Jacqueline Vischer, 2007-05-07 Showing how worker productivity and stress levels are affected by factors such as lighting ventilation temperature noise and layout this book demonstrates how the technical aspects of human comfort do not always tally with users perceptions and behaviour With vivid examples and case studies to illustrate how space is a corporate resource rather than simply overhead Vischer reveals how companies can improve their ability to make design decisions on how best to accommodate their employees in a high quality workspace Leadership in Spaces and Places Arja Ropo, Perttu Salovaara, Erika Sauer, Donatella De Paoli, 2015-06-29 By combining new research on leadership and workspaces *Leadership in Spaces and Places* argues for a radical reconceptualization of leadership They argue leadership is not only about leaders themselves but is also affected by the built environment *Building Performance Evaluation* Wolfgang F.E. Preiser, Andrea E. Hardy, Ulrich Schramm, 2017-08-30 The main aim of this book is to present an intriguing retrospective of Building Performance Evaluation BPE as it evolved from Post Occupancy Evaluation POE over the past 25 years On one hand this is done by updating original authors chapter content of Building Evaluation the first edition published in 1989 That in turn is augmented by an orientation toward current and future practice on the other including new authors who are engaged in ongoing cutting edge projects Therefore individual methodology oriented chapters covering the fundamental principles of POE and BPE go along with major thematic chapters topics of which like sustainability or integration of new technologies are addressed in a diversity of case studies from around the globe Research methodologies and framework of POEs continue to evolve POEs are one step on the larger scale of BPE in understanding how buildings function after they are occupied This resource helps architects building owners and facility managers understand the implications and reactions to the facilities that they designed built and or commissioned By considering the whole process from conception to future uses of the building there can be a more holistic approach to the planning programming design construction occupancy and future adaptability of the structure This book is dedicated to first editor Wolfgang F E Preiser who passed away during the process of editing and reviewing chapters of this volume *Human-Computer Interaction: Towards Mobile and Intelligent Interaction Environments* Julie A.
