this foundational work of spiritual science we see how the creation and evolution of humanity is embedded at the heart of the vast invisible web of interacting cosmic beings through whom the alchemical processes of cosmic evolution continue to evolve Included are descriptions of the physical spiritual makeup of the human being the relationships of the different bodies of the human being to sleep and death and a detailed practical guide to methods and exercises including the Rose Cross Meditation through which we can attain knowledge of the spiritual worlds The most remarkable and revolutionary aspect of this work is the central function that Steiner attributes to the Christ and his involvement in human and earthly evolution through the Mystery of Golgotha An Outline of Esoteric Science is essential reading for all serious students of esoteric spirituality and Anthroposophy This foundational guide to Spiritual Science is a translation of Die Geheimwissenschaft im Umriß GA 13

Meaning and Truth in African Philosophy Grivas Muchineripi Kayange, 2018-11-23 This book offers a new way of doing African philosophy by building on an analysis of the way people talk The author bases his investigation on the belief that traditional African philosophy is hidden in expressions used in ordinary language As a result he argues that people are engaging in a philosophical activity when they use expressions such as taboos proverbs idioms riddles and metaphors The analysis investigates proverbs using the ordinary language approach and Speech Act theory Next the author looks at taboos using counterfactual logic which studies the meaning of taboo expressions by departing from a consideration of their structure and use He argues that the study of these figurative expressions using the counterfactual framework offers a particular understanding of African philosophy and belief systems The study also investigates issues of meaning and rationality departing from a study on riddles explores conceptual metaphors used in conceptualizing the notion of politics in modern African political thought and examines language and marginalization of women and people with disabilities The book differs from other works in African philosophy in the sense that it does not claim that Africans have a philosophy as is commonly done in most studies Rather it reflects and unfolds philosophical elements in ordinary language use The book also builds African Conception of beauty and truth through the study of language
