History and Politics Adam Jarosz,Ralph Schattkowsky,2018-04-18 History and politics are interlinked with unbreakable bonds as is manifested primarily in the use of historical arguments in political disputes Regardless of the ideological views represented time period and geographical location politicians consistently and frequently use such arguments with a high degree of effectiveness Driven by a variety of motives they use the category of the past re interpret it and decide what should be remembered and what should be removed from the so called collective memory In practice this means that a properly prepared and delivered narrative of the past can become a powerful instrument in the hands of the ruling class influencing the social and political reality of the country concerned Control of the past and its correct reconstruction can thus effectively contribute to gaining boosting and consolidating power by a political entity An appropriately shaped awareness of the past thus serves an only ancillary role to politics satisfying social expectations and ideological visions Thus the past or rather the memory of it when becoming a topic of interest in the domain of politics forces the creators of the politics of history to improve the tools and mechanisms they wield to ensure its more efficient use

the literature The Russian Revolution and Civil War 1917 1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history The Bibliography focuses on the key years of 1917 to 1921 starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921 and covers all the key events of the intervening years As such it identifies these crucial years as something more than simply the creation of a communist state

The Geopolitics of Domination (Routledge Library Editions: Political Geography) Geoffrey Parker, 2014-10-03 Using the examples of the Ottoman Empire Spain Austria France and Germany this book describes the principal geopolitical features of the expansionist state It then presents a model of the operation of the expansionist process over space and time It goes on to apply the geopolitical characteristics of the model to the period after 1945 in order to assess the extent to which the Soviet Union might be considered as being an expansionist state either actually or potentially This latter question is obviously once more extremely relevant with the current events in Ukraine

Russia and the Wider World in Historical Perspective C. Brennan, M. Frame, 2000-03-01 This new collection of original essays by leading academics explores major issues in Russia's relations with the wider world since the seventeenth century The emphasis is not on Russian foreign policy per se but on the different levels of interaction between Russia its immediate neighbours and the wider global community including cultural political and economic relations The book has been produced in honour of the distinguished historian Professor Paul Dukes

Russian Nationalism Since 1856 Astrid S. Tuminez, 2000 This thoughtful book describes the range of nationalist ideas that have taken root in Russia since 1856 Drawing on a wide range of archival documents and unparalleled interview material from the post Soviet period Tuminez analyzes two cases_Russian panslavism in 1856 1878 and great power nationalism in 1905 1914_when aggressive nationalist ideas clearly influenced Russian foreign policy and contributed to decisions to go to war Yet not all forms of nationalism have been malevolent and the author assesses competing nationalist ideologies in the post Soviet period to clarify the conditions under which a particularly belligerent nationalism could flourish and influence Russian international behavior

Debates on Stalinism Mark Edele, 2020-06-11 Debates on Stalinism introduces major debates about Stalinism during and after the Cold War Did Stalinism form a system in its own right or was it a mere stage in the overall development of Soviet society Was it an aberration from Leninism or the logical conclusion of Marxism Was its violence the revenge of the Russian past or the result of a revolutionary mindset Was Stalinism the work of a madman or the product of social forces beyond his control The book shows the complexities of historiographical debates where evidence politics personality and biography are strongly entangled Debates on Stalinism allows readers to better understand not only the history of history writing but also

contemporary controversies and conflicts in the successor states of the Soviet Union in particular Russia and Ukraine

Anatol Shmelev, 2021-01-01 Even as a country ceases to be a great power the concept of it as a great power can continue to influence decision making and policy formulation This book explores how such a process took place in Russia from 1917 through 1920 when the Bolshevik coup of November 1917 led to the creation of two regimes the Bolshevik Reds and the anti Bolshevik Whites As Reds consolidated their one party dictatorship and nursed global ambitions Whites struggled to achieve a different vision for the future of Russia Anatol Shmelev illuminates the White campaign with fresh purpose and through information from the Hoover Institution Archives exploring how diverse White factions overcame internal tensions to lobby for recognition on the world stage only to fail in part because of the West's desire to leave the Russian question to Russians alone In the Wake of Empire examines the personalities institutions political culture and geostrategic concerns that shaped the foreign policy of the anti Bolshevik governments and attempts to define the White movement through them Additionally Shmelev provides a fascinating psychological study of the factors that ultimately doomed the White effort an irrational and ill placed faith in the desire of the Allies to help them and wishful thinking with regard to their own prospects that obscured the reality around them **Soviet Reactions to Changes in American Military Strategy** Air University (U.S.). Aerospace Studies Institute. Documentary Research Division, 1965
