The Dog Fancier ,1928 *Dog's Best Friend?* John

Sorenson,Atsuko Matsuoka,2019-11-14 In almost 40 per cent of households in North America dogs are kept as companion animals Dogs may be man s best friends but what are humans to dogs If these animals loyalty and unconditional love have won our hearts why do we so often view closely related wild canids such as foxes wolves and coyotes as pests predatory killers and demons Re examining the complexity and contradictions of human attitudes towards these animals Dog s Best Friend looks at how our relationships with canids have shaped and also been transformed by different political and economic contexts Journeying from ancient Greek and Roman societies to Japan s Edo period to eighteenth century England essays

explore how dogs are welcomed as family consumed in Asian food markets and used in Western laboratories Contributors provide glimpses of the lives of street dogs and humans in Bali India Taiwan and Turkey and illuminate historical and current interactions in Western societies The book delves into the fantasies and fears that play out in stereotypes of coyotes and wolves while also acknowledging that events such as the Wolf Howl in Canada s Algonquin Park indicate the emergence of new popular perspectives on canids Questioning where canids belong how they should be treated and what rights they should have Dog s Best Friend reconsiders the concept of justice and whether it can be extended beyond the limit of the human species *Clinical Medicine of the Dog and Cat* Michael Schaer, Frederic Gaschen, 2016-09-14 No other

comprehensive small animal veterinary medicine book exists with a comparable amount of relevant illustrated material This new third edition continues and expands on the revolutionary approach of the previous two editions now including more than 1 850 highly valuable clinical colour photographs diagrams and tables The book is now divided into five color coded sections General Approach Disease of Specific Organ Systems Multisystemic Disorders Elements of Therapy and Case Studies As with the first and second editions of this book the overriding principle of succinct yet comprehensive text presented in a clear format with an abundance of good quality images remains Section I General Approach is completely new and covers medical history and client communication and common clinical problems Section II Specific Organ Systems is organized by body system with chapters structured in a systematic manner that include the definition for each disorder its causes clinical features differential diagnoses diagnostic methodology treatment and prognosis providing readers with easy access to important clinical information New to this section are chapters covering diseases of the oral cavity and teeth approach to thoracic radiographs approach to abdominal radiographs and disorders of hemostasis Section III Multisystemic Disorders covers revised and updated chapters including clinical toxicology infectious diseases and immunologic disorders Section IV Elements of Therapy covers therapies such as fluid therapy pain management nutrition of the critically ill dog and cat and a new chapter on management of the obese dog or cat Section V Case Studies includes over 25 case studies that enable the reader to relate the knowledge gained in the book to clinical cases seen in practice Written by board certified experts with several case contributions by clinicians in advanced phases of resident training topics were carefully selected to make this a valuable resource to the general practitioner and also to small animal interns and veterinary students **Nose for Danger**

uncovering the secrets of Terrorism Klöpper Karl-Heinz, 2023-08-05 Welcome to the world of Nose for Danger uncovering the secrets of Terrorism A book that takes you on a breathtaking journey deep into the heart of terrorism and the lives of those who tirelessly stand at the forefront to protect us The complex network of terror is illuminated here from politically motivated crime state terrorism left wing and right wing extremism constitutional protection relevant delegitimization of the state foreign related terrorism to the self administrators and Reich citizens And last but not least the often overlooked yet devastating presence of Islamist terrorism However the protagonists in this multi layered drama are not only humans At the

center of this work stand the invisible heroes the explosive detection dogs With their remarkable ability to sniff out explosives they play a crucial role in combating this global threat The book *Nose for Danger* uncovering the secrets of Terrorism is a wake up call reminding us that terrorism is not just a problem we see in the news but a reality that occurs every day in our world It invites us to delve deeper into this issue and learn more about the various facets of terrorism that are often overlooked or seem too complex to understand This book is a journey into darkness to find the light It is a call to rethink and question our perceptions and understanding of terrorism 502 pages 84 pages color illustrated Who is the book suitable for Professionals in law enforcement and security These individuals work directly with the issues of terrorism and can benefit from a deeper understanding of the role of detection dogs and their training in combating terrorism Students and scholars in criminology and security studies This group can gain valuable insights from the deep dive into terrorism and related topics discussed in my book *Dog handlers and trainers* People who work with dogs especially detection dogs could benefit from the detailed information on the training and skills of detection dogs General audience with interest in social political and security related issues This group could be interested in the insights into the world of terrorism and the role of detection dogs in combating this threat Dog lovers and enthusiasts People who love and appreciate dogs might be interested in the special skills and the role of detection dogs in society Readers of non fiction and true crime books People who enjoy reading books about real events and crimes might be interested in the detailed insights and stories in my book Those interested in politics and human rights activists This group can benefit from the discussions on various forms of terrorism and their impacts on society Even though the book is specifically aimed at handlers of explosive detection dogs it still provides a valuable insight into the basics of detection dog training which are universally applicable Regardless of a detection dog s specific specialization be it drugs data carriers incendiary devices or other search areas the basic principles of training and the abilities of a detection dog remain constant The techniques and methods detailed in this book such as line up training the scent wheel and reliability training can easily be applied to other areas of detection dog training Learning these techniques can help dog handlers in all areas improve their training methods and refine their dogs abilities Furthermore the comprehensive discussion of topics such as understanding scent theory dealing with environmental variables and scaling of training could also be valuable for detection dog handlers in other specialties The insights presented in this book can help them gain a deeper understanding of their dogs work and adapt their training approaches accordingly
