Legendary science fiction writer Arthur C Clark would later recall Rutan s quote in a piece he wrote about SpaceShipOne and comment Fortunately we need not rely solely on governments for expanding humanity s presence beyond the Earth Burt Rutan s Race to Space showcases Rutan s herculean efforts to do just that Smithsonian s Air and Space Museum displays his most celebrated achievements including SpaceShipOne which won the coveted 10 million Ansari X Prize for private spaceflight Voyager which hangs with SpaceShipOne in the Milestones of Flight gallery the Virgin Atlantic GlobalFlyer and the VariEze His many aerospace innovations preceding his most recently conceived designs SpaceShipTwo and WhiteKnightTwo chronicle a progressive step by step attempt to break barriers with engineering know how and a wondrous imagination all the while remaining on the forefront of the burgeoning private spaceflight industry Rutan s X Prize triumph and subsequent spacecraft designs are not a beginning nor an end but are steps in Burt Rutan s continuing adventure to expand humanity s presence beyond the Earth and into space *Designing a Shuttle* Elisa Jordan,2018-10-01 In the 1970s NASA wanted to build a new kind of spacecraft that could be used over and over again The Space Shuttle Program was born and NASA engineers and scientists were tasked with designing and creating the first shuttle Nine years later the first space shuttle was launched Learn the history of the Space Shuttle Program and the many issues and problems that the engineers faced Created in collaboration with the Smithsonian Institution this Smithsonian Informational Text builds reading skills while engaging students curiosity about STEAM topics through real world examples Packed with factoids and informative sidebars it features a hands on STEAM challenge that is perfect for use in a makerspace and teaches students every step of the engineering design process Make STEAM career connections with career advice from actual Smithsonian employees working in STEAM fields Discover engineering innovations that solve real world problems with content that touches on all aspects of STEAM Science Technology Engineering the Arts and Math Safe Is Not An Option Rand Simberg,2014-04-10 The history of exploration and establishment of new lands science and technologies has always entailed risk to the health and lives of the explorers Yet when it comes to exploring and developing the high frontier of space the harshest frontier ever the highest value is apparently not the accomplishment of those goals but of minimizing if not eliminating the possibility of injury or death of the humans carrying them out For decades since the end of Apollo human spaceflight has been very expensive and relatively rare about 500 people total with a death rate of about 4% largely because of this risk aversion on the part of the federal government and culture From the Space Shuttle to the International Space Station the new commercial crew program to deliver astronauts to it and the regulatory approach for commercial spaceflight providers our attitude toward safety has been fundamentally irrational expensive and even dangerous while generating minimal accomplishment for maximal cost This book entertainingly explains why this means that we must regulate passenger safety in the new commercial spaceflight industry with a lighter hand than many might instinctively prefer that NASA must more carefully evaluate rewards from a planned mission to rationally determine how much should be spent to avoid the loss of participants

and that Congress must stop insisting that safety is the highest priority for such insistence is an eloquent testament to how unimportant they and the nation consider the opening of this new **Designing a Shuttle 6-Pack**, 2018-10-01 In the 1970s NASA wanted to build a new kind of spacecraft that could be used over and over again The Space Shuttle Program was born and NASA engineers and scientists were tasked with designing and creating the first shuttle Nine years later the first space shuttle was launched Learn the history of the Space Shuttle Program and the many issues and problems that the engineers faced Created in collaboration with the Smithsonian Institution this Smithsonian Informational Text builds reading skills while engaging students curiosity about STEAM topics through real world examples Packed with factoids and informative sidebars it features a hands on STEAM challenge that is perfect for use in a makerspace and teaches students every step of the engineering design process Make STEAM career connections with career advice from actual Smithsonian employees working in STEAM fields Discover engineering innovations that solve real world problems with content that touches on all aspects of STEAM Science Technology Engineering the Arts and Math *Fodor's Florida* Fodor's Travel Guides, 2017-09-12 Written by locals Fodor's travel guides have been offering expert advice for all tastes and budgets for more than 80 years From the Panhandle's white sandy beaches to Walt Disney World and the Space Coast to hip Miami with its trendy hotels dining and nightlife Florida's attractions along with balmy weather and beautiful people lure over 80 million visitors to the state every year In full color throughout Fodor's Florida takes a smart insider's look at the state with helpful planning advice at the start of each chapter Fodor's Florida includes PHOTOS AND ITINERARIES to inspire and guide your trip UP TO DATE COVERAGE Recommendations on new hotels restaurants attractions shops and sports outfitters throughout the state ILLUSTRATED FEATURES Special features throughout the guide illuminate the most distinctive features of Florida Art Deco Miami Spring Training and the Everglades Ecosystems give travelers an unparalleled sense of Florida INDISPENSABLE TRIP PLANNING TOOLS An Experience Florida chapter covering what's new in the state great itineraries and other helpful tips helps readers choose their perfect Florida trip Each chapter opens with a map Top Reasons to Go and other essential information to help visitors plan time and vacation details effectively DISCERNING RECOMMENDATIONS Fodor's Florida offers savvy advice and recommendations from local writers to help travelers make the most of their time Fodor's Choice designates our best picks from hotels to nightlife COVERS Miami Fort Lauderdale Palm Beach Tampa Naples Daytona St Augustine Jacksonville Pensacola Sanibel and Captiva the Florida Keys the Everglades and more *Designing a Shuttle Guided Reading 6-Pack*, 2019-07-01 How do you build a reusable spacecraft that is strong enough to hold up in outer space but is light enough to fly How do you design it to meet the needs of the astronauts it carries In the 1970s NASA scientists and engineers were tasked with creating something completely new a rocket airplane combination that could safely transport astronauts to and from outer space What they came up with changed the world Created in collaboration with the Smithsonian Institution this book builds students literacy skills while fostering curiosity creativity and innovation The hands on STEAM
