## **Soviet Interests In Third World:**

Soviet Interests in the Third World Robert Cassen, 1985 Research papers on the role of USSR international relations and foreign policy in developing countries discusses development aid military aid economic relations trade relations incl Arms North South dialogue relations with China and South Asia Africa and Latin America considers links between CMEA countries of Eastern Europe and Middle East Arab country includes case studies of relations with Angola Yemen India Mozambique Syrian Arab Republic and Viet Nam and development policy in Soviet Central Asia References statistical tables U. S. Containment Policy and the Conflict in Indochina William Duiker, 1994-07-01 From the end of World War II down to the dissolution of the Soviet Union the primary objective of U S foreign policy has been to prevent the expansion of communism Indeed that objective was directly embodied in the so called strategy of containment a global approach to the pursuit of U S national security interests that was first adumbrated by George F Kennan in 1947 and later became the guiding force in U S foreign policy At first the concept of containment was applied primarily to Europe It was there that the threat to U S interests from international communism directed from Moscow was first perceived in the form of Soviet efforts to dominate the nations of Eastern Europe and extend Soviet influence into the eastern Mediterranean and the Middle East Other areas of the world Asia Africa and Latin America were considered to be less threatened by forces hostile to the free world or more peripheral to U S foreign policy concerns At least that was the view initially proclaimed by George Kennan himself who identified five areas in the world as vital to the United States North America Great Britain Central Europe the USSR and Japan Only the latter was located in Asia By the end of the decade however the focus of U S containment strategy was extended to include East and Southeast Asia primarily because of the increasing likelihood of a communist victory in the Chinese Civil War which in the minds of some U S policymakers would be tantamount to giving the Soviet Union a dominant position on the Asian mainland Added to the growing threat in China was the increasingly unstable situation in Southeast Asia where the long arc of colonies that had been established by the imperialist powers during the last half of the nineteenth century was gradually but inexorably being replaced by independent states The emergence of such colonial territories into independence was generally viewed as a welcome prospect by foreign policy observers in Washington but when combined with the impending victory of communist forces in China it raised the unsettling possibility that the entire region might be brought within the reach of the Kremlin **The Soviet Bloc And The Third World** Brigitte Schulz, William W. Hansen, Robin A Remington, Istvan Dobozi, 2019-07-11 This volume deals with the nature of the relationship between the countries of Eastern Europe and the Soviet Union and those of the Third World offering some background to the decline in the Soviet Union s international position both politically and economically The Soviet Union In The Third World Carol R Saivetz, 2019-07-09 This book examines the crucial role that Soviet policy toward the Third World played in Soviet efforts to influence the development of the international system in competition with the United States It traces the evolution of Soviet

policy toward the Third World      *Rich Country Interests and Third World Development* Robert Cassen, Richard Jolly, John W. Sewell, Robert Wood, 2025-04-01 First published in 1982 *Rich Country Interests and Third World Development* adds breadth and specificity to the exploration of the interests in Third World development of eleven rich countries the United States Canada Japan Australia the United Kingdom the Federal Republic of Germany The Netherlands Denmark Sweden Norway and France The authors analyze a spectrum of Northern economic political and security interests in development in the South They also examine how national experiences political traditions humanistic values and changing attitudes have influenced perceptions of and relationships with Third World countries over three decades of dramatic change in the North South environment This book helps lay a foundation for negotiated solutions to North South issues by offering a greater appreciation of differences as well as commonalities in interests both among and within industrial and developing countries An overview chapter points to issues broader than those raised in the country studies and addresses a critical question On what terms is it in the interests of the North and South to pursue and fashion interdependence between them in the 1980s

Third World in Soviet Perspective Thomas Perry Thorton, 2015-12-08 The *Third World in Soviet Perspective* consists of translations of a representative selection of essays on numerous aspects of the developing areas by prominent and promising Soviet scholars They deal with Asia Africa and Latin America and range over such subjects as economic development class relationships political forces and agrarian reform with some discussion of more general problems of Soviet research Originally published in 1964 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905      The Soviet Union in the Third World Joseph G.

Whelan, Michael J. Dixon, 1986 Bog med n je analyse af Sovjets st tte til den tredie verden st ttens art og omfang samt om Sovjets politiske og strategiske hensigter med st tten samt om dens betydning for og indflydelse p USA s sikkerhedspolitik

Moscow And The Third World Under Gorbachev W. Raymond Duncan, 2019-04-02 This book explores the scope of Moscow s new thinking in its Third World context highlighted by the USSR s surprising withdrawal from Afghanistan in 1988 It reviews the foreign policy record Gorbachev inherited and assesses his economic and strategic priorities in the diplomatic arena

The Soviet Union in the Third World Robert H. Donaldson, 2022-12-28 The *Soviet Union in the Third World* 1981 analyses Soviet objectives in the developing world the instruments of foreign policy employed and their success and failure the implications of Soviet foreign policy for the international system in general and the US foreign and defence policies in particular Twenty leading specialists examine Soviet involvement in Latin America Africa the Middle East and Asia and discuss the subject from both security and economic perspectives      *The End of the Cold War and The Third World* Artemy

