoting the Agreement s terms and naming the parties concerned have contained substantial omissions or errors of fact involving a wrong impression of what actually occurred This text is a record of the negotiations between 1911 and 1934 **The First Kuwait Oil Concession Agreement** Archibald H.
