Space Between Words The Origins Of Silent Reading Series Figurae Reading Medieval Culture:

Space Between Words Paul Saenger, 1997 Silent reading is now universally accepted as normal indeed reading aloud to oneself may be interpreted as showing a lack of ability or understanding Yet reading aloud was usual indeed unavoidable throughout antiquity and most of the middle ages Saenger investigates the origins of the gradual separation of words within a continuous written text and the consequent development of silent reading He then explores the spread of these practices throughout western Europe and the eventual domination of silent reading in the late medieval period A detailed work with substantial notes and appendices for reference

Reading the World Mary Franklin-Brown, 2024-05-31 The thirteenth century saw such a proliferation of new encyclopedic texts that more than one scholar has called it the century of the encyclopedias Various referred to as a speculum thesaurus or imago mundi the term encyclopedia was not commonly applied to such books until the eighteenth century these texts were organized in such a way that a reader could easily locate a collection of authoritative statements on any given topic Because they reproduced rather than simply summarized parts of prior texts these compilations became libraries in miniature In this groundbreaking study Mary Franklin Brown examines writings in Latin Catalan and French that are connected to the encyclopedic movement Vincent of Beauvais's *Speculum maius* Ramon Llull's *Libre de meravelles* *Arbor scientiae* and *Arbre de filosofia d'amor* and Jean de Meun's continuation of the *Roman de la Rose* Franklin Brown analyzes the order of knowledge in these challenging texts describing the wide ranging interests the textual practices including commentary compilation and organization and the diverse discourses that they absorb from preexisting classical patristic and medieval writing She also demonstrates how these encyclopedias like libraries became heterotopias of knowledge spaces where many possible ways of knowing are juxtaposed But Franklin Brown's study will not appeal only to historians she argues that a revised understanding of late medievalism makes it possible to discern a close connection between scholasticism and contemporary imaginative literature She shows how encyclopedists employed the same practices of figuration narrative and citation as poets and romanciers while much of the difficulty of the imaginative writing of this period derives from a juxtaposition of heterogeneous discourses inspired by encyclopedias With rich and innovative readings of texts both familiar and neglected *Reading the World* reveals how the study of encyclopedism can illuminate both the intellectual work and the imaginative writing of the scholastic age

The Old English Gloss to the Lindisfarne Gospels Julia Fernández Cuesta, Sara M. The Muratorian Fragment Clare K. Rothschild, 2022-04-19 This volume offers an introduction, critical edition, and fresh English translation of the Muratorian Fragment. In addition to addressing questions of authorship, date, provenance, and sources, Clare K. Rothschild carefully analyzes the text's language, composition, genre, and possible functions, with reference to a breathtaking range of scholarly positions and findings from the eighteenth century to the present. She also investigates its position within the eclectic eighth-century Muratorian Codex Ambr I 101. A line-by-line philological commentary draws attention to literary, philosophical, and religious aspects of the individual traditions represented. This study should be of interest to scholars of the New Testament and early Christian literature, as well as experts on the emergence of the canon and historians of the Latin Medieval West.

Courtly Contradictions Sarah Kay, 2001 Where does courtly literature come from? What is the meaning of courtly love? What is the relation between religious and secular culture in the Middle Ages, and why does it matter? This book addresses these questions by way of contradiction, which is central both to medieval logic and to most modern protocols of reading.

The Ambivalences of Medieval Religious Drama Rainer Warning, 2001 What is medieval religious drama, and what function does it serve in negotiating between the domains of theology and popular life? This book aims to answer these questions by studying three sets of these dramas from Germany, France, England, and Spain: 10th-century Easter plays, 12th-century Adam plays, and 15th- and 16th-century Passion plays.

How the Anglo-Saxons Read Their Poems Daniel Donoghue, 2018-04-19 Daniel Donoghue shows how the earliest readers of Old English poems deployed a unique set of skills that enabled them to navigate a daunting task with apparent ease.

Music, Body, and Desire in Medieval Culture Bruce W. Holsinger, 2001 Ranging chronologically from the twelfth to the fifteenth centuries and thematically from Latin to vernacular literary modes, this book challenges standard assumptions about the musical cultures and philosophies of the European Middle Ages. Engaging a wide range of premodern texts and contexts, the author argues that medieval music was quintessentially a practice of the flesh. It will be of compelling interest to historians of literature, music, religion, and sexuality, as well as scholars of cultural gender and queer studies.

Visual and Written Culture in Ancient Egypt John Baines, 2007-05-17 A generously illustrated selection of John Baines's influential writings on two core areas of ancient Egyptian civilization: the role of writing, which was very different in antiquity from what is familiar in the modern world, and the importance of visual culture. These questions are explored through a number of case studies. The volume assembles articles that were scattered in publications in a variety of disciplines, making available key contributions on core problems of theory, comparison, and analysis in the study of many civilizations, and offering important points of departure for further research. Three wholly new essays are included, and the overall approach is an interdisciplinary one, synthesizing insights from archaeology, anthropology,

Brickle, 2012-02-16 Unlike literature in the modern western world ancient documents were typically crafted for the ear rather than the eye Jeffrey E Brickle analyses the oral patterning and resulting soundscape reflected in the prologue of First John After discussing contemporary techniques of sound analysis and establishing the study's methodological approach Brickle examines the prologue's aural profile To do this he explores describes and graphically depicts the patterns of sound that emerge Brickle then uses approaches to Greek pronunciation and orality advocated in recent New Testament research to determine the impact on the prologue's soundscape He employs the principles for beautiful and effective composition elucidated by Dionysius of Halicarnassus in his treatise On literary composition The results and implications of this study enable Brickle to suggest further ways to apply research in orality performance and memory to ancient texts From publisher description [Material Aspects of Reading in Ancient and Medieval Cultures](#) Anna Krauß, Jonas Leipziger, Friederike Schücking-Jungblut, 2020-05-05 This publication seeks to endeavour the relationship between material artefacts and reading practices in ancient and medieval cultures While the acts of reception of written artefacts in former times are irretrievably lost some of the involved artefacts are preserved and might comprise hints to the ancient reading practices In form of case studies the contributions to this volume examine various forms of written artefacts as to their implications on modes of reading Analyzing different Qumran scrolls codices Tefillin Mezuzot magical texts tablets bricks and statues as well as meta textual and iconographic aspects the articles inquire the possibilities of how to correlate
