Space For Living A Novel Of Grand Coulee:

Space for Living Margaret Thompson, 1944 **The Bioregional Imagination** Cheryll Glotfelty, Karla Armbruster, Tom Lynch, 2012-03-01 Bioregionalism is an innovative way of thinking about place and planet from an ecological perspective Although bioregional ideas occur regularly in ecocritical writing until now no systematic effort has been made to outline the principles of bioregional literary criticism and to use it as a way to read write understand and teach literature The twenty four original essays here are written by an outstanding selection of international scholars The range of bioregions covered is global and includes such diverse places as British Columbia s Meldrum Creek and Italy s Po River Valley the Arctic and the Outback There are even forays into cyberspace and outer space In their comprehensive introduction the editors map the terrain of the bioregional movement including its history and potential to inspire and invigorate place based and environmental literary criticism Responding to bioregional tenets this volume is divided into four sections The essays in the Reinhabiting section narrate experiments in living in place and restoring damaged environments The Rereading essays practice bioregional literary criticism both by examining texts with strong ties to bioregional paradigms and by opening other less obvious texts to bioregional analysis In Reimagining the essays push bioregionalism to evolve by expanding its corpus of texts coupling its perspectives with other approaches or challenging its core constructs Essays in the Renewal section address bioregional pedagogy beginning with local habitat studies and concluding with musings about the Internet In response to the environmental crisis we must reimagine our relationship to the places we inhabit This volume shows how literature and literary studies are fundamental tools to such a reimagining **Pacific Northwest Quarterly**, 1944 *The Publishers' Trade List Annual*, 1972 *The Retail Bookseller*, 1944 **AB Bookman's Weekly**, 1994 **NASA Historical Data Book: NASA launch systems, space transportation, human spaceflight, and space science, 1989-1998**, 1988 **NASA Historical Data Book: NASA launch systems, space transportation**, 1988 **The National Union Catalog, Pre-1956 Imprints**, 1968 *NASA historical data book, Volume 7: NASA Launch Systems Space Transportation/Human Space Flight*, 1988 **A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942**, 1942 **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library. Research Libraries, 1979 *Atomic Frontier Days* John M. Findlay, Bruce W. Hevly, 2011-10-01 Outstanding Title by Choice Magazine On the banks of the Pacific Northwest s greatest river lies the Hanford nuclear reservation an industrial site that appears to be at odds with the surrounding vineyards and desert The 586 square mile compound on the Columbia River is known both for its origins as part of the Manhattan Project which made the first atomic bombs and for the monumental effort now under way to clean up forty five years of waste from manufacturing plutonium for nuclear weapons Hanford routinely makes the news as scientists litigants administrators and politicians argue over its past and its future It is easy to think about Hanford as an expression of federal power a place apart from humanity and nature but that view distorts

its history Atomic Frontier Days looks through a wider lens telling a complex story of production community building politics and environmental sensibilities In brilliantly structured parallel stories the authors bridge the divisions that accompany Hanford s headlines and offer perspective on today s controversies Influenced as much by regional culture economics and politics as by war diplomacy and environmentalism Hanford and the Tri Cities of Richland Pasco and Kennewick illuminate the history of the modern American West **Living Above the Store** Martin Melaver,2009 Not Merely Sustainable Restorative A viable business is a living thing embedded in the complex web of economy community and ecology Done right business can help correct the modern stresses of environmental degradation and social fragmentation and create value for workers shareholders and additional stakeholders in the community Living Above the Store explores a road less traveled and chronicles how business can navigate a new path toward successful restorative practices Book jacket **School Life** ,1941