Kalinovsky, Sergey Radchenko, 2011-04-19 This book brings together recent research on the end of the Cold War in the Third World and engages with ongoing debates about regional conflicts the role of great powers in the developing world and the role of international actors in conflict resolution Most of the recent scholarship on the end of the Cold War has focused on Europe or bilateral US Soviet relations By contrast relatively little has been written on the end of the Cold War in the Third World in Asia Africa and Latin America How did the great transformation of the world in the late 1980s affect regional conflicts and client relationships Who won and who lost in the Third World and why do so many Cold War era problems remain unresolved This book brings to light for the first time evidence from newly declassified archives in Russia the United States Eastern Europe as well as from private collections recent memoirs and interviews with key participants It goes further than anything published so far in systematically explaining both from the perspectives of the superpowers and the Third World countries what the end of bipolarity meant not only for the underdeveloped periphery so long enmeshed in ideological socio political and military conflicts sponsored by Washington Moscow or Beijing but also for the broader patterns of international relations This book will be of much interest to students of the Cold War war and conflict studies third world and development studies international history and IR in general

**Problems of Communism**, 1987 *Hearings, Reports and Prints of the House Committee on International Relations* United States. Congress. House. Committee on International Relations, 1977

Condemned to Repetition? Andrew Bennett, 1999 Why did the Soviet Union use less force to preserve the Soviet empire from 1989 to 1991 than it had used in distant and impoverished Angola in 1975 This book fills a key gap in international relations theories by examining how actors preferences and causal conceptions change as they learn from their experiences Andrew Bennett draws on interviews and declassified Politburo documents as well as numerous public statements to establish the views of Soviet and Russian officials He argues that Soviet leaders drew lessons from their apparent successes in Vietnam and elsewhere in the 1970s that made them more interventionist Then as casualties in Afghanistan mounted in the 1980s Soviet leaders learned different lessons that led them to withdraw from regional conflicts and even to abstain from the use of force as the Soviet empire dissolved The loss of this empire led to exaggerated fears of domino effects within Russia and a resurgence of interventionist views culminating in the Russian invasion of Chechnya in 1994 Throughout this process Soviet and Russian leaders and policy experts were divided into competing schools of thought as much by the information to which they were exposed as by their apparent material interests This helps explain how Gorbachev and other new thinkers were able to prevail over the powerful military party industrial complex that had dominated Soviet politics since Stalin's time

*Communist Nations' Military Assistance* John F Copper, 2019-03-01 This book looks at the military aid given by communist bloc countries to other bloc countries and to Third World nations The authors analyze the military aid capabilities of communist donor nations their specific motivations for offering military aid and the policies and guidelines that govern arms assistance They also discuss competition

*Brezhnev Reconsidered* E. Bacon, M.

Sandle,2002-10-11 Leonid Brezhnev was leader of the Soviet Union for almost two decades when it was at the height of its powers This book is a long overdue reappraisal of Brezhnev the man and the system over which he ruled By incorporating much of the new material available in Russian it challenges the received wisdom about the Brezhnev years and provides a fascinating insight into the life and times of one of the twentieth century s most neglected political leaders **Comecon** J. J. Brine,1992 Comecon or the Council for Mutual Economic Assistance was founded by Joseph Stalin in 1949 to counteract the Marshall Plan and reinforce the bonds between the Soviet Union and the people s democracies of Eastern Europe Other Soviet Bloc nations later joined Comecon and for forty years it dominated the trade policies of the Soviet Bloc and profoundly influenced their domestic economic development and relations with the West Comecon collapsed in 1991 after the countries of Eastern Europe rejected communism It was often compared with the West European Common Market but differed vastly in its aims structure powers and activities Its influence is a critical factor in assessing both the economic failures of the Soviet Bloc and the problems facing former member states as they make the transition to free market economies This detailed annotated bibliography is an essential guide to the extensive English language literature about Comecon from its founding until its demise Chapters cover Comecon s history structure and law socialist economic integration the organization s arrangements for international trade and finance environment natural resources and energy labor industry and agriculture science and technology Comecon like the rest of the Soviet Bloc collapsed suddenly but its legacy will color international relations and worldwide economic issues for years to come An understanding of its institutions mechanisms and policies remains vital hi appreciating the economic organization of the former Soviet empire This bibliography will therefore be indispensable to policymakers economists historians and political scientists **Gorbachev's Economic Plans** ,1987

*Proceedings of the Annual Student Conference on United States Affairs* Student Conference on United States Affairs. U.S. Military Academy,1970 **Global Peace And Security** Wolfram F Hanrieder,2019-05-20 Focusing on the social economic and political structures of the postwar global order this collection of essays discusses the search for a new international economic order the transformation of the nation state and the international balance of power the technological and strategic dimensions of the nuclear age East West trade and technology tr *The New International Economic Order* Jeffrey A Hart,1983-10-06
