## **Space Time And Incarnation:**

**Space, Time and Incarnation** Thomas F. Torrance, 2005-03-01 When the Nicene Creed affirms that the eternal Son of God for us and for our salvation came down from heaven it asserts that God Himself is actively present within the space and time of our world The philosophical problems that this involves are bound up with Christian theology and form the subject of this book Professor Torrance begins with a critique of modern Protestant thinking and proceeds to examine the place of spatial and temporal elements in basic theological concepts He then offers a positive account of the relation of the incarnation to space and time While related to the work of the great theologians of the past this study is also supremely relevant to theological thinking in this age of science *Space, Time and Resurrection* Thomas F. Torrance, 2018-12-13 In this sequel to *Space Time and Incarnation* Thomas F Torrance sets out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature in the integration of physical and spiritual existence as the death of Christ All this is elucidated in the context of modern scientific thought in such a way as to show that far from being frightened by modern science into a compromise of the New Testament s message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure This classic volume from one of the premier English speaking theologian of the 20th century remains an important contribution to the field of systematic theology For this Cornerstones edition the preface is written by Paul D Molnar *Space, Time, and Incarnation* Thomas Forsyth Torrance, 1997 When the Nicene Creed affirms that the eternal Son of God for us and for our salvation came down from heaven it asserts that God Himself is actively present within the space and time of our world The philosophical problems that this involves are bound up with Christian theology and form the subject of this book Professor Torrance begins with a critique of modern Protestant thinking and proceeds to examine the place of spatial and temporal elements in basic theological concepts He then offers a positive account of the relation of the incarnation to space and time While related to the work of the great theologians of the past this study is also supremely relevant to theological thinking in this age of science Bloomsbury Publishing *Theosis in the Theology of Thomas Torrance* Myk Habets, 2016-02-17 Torrance s vision of Theosis deification divinisation is explored through his doctrine of creation and anthropology his characterisation of the incarnation his accounts of reconciliation and union with Christ and his theology of church and sacraments Myk Habets study distinguishes Torrance s Reformed vision of theosis from other possible accounts of salvation as divinisation as they are found for instance within patristic thought and Eastern Orthodoxy This book presents the first critique of the theology of T F Torrance to focus on theosis and examines a model of theosis within the realm of reformed theology built upon Western theology **An Evangelical Christology** Bernard L. Ramm, 1993-02 In this book Bernard Ramm offers us an introduction to Christology Focusing on the work of Rudolf Bultmann his study includes a discussion of the trends in the contemporary

Christological debate as well as a defence of the historic Christology of the Christian church Book jacket *Space, Time and Resurrection* Thomas F. Torrance, 2005-01 In an earlier work *Space Time and Incarnation* Torrance argued that the Incarnation is meaningless for us unless its relation with the actual structures of space and time can be clarified adequately This he did with special emphasis upon space This book is in part a sequel dealing with the Resurrection in relation to space and in particular time Torrance attempts to set out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature In the integration of physical and spiritual existence as the death of Christ But all this is elucidated in the context of modern scientific thought and questioning in such a way as to show that far from being frightened by modern science into a compromise of the New Testament message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure **Thomas F.**

**Torrance's Theology of the Ascension** Stavan Narendra John, 2025-05-29 The ascension is a crucial doctrine integrally related to the incarnation When it is underemphasized it results in an impoverishment of our theology of Christ the church human beings and eschatology T F Torrance's theology offers a compelling vision and holistic doctrine of the ascension that notwithstanding its flaws deserves a careful and detailed examination Torrance develops a holistic account of the ascension by considering the ontology spatiality and present ministry of the ascended Jesus What results is a theological construction that affirms the ascended body of Christ and understands the Lord to be currently serving as our human representative in a ministry of priestly intercession prophetic declaration and ascended kingship Torrance is able to do this without succumbing to literalism space travel demythologization metaphorical reading or Pelagianism human effort based sanctification and glorification This book interprets and then develops Torrance's theology of the ascension in critical dialogue with contemporary theological interlocutors **Transcendence and Spatiality of the Triune Creator** Chan Ho Park, 2005

