Bad Gardening Advice Steve Schmolaris, 2023-08-23 What do reviews of the Winnipeg music scene have in common with crappy advice on growing a garden? The worm. This book's worm is Steve Schmolaris, a man of discerning taste with over forty-five years of servitude and dedication to Winnipeg music under his belt who has devoted his life to extolling its virtues. Who delicately unfolds each song to eat, to hold, to plant like seeds to reflect their singular beauty and uniqueness back to them. Here you will find a compendium of Winnipeg's proud fourth best local music review site of the same name, written in the same acerbic confrontational voice readers will be used to. Taking up an eclectic range of artists and genres, *Bad Gardening Advice*'s reviews take many forms from mock interviews to recipes to love letters peppered by Schmolaris's musings on death, lost love, and the musicians' sex appeal. This original and inventive collection will make a great addition to the bookshelves of anyone close to the Winnipeg music scene, especially those in it. In *Bad Gardening Advice*, some of the artists reviewed are professionals. Some of them are amateurs. Most of them are weirdos. But if you know how to look, all of them are doing something interesting. All of them have something worth making music about. Welcome to the Bad Garden.

in Cio's Clothing Tina Nunno, 2016-09-19 Machiavellians are few in number in IT The massive pressure on CIOs continues to increase as the opportunities to use technology in business become more prevalent and more competitive As CIOs often find themselves at the center of business conflict they must not only familiarize themselves with Machiavellian tactics as a defensive weapon but also learn to use them as an offensive weapon in extreme situations so that they can increase IT s contribution to their enterprises As Italian political philosopher Niccolo Machiavelli implied you re either predator or prey and the animal you most resemble determines your position on the food chain In The Wolf in CIO s Clothing Gartner analyst and author Tina Nunno expands on Machiavelli s metaphor examining seven animal types and the leadership attributes of each Nunno posits the wolf a social animal with strong predatory instincts as the ideal example of how a leader can adapt and thrive Technology may be black and white but successful leadership demands an ability to exist in the grey Drawing on her experience with hundreds of CIOs Nunno charts a viable way to master the Machiavellian principles of power manipulation love and war Through compelling case studies her approach demonstrates how CIOs and IT leaders can adjust their leadership styles in extreme situations for their own success and that of their teams *Progress in Optics: A Tribute to*
