Spacelab Douglas R. Lord,1987 **Spacelab** Gordon Press Publishers,1994-11 **Spacelab: An International Success Story** Douglas R. Lord,1987 Spacelab, an International Success Story Douglas R. Lord,1987 This volume presents a history of the Spacelab program which was the first time that the United States space program worked with a foreign agency to design and develop a major element of a manned space vehicle **NASA Historical Data Book: NASA launch systems, space transportation, human spaceflight, and space science, 1979-1988** Jane Van Nimmen,1988

Partnership in Space Ben Evans,2013-10-04 April 12 2011 was the 50th Anniversary of Yuri Gagarin s pioneering journey into space To commemorate this momentous achievement Springer Praxis has produced a mini series of books that reveals how humanity s knowledge of flying working and living in space has grown in the last half century Partners in Space focuses on the early to late 1990s a time in the post Soviet era when relations between East and West steadily though not without difficulty thawed and the foundations of real harmony and genuine co operation were laid for the first time with Shuttle Mir and the International Space Station This book explores the events which preceded that new era including the political demise of Space Station Freedom and the consequences of the fall of the Soviet Union on a once proud human space program It traces the history of the Partnership through the often traumatic times of Shuttle Mir and closes on the eve of the launch of Zarya the first component of today s International Space Station Spaceflight and the Myth of Presidential Leadership Roger D. Launius,Howard E. McCurdy,1997 Setting the tone for the collection NASA chief historian Roger D Launius and Howard McCurdy maintain that the nation s presidency had become imperial by the mid 1970s and that supporters of the space program had grown to find relief in such a presidency which they believed could help them obtain greater political support and funding Subsequent chapters explore the roles and political leadership vis vis government policy of presidents Eisenhower Kennedy Johnson Nixon Ford Carter and Reagan Resources in education ,1988-07 *Spaceship Earth in the Environmental Age, 1960-1990* Sabine Höhler,2015-10-06 The idea of the earth as a vessel in space came of age in an era shaped by space travel and the Cold War Höhler s study brings together technology science and ecology to explore the way this latter day ark was invoked by politicians environmentalists cultural historians writers of science fiction and many others across three decades **Limiting Outer Space** Alexander C.T. Geppert,2018-04-18 Limiting Outer Space propels the historicization of outer space by focusing on the Post Apollo period After the moon landings disillusionment set in Outer space no longer considered the inevitable destination of human expansion lost much of its popular appeal cultural significance and political urgency With the rapid waning of the worldwide Apollo frenzy the optimism of the Space Age gave way to an era of space fatigue and planetized limits Bringing together the history of European astroculture and American Soviet spaceflight with scholarship on the 1970s this cutting edge volume examines the reconfiguration of space imaginaries from a multiplicity of disciplinary perspectives Rather than invoking oft repeated narratives of Cold War rivalry and an

escalating Space Race Limiting Outer Space breaks new ground by exploring a hitherto underrated and understudied decade the Post Apollo period Skylab Shayler David,2001-05-28 Between May 1973 and February 1974 three teams of astronauts increased the American space endurance record from 14 days set in 1965 to three months aboard the Skylab space station in missions lasting 28 59 and 84 days American astronauts did not surpass these records for over 20 years until the NASA Mir missions began in 1995 In Skylab America s space station David Shayler chronicles the evolution of the station its infrastructure on the ground including astronaut training each of the three manned missions summary of results achievements and the lessons learned The creation of the International Space Station is the real legacy of Skylab as American astronauts once again embark on extended missions around the Earth **The Commercialisation of Space**

Sarah Lieberman,Harald Köpping Athanasopoulos,Thomas Hoerber,2023-03-29 This interdisciplinary book examines the impact of the commercialisation of space and the changing outlook of the space sector Using a framework based around theories of international political economy IPE the chapters take on issues relating to the politics the economics and the ethics of commercialising space The book aims to build a bridge between the research carried out on European Space Policy and the issues that are currently pertinent in the global discussion of future space policy Overall the volume aims to inform the reader about historical and contemporary developments in the neoliberal commercialisation of space assess the impact of the commercialisation of space on European space institutions European space policy and European space culture raise ethical questions about the environmental and practical sustainability of the commercialisation of space examine the compatibility of the commercialisation of space with international EU and national law This book will be of much interest to students of space policy global governance European politics and International Relations **U.S. Government Books** ,1987

The Routledge Handbook of European Integrations Thomas Hoerber,Gabriel Weber,Ignazio Cabras,2022-02-27 The Routledge Handbook of European Integrations fills a significant gap in the European studies literature by providing crucial and groundbreaking coverage of several key areas that are usually neglected or excluded in European integration collections Whilst still examining the largest and most influential institutions bodies and highly funded policy areas as acknowledged dominant topics in European studies it crucially does so with much greater balance by devoting equal billing to areas such as culture in European integration or new technologies and their impact on the EU Organised around three main sections culture technology and tangibles the book offers an authoritative encyclopaedia to alternative areas in European integration from media football Erasmus and tourism to transport space AI and energy retains coverage of the dominant topics in European studies such as the Eurozone the Common Internal Market or European law but in balance with other areas of interest and provides an essential companion to existing scholarship in European studies The Routledge Handbook of European Integrations is essential reading and an authoritative reference for scholars students researchers and practitioners involved in and actively concerned about research in the study of European integration studies The Open Access version of

Spaceflight in the Shuttle Era and Beyond Valerie Neal, 2017-01-01 An exploration of the changing conceptions of the iconic Space Shuttle and a call for a new vision of spaceflight The thirty years of Space Shuttle flights saw contrary changes in American visions of space Valerie Neal who has spent much of her career examining the Space Shuttle program uses this iconic vehicle to question over four decades worth of thinking about and struggling with the meaning of human spaceflight She examines the ideas, images and icons that emerged as NASA, Congress, journalists and others sought to communicate rationales for or critiques of the Space Shuttle missions At times concurrently the Space Shuttle was billed as delivery truck and orbiting science lab near Earth station and space explorer, costly disaster and pinnacle of engineering success The book's multidisciplinary approach reveals these competing depictions to examine the meaning of the spaceflight enterprise Given the end of the Space Shuttle flights in 2011 Neal makes an appeal to reframe spaceflight once again to propel humanity forward
