Soviet Style In War:

SOVIET STYLE IN WAR. Rand Corporation, **Soviet Style in War** Nathan Leites, 1982 This report considers the proclivities of the Soviet armed forces on the battlefield Its conclusions are based on an examination of Soviet memoirs of the war with Germany and of Soviet military publications since then The author suggests that in substantial measure Soviet peculiarities in warfighting are attempts to ward off undesirable tendencies which Soviet leaders perceive in their subordinates as well as in themselves **Soviet Style in War** , 1982 The report addresses itself to the question What are the distinctive propensities in Soviet warfighting particularly on the ground An answer is arrived at by examining both Soviet memoirs of the war with Germany and Soviet military publications since then It is suggested that in substantial measure Soviet peculiarities in warfighting are attempts to ward off undesirable tendencies which Soviet leaders perceive in their subordinates as well as in themselves **The Soviet Union at War, 1941-1945** David Stone, 2010-11-10 Hitlers invasion of the Soviet Union in 1941 precipitated a massive clash of arms that gave rise to destruction and suffering on an unprecedented scale The outcome of this ruthless struggle on the Eastern Front was decisive for the course of the war in Europe Yet the campaigns fought there still receive less attention than those fought by the Western Allies and are less well understood That is why this new survey of the Soviet Union during the Second World War edited by David R Stone is so timely and significant Stone has brought together a distinguished group of experts who give a penetrating reassessment of the Soviet war effort and economy They offer a telling insight into the way in which enormous obstacles were overcome and sacrifices were made in order to achieve an overwhelming victory that changed the shape of Europe Their wide ranging analysis seeks to dispel myths and misperceptions that have distorted our understanding of the performance of the Red Army and the Soviet people Editor David R Stone is professor of history at Kansas State University He is a leading authority on the military and political history of the Soviet Union in the 1920s and 1930s As well as writing numerous journal articles he is the author of two major studies *A Military History of Russia From Ivan the Terrible to the War in Chechnya* and *Hammer and Rifle The Militarization of the Soviet Union 1926 1933* **The Role of the Soviet Union in the Second World War** Boris Sokolov, 2013-04-24 This book investigates several controversial issues regarding the role of the Soviet Union and the performance of the Soviet government and Red Army to which the author provides some provocative answers The primary question explored by the author however regards the effectiveness of both the Red Army and of the Soviet military economy Dr Sokolov argues that the chief defect of the Soviet military economy was the disproportionate emphasis on the production of tanks and aircraft at the expense of transportation means and the means of command and control This leads the author to look at the role of Lend Lease during the war Through the delivery of radio sets trucks jeeps locomotives fuel explosives and so on the author concludes that Lend Lease was critical to the Red Army and that the Soviet Union would not have been able to wage a long war against Germany without the Lend Lease supplies a conclusion that defies decades of Soviet claims to the

contrary Finally the author looks at the still very controversial and hot topic of Red Army losses in the war which was taboo for decades arguing that this is an effective measure of the Red Army s military performance He and other scholars have estimated that the Red Army s losses were on the scale of 27 million three times larger than the official estimates and approximately 10 times greater than the German losses on the Eastern Front He argues that such horrendous casualties and such an unfavorable ratio for the Red Army were the result of the relatively low value placed on human life in both the Russian Empire and the Soviet Union and the much more destructive nature of the Soviet totalitarian regime as compared with the Third Reich which cowed the Soviet generals and officers into total subservience Due to the elimination of all political opposition and the total control over people s lives soldiers and civilians could not protest against the crude tactics that resulted in such a very high rate of losses Dr Boris Sokolov is a prolific author and a member of the Russian branch of PEN International which celebrates literature and promotes freedom of expression In 2008 Dr Sokolov was forced to resign as Professor of Social Anthropology from his post at the Russian State Social University in Moscow at the demand of President Medvedev s administration after publishing an article about the 2008 Russian Georgian War The author of 69 books as of 2012 his work has focused on the history of the Second World War and has also written biographies of such prominent military and political leaders as Bulgakov Stalin Molotov Beria Tukhachevsky Rokossovsky and Zhukov In addition he has written numerous articles on history philology political science and economics A prominent specialist in the problems of military losses military economy and strategy he has given lectures in Russia Estonia Latvia and Denmark and his books and articles have been translated into numerous languages He currently resides in Moscow and is working on a biography of Marshal Rodion Malinovsky Stuart Britton is a freelance translator and editor residing in Cedar Rapids Iowa He has been responsible for making a growing number of Russian titles available to readers of the English language consisting primarily of memoirs by Red Army veterans and recent historical research concerning the Eastern Front of the Second World War and Soviet air operations in the Korean War Notable recent titles include Valeriy Zamulin s award winning Demolishing the Myth The Tank Battle at Prokhorovka Kursk July 1943 An Operational Narrative Helion 2011 Boris Gorbachevsky s Through the Maelstrom A Red Army Soldier s War on the Eastern Front 1942 45 University Press of Kansas 2008 and Yuri Sutiagin s and Igor Seidov s MiG Menace Over Korea The Story of Soviet Fighter Ace Nikolai Sutiagin Pen Sword Aviation 2009 Future books will include Svetlana Gerasimova s analysis of the prolonged and savage fighting against Army Group Center in 1942 43 to liberate the city of Rzhev and more of Igor Seidov s studies of the Soviet side of the air war in Korea 1951 1953 The Military History of the Soviet Union F. Kagan,R. Higham,2016-04-30 The Military History of the Soviet Union and The Military History of Tsarist Russia treat Russian military history from the rise of the Muscovite state to the present even peeking briefly into the future The two volumes will cover Russia s land forces extensively but will also cover the development of the Russian Navy and the creation and development of the Russian Air Force parts of the Russian military

