Congress,1992 *The Cuban Missile Crisis* Len Scott,R. Gerald Hughes,2015-04-10 This volume brings together a collection of leading international experts to revisit and review our understanding of the Cuban Missile Crisis via a critical reappraisal of some of the key texts In October 1962 humankind came close to the end of its history The risk of catastrophe is now recognised by many to have been greater than realised by protagonists at the time or scholars subsequently The Cuban missile crisis remains one of the mostly intensely studied moments of world history Understanding is framed and informed by Cold War historiography political science and personal experience written by scholars journalists and surviving officials The emergence of Soviet later Russian and other national narratives has broadened the scope of enquiry while scrutiny of the operational especially military dimensions has challenged assumptions about the risk of nuclear war The Cuban Missile Crisis A Critical Reappraisal brings together world leading scholars from America Britain France Canada and Russia to present critical scrutiny of authoritative accounts and to recast assumptions and interpretations The book aims to provide an essential guide for students of the missile crisis the diplomacy of the Cold War and the dynamics of historical interpretation and reinterpretation Offering original ideas and agendas the contributors seek to provide a new understanding of the secrets and mysteries of the moment when the world went to the brink of Armageddon This book will be of great interest to students of the Cuban missile crisis Cold War Studies nuclear proliferation international history and International Relations in general Studies in Communist Affairs United States. presidents In the past when historians and scholars have rated the presidents their evaluations often have been based on individual charisma activism and service during periods of crisis Taking a distinctly new approach in *Recarving Rushmore* Ivan Eland profiles each U S president from Washington to Obama on the merits of his policies and whether those strategies contributed to peace prosperity and liberty This ranking system is based on how effective each president was in fulfilling his oath to uphold the Constitution Contrary to the preferences of modern conservatives and liberals this oath was intended to limit the role of the federal government Readers will be intrigued to discover why of the four men given exalted representations on Mount Rushmore only Washington deserves the honor They will learn why Teddy Roosevelt has been overrated why Jefferson hypocritically violated his lofty rhetoric of liberty and why Lincoln provoked a civil war that achieved far less than believed Readers will uncover why some presidents are rated much higher than the conventional wisdom for example Warren Harding and some rank much lower for example Harry Truman As for more modern U S chief executives Republicans will be astounded to learn that Nixon was the last liberal president and that Reagan wasn't all that conservative Democrats will be amazed to learn that Clinton was in some respects more conservative than George W Bush and why both Obama and Bush are ranked as bad Readers will learn why the author goes against the grain and anoints Eisenhower and Carter as the two best modern presidents
