Soviet Update 1989 199:

The Gorbachev Factor Archie Brown, 1997-08-07 To understand this singular man the reader can do no better than to turn to Archie Brown's astute and lucid book. There have been several excellent works on Mr Gorbachev but none examines the subject as thoroughly as this volume, a rich study as impressive in its sweep as in its details. Abraham Brumberg, New York Times. Archie Brown's book is not only a richly researched, easily readable biography of Gorbachev himself. It should be studied at once in every diplomatic service worthy of the name, starting with our own Foreign Office. Michael Foot, Evening Standard. Archie Brown has mastered the material and met the people he writes with a historical perspective unavailable to authors of the instant biographies which appeared while Gorbachev was in power. Rodric Braithwaite, Financial Times. Archie Brown's closely reasoned book makes a better case for Gorbachev's record as a reformer than Gorbachev's own memoirs, the most thorough exposition of Gorbachev's domestic political record yet to appear. Jack F. Matlock Jr, New York Review of Books. This Oxford don for years one of the world's most talented Kremlinologists has already found the memoirs, documents and interviews that allow him to provide a remarkably detailed and authoritative account of the key moments in Gorbachev's career. Robert G. Kaiser, Washington Post. It is hard to come away from this admirable book without an affection for Gorbachev's insistence on peaceful change, his willingness to let Eastern Europe go and his determination to nurture a pluralist culture. Nick Cohen, Observer. Brown's latest book is the product of many years of intensive research; it proves to be the most detailed and revealing study of the man who revolutionised the USSR. Excellent. Good Book Guide. *Ideology, Politics, and Diplomacy in East Central Europe* Mieczysław B. Biskupski, 2003. No region of the world has been more affected by the various movements of the twentieth century than East Central Europe. Broadly defined as comprising the historic territories of the Czechs, Hungarians, Poles and Slovaks, East Central Europe has been shaped by the interaction of politics, ideology and diplomacy, especially by the policies of the Great Powers towards the east of Europe. This book addresses Czech politics in Moravia and Czech politics in Bohemia in the nineteenth century, the international politics of relief during World War I, the Morgenthau Mission and the Polish Pogroms of 1919, the Hitler-Stalin Pact and its influence on Poland in 1939, Hungarian Americans during World War II and Polish-East German relations after World War II. Contributors: Bruce Garver, M. B. Biskupski, Neal Pease, William L. Blackwood, Anna M. Cienciala, Steven Bela Vardy and Douglas Selva. M. B. Biskupski is Professor of History at Central Connecticut State University. **America's War on Terror** Tom Lansford, Robert P. Watson, Jack Covarrubias, 2009. Developing ideas established in the successful first edition, this new version of America's War on Terror updates and expands the original collection of essays, allowing the reader to fully understand how the causes of the war on terror, both the domestic and foreign policy implications and the future challenges faced by the United States, have moved on since 2003. **The Global Revolution** Silvio Pons, 2014-08-28. The Global Revolution: A History of International Communism 1917-1991 establishes a relationship between the history of communism and the main processes of globalization.

in the past century Drawing on a wealth of archival sources Silvio Pons analyses the multifaceted and contradictory relationship between the Soviet Union and the international communist movement to show how communism played a major part in the formation of our modern world The volume presents the argument that during the age of wars from 1914 to 1945 the establishment of the Soviet state in Russia and the birth of the communist movement had an enormous impact because of their promise of world revolution and international civil war Such perspective appeared even more plausible in the aftermath of the Second World War and of revolution in China which paved the way for the expansion of communism in the post colonial world Communism challenged the West in the Cold War by means of anti capitalist modernization and anti imperialist mobilization showing itself to be a powerful factor in the politicization of global trends However the international legitimacy of communism declined rapidly in the post war era Soviet power exposed its inability to exercise hegemony as distinct from domination The consequences of Sovietization in Europe and the break between the Soviet Union and China were the primary reasons for the decline of communist influence and appeal Since communism lost its political credibility and cultural cohesion its global project had failed The ground was prepared for the devastating impact of Western globalization on communist regimes in Europe and the Soviet Union Posters, Propaganda, and Persuasion in Election Campaigns Around the World and Through History Steven A. Seidman, 2008 How effective are election campaign posters Providing a unique political history this book traces the impact that these posters as well as broadsides banners and billboards have had around the world over the last two centuries It focuses on the use of this campaign material in the United States as well as in France Great Britain Germany South Africa Japan Mexico and many other countries The book examines how posters evolved and discusses their changing role in the twentieth century and thereafter how technology education legislation artistic movements advertising and political systems effected changes in election posters and other campaign media and how they were employed around the world This comprehensive and original overview of this campaign material includes the first extensive review of the research literature on the topic Posters Propaganda and Persuasion will be useful to scholars and students interested in communications politics history advertising and marketing art history and graphic design

