Space Ben Evans, 2014-12-15 This final entry in the History of Human Space Exploration mini series by Ben Evans continues with an in depth look at the latter part of the 20th century and the start of the new millennium Picking up where Partnership in Space left off the story commemorating the evolution of manned space exploration unfolds in further detail More than fifty years after Yuri Gagarin's pioneering journey into space Evans extends his overview of how that momentous voyage continued through the decades which followed The Twenty first Century in Space the sixth book in the series explores how the fledgling partnership between the United States and Russia in the 1990s gradually bore fruit and laid the groundwork for today's International Space Station The narrative follows the convergence of the Shuttle and Mir programs together with standalone missions including servicing the Hubble Space Telescope many of whose technical and human lessons enabled the first efforts to build the ISS in orbit The book also looks to the future of developments in the 21st century

Come Fly with Us Melvin Croft, John Youskauskas, 2019-02 2020 Space Hipsters Prize for Best Book in Astronomy Space Exploration or Space History Come Fly with Us is the story of an elite group of space travelers who flew as members of many space shuttle crews from pre Challenger days to Columbia in 2003 Not part of the regular NASA astronaut corps these professionals known as payload specialists came from a wide variety of backgrounds and were chosen for an equally wide variety of scientific political and national security reasons Melvin Croft and John Youskauskas focus on this special fraternity of spacefarers and their individual reflections on living and working in space Relatively unknown to the public and often flying only single missions these payload specialists give the reader an unusual perspective on the experience of human spaceflight The authors also bring to light NASA's struggle to integrate the wide ranging personalities and professions of these men and women into the professional astronaut ranks While Come Fly with Us relates the experiences of the payload specialists up to and including the Challenger tragedy the authors also detail the later high profile flights of a select few including Barbara Morgan John Glenn who returned to space at the age of seventy seven and Ilan Ramon of Israel aboard Columbia on its final fatal flight STS 107

Tragedy and Triumph in Orbit Ben Evans, 2012-06-01 April 12 2011 is the 50th anniversary of Yuri Gagarin's pioneering journey into space To commemorate this momentous achievement Springer Praxis is producing a mini series of books that reveals how humanity's knowledge of flying working and living in space has grown in the last half century Tragedy and Triumph focuses on the 1980s and early 1990s a time when relations between the United States and the Soviet Union swung like a pendulum between harmony and outright hostility The glorious achievements of the shuttle were violently arrested by the devastating loss of Challenger in 1986 while the Soviet program appeared to prosper with the last Salyut and the next generation Mir orbital station This book explores the continued rivalry between the two superpowers during this period with each attempting to outdo the other the Americans keen to build a space station the Soviets keen to build a space shuttle and places their efforts in the context of a bitterly divisive decade which ultimately led them into partnership
