The Soviet Union and Communist China, 1945-1950 Dieter Heinzig, 2004 Covers the relationship between Moscow and Peking in the 20th century It focuses on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945 up until the signing of the Moscow Chinese Communist Party treaty in 1950

China Learns from the Soviet Union, 1949-Present Hua-Yu Li, 2010-01-05 It is well known that the Soviet Union strongly influenced China in the early 1950s since China committed itself both to the Sino Soviet alliance and to the Soviet model of building socialism What is less well known is that Chinese proved receptive not only to the Soviet economic model but also to the emulation of the Soviet Union in realms such as those of ideology education science and culture In this book an international group of scholars examines China's acceptance and ultimate rejection of Soviet models and practices in economic cultural social and other realms The chapters vividly illustrate the wide ranging and multi dimensional nature of Soviet influence which to this day continues to manifest itself in one critical aspect namely in China's rejection of liberal political reform

Military Review, 2005

The Global Revolution Silvio Pons, 2014-08-28 The Global Revolution A History of International Communism 1917 1991 establishes a relationship between the history of communism and the main processes of globalization in the past century Drawing on a wealth of archival sources Silvio Pons analyses the multifaceted and contradictory relationship between the Soviet Union and the international communist movement to show how communism played a major part in the formation of our modern world The volume presents the argument that during the age of wars from 1914 to 1945 the establishment of the Soviet state in Russia and the birth of the communist movement had an enormous impact because of their promise of world revolution and international civil war Such perspective appeared even more plausible in the aftermath of the Second World War and of revolution in China which paved

the way for the expansion of communism in the post colonial world Communism challenged the West in the Cold War by means of anti capitalist modernization and anti imperialist mobilization showing itself to be a powerful factor in the politicization of global trends However the international legitimacy of communism declined rapidly in the post war era Soviet power exposed its inability to exercise hegemony as distinct from domination The consequences of Sovietization in Europe and the break between the Soviet Union and China were the primary reasons for the decline of communist influence and appeal Since communism lost its political credibility and cultural cohesion its global project had failed The ground was prepared for the devastating impact of Western globalization on communist regimes in Europe and the Soviet Union

Cold War Germany, the Third World, and the Global Humanitarian Regime Young-sun Hong, 2015-03-05 This book examines competition and collaboration among Western powers the socialist bloc and the Third World for control over humanitarian aid programs during the Cold War Young sun Hong s analysis reevaluates the established parameters of German history On the one hand global humanitarian efforts functioned as an arena for a three way political power struggle On the other they gave rise to transnational spaces that allowed for multidimensional social and cultural encounters Hong paints an unexpected view of the global humanitarian regime Algerian insurgents flown to East Germany for medical care barefoot Chinese doctors in Tanzania and West and East German doctors working together in the Congo She also provides a rich analysis of the experiences of African trainees and Asian nurses in the two Germanys This book brings an urgently needed historical perspective to contemporary debates on global governance which largely concern humanitarianism global health south north relationships and global migration

Plural International Relations in a Divided World Stephen Chan, 2017-02-27 The world is troubled and full of misunderstandings It seems a new world order of fundamentalist violence and meaningless atrocity is upon us whilst civilised instruments for cooperation and compromise are becoming increasingly ineffective In this timely book Stephen Chan explores the historical and philosophical roots of difference and discord in the international system He begins with the introduction of the Westphalian system showing how throughout the 20th century new states from the Middle East Asia and Africa entered that system with reservations preconditions and great efforts to introduce new forms of concerts and congresses but without seriously challenging the international status quo By contrast the 21st century has brought turmoil and change in the form of militant Islam be it the Taleban Al Qaeda or ISIS whose varied roots and fluid emergence have so far prevented the West from being able to understand and combat it Developing Kissinger s suspicion of Saudi Arabia as an Islamic state in Westphalian dress Chan argues that what is at stake today is not the development of a new Caliphate or an old radicalism but the effort to supplant and replace the Westphalian system itself This is the complex and challenging reality to which a truly modern and persuasively relevant plural international relations must now adapt Whether it can do so remains to be seen

Victorious in Defeat Alexander V. Pantsov, 2023-03-21 An extensively researched comprehensive biography of Chinese Nationalist leader Chiang Kai shek one of the twentieth century s most

powerful and controversial figures Chiang Kai shek 1887 1975 led the Republic of China for almost fifty years starting in 1926 He was the architect of a new republican China a hero of the Second World War and a faithful ally of the United States Simultaneously a Christian and a Confucian Chiang dreamed of universal equality yet was a perfidious and cunning dictator responsible for the deaths of over 1 5 million innocent people This critical biography is based on Chiang Kai shek s unpublished diaries his extensive personal files from the Russian archives and the Russian files of his relatives associates and foes Alexander V Pantsov sheds new light on the role played by the Russians in Chiang s rise to power in the 1920s and throughout his political career and indeed the Russian influence on the Chinese revolutionary movement as a whole as well as on Chiang s complex relationship with top officials of the United States It is a detailed portrait of a man who ranks with Stalin Roosevelt Hitler Churchill and Gandhi as leaders who shaped our world **China's Security State** Xuezhi

Guo,2012-08-29 China s Security State describes the creation evolution and development of Chinese security and intelligence agencies as well as their role in influencing Chinese Communist Party politics throughout the party s history Xuezhi Guo investigates patterns of leadership politics from the vantage point of security and intelligence organization and operation by providing new evidence and offering alternative interpretations of major events throughout Chinese Communist Party history This analysis promotes a better understanding of the CCP s mechanisms for control over both Party members and the general population This study specifies some of the broader implications for theory and research that can help clarify the nature of Chinese politics and potential future developments in the country s security and intelligence services **Mao and the**