Stalin Stephen Kotkin, 2017-10-31 Monumental The New York Times Book Review Pulitzer Prize finalist Stephen Kotkin has written the definitive biography of Joseph Stalin from collectivization and the Great Terror to the conflict with Hitler s Germany that is the signal event of modern world history In 1929 Joseph Stalin having already achieved dictatorial power over the vast Soviet Empire formally ordered the systematic conversion of the world s largest peasant economy into socialist modernity otherwise known as collectivization regardless of the cost What it cost and what Stalin ruthlessly enacted transformed the country and its ruler in profound and enduring ways Building and running a dictatorship with life and death power over hundreds of millions made Stalin into the uncanny figure he became Stephen Kotkin s Stalin Waiting for Hitler 1929 1941 is the story of how a political system forged an unparalleled personality and vice versa The wholesale

collectivization of some 120 million peasants necessitated levels of coercion that were extreme even for Russia and the resulting mass starvation elicited criticism inside the party even from those Communists committed to the eradication of capitalism But Stalin did not flinch By 1934 when the Soviet Union had stabilized and socialism had been implanted in the countryside praise for his stunning anti capitalist success came from all quarters Stalin however never forgave and never forgot with shocking consequences as he strove to consolidate the state with a brand new elite of young strivers like himself Stalin s obsessions drove him to execute nearly a million people including the military leadership diplomatic and intelligence officials and innumerable leading lights in culture While Stalin revived a great power building a formidable industrialized military the Soviet Union was effectively alone and surrounded by perceived enemies The quest for security would bring Soviet Communism to a shocking and improbable pact with Nazi Germany But that bargain would not unfold as envisioned The lives of Stalin and Hitler and the fates of their respective dictatorships drew ever closer to collision as the world hung in the balance Stalin Waiting for Hitler 1929 1941 is a history of the world during the build up to its most fateful hour from the vantage point of Stalin s seat of power It is a landmark achievement in the annals of historical scholarship and in the art of biography

Tides of Fortune Zack Cooper, 2025-02-25 An ambitious look at how the twentieth century s great powers devised their military strategies and what their implications mean for military competition between the United States and China How will the United States and China evolve militarily in the years ahead Many experts believe the answer to this question is largely unknowable But Zack Cooper argues that the American and Chinese militaries are following a well trodden path For centuries the world s most powerful militaries have adhered to a remarkably consistent pattern of behavior determined largely by their leaders perceptions of relative power shifts By uncovering these trends this book places the evolving military competition between the United States and China in historical context Drawing on a decade of research and on his experience at the White House and the Pentagon Cooper outlines a novel explanation for how militaries change as they rise and decline Tides of Fortune examines the paths of six great powers of the twentieth century tracking how national leaders adjusted their defense objectives strategies and investments in response to perceived shifts in relative power All these militaries followed a common pattern and their experiences shed new light on

both China's recent military modernization and America's potential responses

The Origins of Major War Dale C. Copeland, 2013-02-15 One of the most important questions of human existence is what drives nations to war especially massive system threatening war Much military history focuses on the who when and where of war In this riveting book Dale C Copeland brings attention to bear on why governments make decisions that lead to sustain and intensify conflicts Copeland

presents detailed historical narratives of several twentieth century cases including World War I World War II and the Cold War He highlights instigating factors that transcend individual personalities styles of government geography and historical context to reveal remarkable consistency across several major wars usually considered dissimilar The result is a series of challenges to established interpretive positions and provocative new readings of the causes of conflict Classical realists and neorealists claim that dominant powers initiate war Hegemonic stability realists believe that wars are most often started by rising states Copeland offers an approach stronger in explanatory power and predictive capacity than these three brands of realism he examines not only the power resources but the shifting power differentials of states He specifies more precisely the conditions under which state decline leads to conflict drawing empirical support from the critical cases of the twentieth century as well as major wars spanning from ancient Greece to the Napoleonic Wars

Taiwan and Post-Communist Europe Czeslaw Tubilewicz, 2007-08-07 Taiwan and Post Communist Europe examines Taiwan's economic diplomacy towards post communist states in Central and Eastern Europe The media and occasionally academia have often suggested that Taipei resorts to costly aid trade and investment diplomacy to facilitate its foreign relations whilst China engages in equally costly counter economic diplomacy to keep Taiwan isolated Czeslaw Tubilewicz argues conversely that Beijing's diplomacy in post communist Europe has demonstrated China's reluctance to employ economic instruments against states violating the one China principle when cheaper diplomatic alternatives are available Taipei for its part has demonstrated that promises of economic assistance are sufficient to induce target states short term compliance whilst in the

medium to long term Taiwanese economic assistance conditional upon meeting political criteria has proved inconsequential due to Taipei's refusal to follow up aid commitments This book examines the efficacy and limitations of Taipei's frugal economic diplomacy in furthering its broader diplomatic objectives looking at both Taipei's failure to establish a lasting diplomatic presence in post communist Europe but also its success in securing substantive relations with a number of major post communist states and thus opening transition economies for its exports and investments The first in depth study into Taiwan's economic diplomacy toward post communist Europe this book will appeal to readers interested in Taiwan and China studies diplomacy Asian studies and international relations *Refugees From Revolution* Peter Koehn, 2019-06-26 This book relates social constraints and opportunities to micro level exile decision making It focuses on Cuban Indo Chinese Ethiopian Eritrean and Iranian exile communities in the United States The book analyzes the origins of these large groups of exiles and their treatment under US policy **Replicating Atonement** Mischa Gabowitsch, 2017-12-07 This collection examines what happens when one country's experience of dealing with its traumatic past is held up as a model for others to follow In regional and country studies covering Argentina Canada Japan Lebanon Rwanda Russia Turkey the United States and former Yugoslavia the authors look at the pitfalls misunderstandings and perverse effects but also the promise of trying to replicate atonement Going beyond the idea of a global or transnational memory this book examines the significance of foreign models in atonement practices and analyses the role of national governments international organisations museums foundations NGOs and public intellectuals in shaping the idea that good practices of atonement can be learned The volume also demonstrates how one can productively learn from others by appreciating the complex and contested nature of atonement practices such as Germany's and also by finding the necessary resources in the history of one's own country