Since Augustine many philosophers and theologians have discussed the relation of God to time whereas the relation between God and space has been rarely discussed This book deals with the relationship of God to space Divine transcendence is one important aspect of the Christian God However God is also immanent in the world of space and time The author investigates the concept of divine spatiality and presents case studies of three modern theologians Torrance Pannenberg and Moltmann He also analyses divine spatiality by using Dyrness's three categories relationship agency and embodiment **Space, Time and Resurrection** Thomas Forsyth Torrance, 1998 The sequel to *Space Time and Incarnation* Professor Torrance attempts to set out the biblical approach to the Resurrection in terms of the intrinsic significance of the resurrected one Jesus and demonstrates that the Resurrection is entirely consistent with who Jesus was and what he did The Resurrection is thus taken realistically and treated as of the same nature in the integration of physical and spiritual existence as the death of Christ All this is elucidated in the context of modern scientific thought in such a way as to show that far from being frightened by

modern science into a compromise of the NT message of the Resurrection of Jesus Christ in body it actually allows us to take its full measure Bloomsbury Publishing

**The Nature of Christian Doctrine** Alister E. McGrath, 2024-01-02 A groundbreaking account of the origins development and enduring significance of Christian doctrine explaining why it remains essential to the life of Christian communities Noting important parallels between the development of scientific theories and Christian doctrine Alister E McGrath examines the growing view of early Christianity as a theological laboratory We can think of doctrinal formulations as proposals submitted for testing across the Christian world rather than as static accounts of orthodoxy This approach fits the available evidence much better than theories of suppressed early orthodoxies and reinforces the importance of debate within the churches as a vital means of testing doctrinal formulations McGrath offers a robust critique of George Lindbeck's still influential *Nature of Doctrine* 1984 raising significant concerns about its reductionist approach He instead provides a more reliable account of the myriad functions of doctrine utilising Mary Midgley's concept of mapping as a means of coordinating the multiple aspects of complex phenomena McGrath's approach also employs Karl Popper's Three Worlds allowing the theoretical objective and subjective aspects of doctrine to be seen as essential and interconnected We see how Christian doctrine offers ontological disclosure about the nature of reality while at the same time providing a coordinating framework which ensures that its various aspects are seen as parts of a greater whole Doctrine provides a framework or standpoint that allows theological reality to be seen and experienced in a new manner it safeguards and articulates the core vision of reality that is essential for the proper functioning and future flourishing of Christian communities

God, Humanity, and the Universe Alexei V. Nesteruk, 2023-10-27 The main objective of this book on cosmology and theology is to reassess the current approach to research in the field of interaction mediation and dialogue between modern cosmology and Christian theology Eastern Orthodox theology in particular This project was part of wide ranging cross disciplinary research undertaken by scientists philosophers and theologians across the world within the framework of Science Orthodoxy around the World run by the National Hellenic Research Foundation Athens from 2019 to 2023 The project and this publication contribute to the large scale academic activity in the field of science and religion or science and theology with a particular accent on the contribution of Eastern Orthodox theology to this dialogue as well as to the venues of advancement of this theology given the recent breakthroughs in cosmology physics and philosophy The book also underlines the importance of expressing cosmological ideas theologically symbolically and scientifically in the wide context of culture and humanity's sociopolitical and environmental predicaments

**Resurrection, Apocalypse, and the Kingdom of Christ** Stanley S. MacLean, 2012-04-19 In recent decades few Christian themes have attracted as much attention as that of eschatology or Christian hope Resurrection Apocalypse and the Kingdom of Christ explores the meaning of this theme for Thomas F Torrance one of the twentieth century's leading theologians This study the first of its kind brings Torrance's eschatology to light through an exploration of the whole range of his corpus including sermons lectures and