Economic Stalinization of China, 1948-1953 Hua-Yu Li,2006-02-01 In the first systematic study of its kind Hua yu Li tackles one of the most important unresolved mysteries of the early history of the People s Republic of China_the economic policy shift of 1953 As a result of this policy shift the moderate economic policies of New Democracy were abruptly terminated_much sooner than specified by the official party line_and replaced with a radical Stalinist economic program called the general line for socialist transition Utilizing the rich archival materials released in China since the mid 1980s and Russian archival information released since the early 1990s Li presents a compelling explanation for the policy shift Placing the analysis within the larger context of the world communist movement communist ideology and Mao s complicated relationship with Stalin this book makes it clear that the policy shift was initiated by Mao and that he did so for two reasons First he was committed to a history text compiled under Stalin s guidance that purported to describe the Soviet experience of building socialism in the 1920s and 1930s Mao relied heavily on this text as a road map for China to follow in building socialism in the early 1950s Second Mao was driven by feelings of personal rivalry with Stalin and of national rivalry with the Soviet Union he wanted China to achieve socialism faster than the Soviet Union had The precise timing of the change Li argues resulted from Mao s belief that China was economically ready to build socialism and from his decision to interpret an ambiguous statement made by Stalin in October 1952 as a clear endorsement of a policy shift Li asserts that Mao was a

committed Stalinist that he dominated domestic policy decision making and that he skillfully maneuvered his way through his negotiations with Stalin in advancing his own agenda. Situating its analysis within the larger context of the world communist movement, this carefully researched book will have a profound impact on the fields of communist studies and Sino Soviet relations and in studies of Mao Stalin and their relationship. **The New Great Game** Thomas Fingar, 2016-03-23 China's rise has elicited envy, admiration and fear among its neighbors. Although much has been written about this, previous coverage portrays events as determined almost entirely by Beijing. Such accounts minimize or ignore the other side of the equation, namely what individuals, corporate actors and governments in other countries do to attract, shape, exploit or deflect Chinese involvement. **The New Great Game** analyzes and explains how Chinese policies and priorities interact with the goals and actions of other countries in the region. To explore the reciprocal nature of relations between China and countries in South and Central Asia, **The New Great Game** employs numerous policy relevant lenses: geography, culture, history, resource endowments and levels of development. This volume seeks to discover what has happened during the three decades of China's rise and why it happened as it did, with the goal of deeper understanding of Chinese and other national priorities and policies and of discerning patterns among countries and issues. **In the Shadow of Fear** Nick Bunker, 2023-10-03 An evocative portrait of a divided America at the dawn of the Cold War. Halfway through the twentieth century, the United States towered over the world in industrial might. After winning the 1948 election, Harry Truman hoped to use this economic strength to build on FDR's achievements with new liberal reforms. But then, in just ten months between September 1949 and June 1950, the president's ambitions were overtaken by events that left the country gripped by rage and fear. The Soviets tested an atomic bomb, Mao's army swept through China, and at home, Truman faced labor unrest and a Republican Party desperate for power. **In the Shadow of Fear** is an innovative and gripping history of this pivotal moment. Recounting the launch of Senator Joe McCarthy's anti-communist crusade, the defeat of Truman's liberal program, and the start of the Korean War, prizewinning historian Nick Bunker shows us a polarized nation facing crises at home and abroad, a story with deep resonances today. **Deng Xiaoping** Alexander V. Pantsov, Steven I. Levine, 2015-04-01 Deng Xiaoping joined the Chinese Communist movement as a youth and rose in its ranks to become an important lieutenant of Mao's from the 1930s onward. Two years after Mao's death in 1976, Deng became the de facto leader of the Chinese Communist Party and the prime architect of China's post-Mao reforms. Abandoning the Maoist socio-economic policies he had long fervently supported, he set in motion changes that would dramatically transform China's economy, society and position in the world. Three decades later, we are living with the results: China has become the second largest economy and the workshop of the world. And while it is essentially a market economy, socialism with Chinese characteristics, Deng and his successors ensured the continuation of CCP rule by severely repressing the democratic movement and maintaining an iron grip on power. When Deng died at the age of 92 in 1997, he had set China on the path it is following to this day. Alexander Pantsov and Steven Levine's new biography of

Deng Xiaoping does what no other biography has done based on newly discovered documents it covers his entire life from his childhood and student years to the post Tiananmen era Thanks to unprecedented access to Russian archives containing massive files on the Chinese Communist Party the authors present a wealth of new material on Deng dating back to the 1920s In a long and extraordinary life Deng navigated one epic crisis after another Born in 1904 Deng like many Asian revolutionary leaders spent part of the 1920s in Paris where he joined the CCP in its early years He then studied in the USSR just as Stalin was establishing firm control over the Soviet communist party He played an increasingly important role in the troubled decades of the 1930s and 1940s that were marked by civil war and the Japanese invasion He was commissar of a communist dominated area in the early 1930s loyal henchman to Mao during the Long March regional military commander in the anti Japanese war and finally a key leader in the 1946 49 revolution During Mao s quarter century rule Deng oscillated between the heights and the depths of power He was purged during the Cultural Revolution only to reemerge after Mao s death to become China s paramount leader until his own death in 1997 This objective balanced and unprecedentedly rich biography changes our understanding of one of the most important figures in modern history Avak Hakobian Roy Weremchuk,2023-12-15