machine which are frequently neglected in general writings The historical analysis will address the development and function of the Russian military whether in peace or in war as well as the impact of war and changes in the military upon Russian society and politics

Soviet Style in War. Revised Edition ,1992 **Air University Library Index to Military Periodicals** ,1994 **SOVIET STYLE IN WAR. (REV. ED.)**. Rand Corporation, The Great Patriotic War of the Soviet Union, 1941-45 Alexander Hill,2008-12-10 This book consists of extracts from key documents along with commentary and further reading on the Great Patriotic War of the Soviet Union against Nazi Germany 1941 45 Despite the historical significance of the war few Soviet documents have been published in English This work provides translations of a range of extracts from Soviet documents relating to the titanic struggle on the Eastern Front during World War II with commentary This is the only single volume work in English to use documentary evidence to look at the Soviet war effort from military political economic and diplomatic perspectives The book should not only facilitate a deeper study of the Soviet war effort but also allow more balanced study of what is widely known in the West as the Eastern Front This book will be of much interest to students and scholars of military history Soviet history and World War II history Building Communism and Policing Deviance in the Soviet Union Mirjam Galley,2020-12-31 This book examines through a detailed study of Soviet residential childcare homes and boarding schools the much wider issues of Soviet policies towards deviance social norms repression and social control It reveals how through targeting children whose parents could not or did not take care of them as well as children with disabilities the system disproportionately involved children from socially marginal and poor families It highlights how the system aimed to raise these children from the margins of society and transform them into healthy happy useful Soviet citizens imbued with socialist values The book also outlines how the system fitted in to Khrushchev s reforms and social order policies where the emphasis was on monitoring and controlling society without the recourse to direct repression and terror and how continuity with this period was maintained even as the rest of Soviet society changed significantly

The Soviet Union, Hong Kong, and the Cold War, 1945-1970 Michael Share,2003 **CIA Cold War Records, Selected Estimates on The Soviet Union, 1950-1959** ,2000 **Myth Making in the Soviet Union and Modern Russia** Vicky Davis,2017-11-30 The 1943 battle to free the Soviet Black Sea port of Novorossiisk from German occupation was fought from the beach head of Malaia zemlia where the young Colonel Leonid Brezhnev saw action Despite widespread scepticism of the state s appropriation and inflation of this historical event the heroes of the campaign are still commemorated in Novorossiisk today by an amalgam of memoir monuments and ritual Through the prism of this provincial Russian town Vicky Davis sheds light on the character of Brezhnev as perceived by his people and on the process of memory for the ordinary Russian citizen Davis analyses the construction and propagation of the local war myth to link the individual citizens of Novorossiisk with evolving state policy since World War II and examines the resultant social and political connotations Her compelling new interdisciplinary evidence reveals the complexity of myth and memory challenging existing

assumptions to show that there is still scope for the local community and even the individual in memory construction in an authoritarian environment This book represents a much needed departure from the study of myth and memory in larger cities of the former Soviet Union adding nuance to the existing portrait of Brezhnev and demonstrating the continued importance of war memory in Russia today *Library of Congress Subject Headings* Library of Congress, Library of Congress. Writing History in the Soviet Union Arup Banerji, 2008 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed *Writing History in the Soviet Union Making the Past Work* is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka

Introduction to World War II Gilad James, PhD, World War II began on September 1 1939 with Germany invading Poland This marked the beginning of a global conflict that lasted six long years and involved the majority of the world's nations The war ended on September 2 1945 when Japan formally surrendered after atomic bombs were dropped on their cities of Hiroshima and Nagasaki However the war had already taken a huge toll on the world with more than 60 million people having lost their lives making it the deadliest conflict in human history The root causes of World War II can be traced back to the Treaty of Versailles which ended World War I The treaty had placed severe sanctions on Germany such as huge war reparations and loss of territory which led to an economic depression in the country In addition the rise of dictatorial regimes in countries such as Japan and Italy as well as the militarization and aggression of

Nazi Germany created tensions that eventually erupted into war. The war had far-reaching consequences on the world, including the establishment of the United Nations and the emergence of the United States and the Soviet Union as superpowers.
