**Resolutions and Decisions of the Communist Party of the Soviet Union Volume 4** GREY HODNETT, 1974-12-15 This set of four volumes is an indispensable reference work for the study of modern Russia in general and Soviet Communism in particular Ever since its foundation on the eve of the twentieth century the organization now called the Communist Party of the Soviet Union has been embodying its major policies in documents called resolutions and decisions These form a much more continuous and extensive record of the evolution of Soviet Communism than the writings of any single leader and the standard Soviet anthology of these materials has gone through eight editions over a fifty year period Yet most of this essential material has been available only in Russian and even in that language the standard editions have been marred by selectivity and editorial comment that is often politically motivated At last students of modern Russian studies have access to a multi volume work that not only presents the most important Communist Party resolutions and decisions in English but also amplifies the standard Soviet anthology in important respects and provides editorial explanation that is independent of Kremlin politics The rich store of materials in these four volumes ranges from the formation of the party to the fall of Khrushchev and it deals with a wide range of issues The clearly organized volumes each contain a major introductory essay as well as shorter background essays on each party congress conference or Central Committee plenum The documents approved by these meetings are often fundamental in importance but the centralist operation of the party in power has been such that many of the most vital decisions have been issued in the name of the Central Committee when there was no meeting of that body at all It is one of the signal achievements of these volumes that the selection of materials included was based on a list of all known part decisions whether or not they have been included in

the main Soviet reference work The four volumes in this series are edited as an integral set Each contains a subject index in which Russian abbreviations and acronymic names are translated Tables summarizing the personnel of the main party executive bodies since 1917 are also provided At the same time each of the volumes is built around a coherent period in the development of Russian Communism and each reflects the special features of its time Volume 4 covers the rise and fall of Khrushchev Once again factional activity surfaced in the party as is manifest in the materials translated here Khrushchev's diverse campaigns emerge not only in party congress documents but also in a variety of major decisions that have not been translated into English previously and are too little known The muted nature of the anti Stalin campaign as it appeared in party resolutions is particularly important to study in view of its contrast with the Khrushchev speeches which have been given much fuller dissemination

Guins,2012-12-06 Soviet power rests on two main supports the complete economic dependence of the citizens upon the state and the unlimited political control of the government over the economic social and even cultural life History knows various kinds of despotisms dictatorships and regimentations of economic activity but the U S S R represents a unique kind of dictatorship based on the one party system and integral planning with the specific goal of realization of communism Mankind had never before known such a system Even the best of possible comparisons the analogy with the period of Ptolemies in Egypt is good only in so far as it concerns the regimentation of all kind of economic activity There was in the past no ideology pretending to be adjusted to the needs of the toiling masses no planning system on the same scale and

no Communist party apparatus As concerns the modern world the comparative method is necessary for giving the most graphical characterization of the differences between the Western democracies with their ethical traditions rule of law and the principle of the inviolability of individual rights and on the other hand the Soviet monolithic state with its unscrupulous policy extremities of regimentations and drastic penalties