correspondence It also demonstrates that his eschatology is molded by momentous historical events such as World War II the spread of communism and the ecumenical movement Out of all this we realize that eschatology is a central component of Torrance s theology so much so that it conditions his thinking on other Christian doctrines Hope and Community Veli-Matti Kärkkäinen,2017 The culmination of Kärkkäinen s multivolume magnum opus This fifth and final volume of Veli-Matti Kärkkäinen s ambitious five volume systematic theology develops a constructive Christian eschatology and ecclesiology in dialogue with the Christian tradition with contemporary theology in all its global and contextual diversity and with other major living faiths Judaism Islam Buddhism and Hinduism In Part One of the book Kärkkäinen discusses eschatology in the contexts of world faiths and natural sciences including physical cosmological and neuroscientific theories In Part Two on ecclesiology he adopts a deeply ecumenical approach His proposal for greater Christian unity includes the various dimensions of the church s missional existence and a robust dialogical witness to other faith communities Atonement Thomas F. Torrance,2025-09-30 This companion volume to T F Torrance s Incarnation The Person and Life of Christ presents the material on the work of Christ centered in the atonement given originally in his lectures delivered to his students in Christian Dogmatics on Christology at New college Edinburgh from 1952 1978 Like the first volume the original lecture material has been expertly edited by Robert Walker complete with cross reference to Torrance s other works Readers will find this the most readable work of Torrance and together with Incarnation the closest to a systematic theology we have from this eminent theologian **The Digitalised Image of God** Ximian Xu,2024-10-08 This book focuses on the idea of the imago Dei to engaging theologically with artificial intelligence AI It reflects on how enormous progress in the development of AI has raised some challenges to Christian theology Questions explored include is AI created in the imago Dei If so does AI challenge the uniqueness of the human being as the imago Dei If not could AI be incorporated into human communities as a human companion in the same way as a natural human person Would AI eventually develop to have human level consciousness and be capable of performing liturgies and ethical actions Bringing to light the radical distinction between the imago Dei and the imago hominis the book constructs a theo ontological foundation for AI and draws on the Reformed theology of archetype ectype as a metaphysical tool to deploy a holistic account of the imago Dei in theology AI dialogues The author argues that the imago Dei is the signifier of the beginning both of God human stories and stories of human ethical performances towards others From the perspective of the image of the imago Dei it can be argued that AI can somehow participate into the narration of these religious and ethical stories This book will be of particular interest to scholars of theology and those working in the field of religion and science technology *Music, Modernity, and God* Jeremy Begbie,2013 Jeremy Begbie explores how the practices of music and the discourses it has generated bear witness to some of the pivotal theological currents and counter currents shaping modernity Begbie argues that music is capable of yielding highly effective ways of addressing some of the more intractable theological problems and dilemmas of modernity T. F.

Torrance and Eastern Orthodoxy Matthew Baker, Todd H. Speidell, 2015-11-05 A properly ecumenical theology T F Torrance believed points the church to Christ as the only source and reality of its own unity Its only hope for unity must be discovered in him and unveiled to the church rather than pieced together and manufactured through ecumenical slogans and well meaning intentions Acting on this belief Torrance initiated an international dialogue of Reformed and Orthodox Churches which culminated when the World Alliance of Reformed Churches and the Orthodox Church issued a groundbreaking joint statement of agreement concerning the Trinity in 1991 a move beyond the filioque controversy that has divided East and West for a millennium The current volume on T F Torrance and Eastern Orthodoxy continues the theological and ecclesial work of the reintegration of Western and Eastern traditions on a classical patristic foundation **T. F. Torrance as Missional Theologian** Joseph H. Sherrard, 2021-06-01 What contribution can T F Torrance make to the discussion of a missional view of the church Theologian and pastor Joseph Sherrard considers how Torrance s theology can inform the church s understanding of its ministry and mission in particular his appeal to the church s participation in the ascended Christ s threefold office as king prophet and priest **German Women Writers and the Spatial Turn: New Perspectives** Carola Daffner, Beth A. Muellner, 2015-07-01 In the last few decades the phrase spatial turn has received increased attention in German Studies inspired by developments within the discipline of geography The volume German Women Writers and the Spatial Turn New Perspectives engages the analytical category of space and the spatial turn in the context of German women s writing The collection of essays divides its discussion of spatiality in German literature into sections that reflect privileged sites within the current scholarly debates around space Essays look to such issues as environmentalism globalization migration and immigration concerns of belonging points of encounter spaces and places of im mobility topographies of departure and arrival movement motion or shifting identities German Women Writers and the Spatial Turn New Perspectives continues the challenge to understand the representation of space and place in German language texts by focusing on how spatial theory figures into the realm of feminist thinking and writing **T. F. Torrance in Recollection and Reappraisal** Bruce Ritchie, 2021-01-19 This is perhaps the most engaging and readable introduction to T F Torrance s theology around The author writes from the perspective of having been a student in Torrance s theology class in Edinburgh when Torrance was at the height of his powers painting a fascinating picture of Torrance in action as a teacher The book sets Torrance s theology in context by placing it in relation to liberal Protestantism on the one hand and traditional Calvinism on the other It explores Torrance s methodology it offers insights on how he linked incarnation and atonement and it also suggests how some of Torrance s ideas may be extended in order to result in an even more integrated and cohesive theology This book is a must not only for Torrance readers but for all lovers of theology
