The First Test Tube Baby Days That Changed The World:

Time: 80 Days That Changed the World Editors of Time Magazine, 2003-09-01 Time looks back at its 80 years of publishing with a fascinating collection of changing events breathtaking progress and memorable people heroes and villains dictators and martyrs movie stars and athletes *Genetics in Medicine* Andrew Solway, 2007-01-12 An overview of genetics describes how doctors and scientists can test for hereditary diseases introduces experimental techniques and methods used to cure these diseases and discusses the moral and ethical aspects of genetic engineering **In Vitro Fertilization** Steve Parker, 2007-01-12 Describes the history of the procedure discusses when and how it is done and relates the reasons why it is used and the reasons it may fail Presenting the First Test-Tube Baby Fiona Kisby Littleton, Susan Bewley, James Owen Drife, 2023-03-16 In January 1979 Robert Edwards and Patrick Steptoe delivered a lecture detailing the ten year clinical and scientific research programme that led to the birth of Louise Brown the first baby born utilising IVF This thoroughly researched book provides both a full annotated transcript of the lecture as well as recorded reminiscences from those who attended detailing the contemporary understandings of the event An essay on the lecture's historical context adds fresh insight into the biographies of Edwards and Steptoe and highlights sources from print and broadcast media that have received scant attention in earlier publications Current and future implications of the advances in IVF since the first procedure are also explored examining future medical and scientific possibilities as well as ethical issues that may arise A foreword by Louise Brown herself places this remarkable leap of science in a personal context one that so many families have since experienced themselves 1000 Events that Shaped the World, 2008 In a sweep of history this book brings you what National Geographic has introduced into households for more than a century the world and all that is in it Concise narratives each focused on one event and numbered chronologically from 1 to 1 000 walk you through the story of civilization from the first evidence of life 3 8 billion years ago to the discovery of the first known planet beyond the solar system that could harbor life as we know it Accompanied by hundreds of illustrations events famous infamous and little known offer insight into how and why the world has grown and changed as it has **BOOK JACKET** **The First Test Tube Baby** Fiona Macdonald, 2004 Imagine that the baby you longed for began her life in a manner worthy of a science fiction movie The birth of Louise Joy Brown on July 25 1978 affected the future of millions of people who would finally fulfill their dream of becoming parents and of those born through similar techniques Discover the events that led to what is now an almost routine procedure for infertile couples and learn how the subsequent medical advances developed into life saving technology for other health ailments Book jacket *Breakthrough Babies* Simon Fishel, 2019-03-14 An account from the frontline of fertility treatment giving a unique insight into not only the medical and scientific advances involved but the human cost and rewards behind this life changing technology Simon Fishel worked with Robert Edwards during his pioneering early IVF research and was part of the team in the world's first IVF clinic with all the trials and tribulations that involved at the time including a writ for murder As the

science developed over the decades so did his career as he sought to do more for patients and taught the new technologies to doctors all over the world He came up against regulatory and establishment barriers including fighting a 3 year legal case in the High Court of Justice and a death threat from a doctor if he refused to work with him The clinic he founded has grown into the largest IVF group in the UK developing exciting new procedures and he has helped establish clinics throughout the world even being invited to introduce IVF to China

The Curious Case of Dr. Pragyan Parker Storyteller Scientist,2024-06-26 Did you know there is a flower that intentionally tries to look and smell like rotting meat Why would it adopt such a bizarre strategy Imagine a family in the Italy that wouldn t even know if they accidentally broke their legs But how can something as painful as a fracture go unnoticed And what if plants hired assassins to kill the herbivores nibbling on their leaves Also there is a group of scientists trying to make strong painkillers from venom of the most deadly snakes in the world Interesting isn t it Dr Pragyan Parker a world renowned scientist and educator delves into these captivating scientific mysteries including the ones you ve just read about However his storytelling serves a dire purpose to save his son Rachit from a kidnapper who desires not money but something far more valuable the secrets of Dr Parker s groundbreaking secret project approved personally by the prime minister In his desperate quest to rescue his only son Dr Parker faces harrowing moral dilemmas Must he choose between his son and the future of his country What do the kidnappers really want Dive into this rollercoaster ride of a book to discover some of the most astonishing stories about science and the scientists behind them

Understanding Family Change and Variation

Jennifer A. Johnson-Hanks,Christine A. Bachrach,S. Philip Morgan,Hans-Peter Kohler,2011-08-27 Fertility rates vary considerably across and within societies and over time Over the last three decades social demographers have made remarkable progress in documenting these axes of variation but theoretical models to explain family change and variation have lagged behind At the same time our sister disciplines from cultural anthropology to social psychology to cognitive science and beyond have made dramatic strides in understanding how social action works and how bodies brains cultural contexts and structural conditions are coordinated in that process Understanding Family Change and Variation Toward a

Theory of Conjunctural Action argues that social demography must be reintegrated into the core of theory and research about the processes and mechanisms of social action and proposes a framework through which that reintegration can occur. This framework posits that material and schematic structures profoundly shape the occurrence frequency and context of the vital events that constitute the object of social demography. Fertility and family behaviors are best understood as a function not just of individual traits but of the structured contexts in which behavior occurs. This approach upends many assumptions in social demography encouraging demographers to embrace the endogeneity of social life and to move beyond fruitless debates of structure versus culture of agency versus structure or of biology versus society.
