Spacemen Go Home:

Spacemen, Go Home Milton Lesser, 2024-07-10 *Spacemen Go Home* by Milton Lesser first published in 1961 follows the moonship Tycho III's return to Earth where the crew finds the space program dismantled due to humanity's violation of intergalactic law. The protagonist Andy Marlow and his friends take on a mysterious job in Central America leading to further adventures and conflicts.

Spacemen, Go Home Milton Lesser, 2014-11-09 When the moonship Tycho III comes into the landing pit at the New Mexico Spaceport Andy Marlow has his first look in more than a year at the planet Earth. Instead of proud launching gantries and gleaming ships he sees empty firing pits and the broken hulks of a few old spacetubs. Earth's brief two hundred years in space is now past history; man has been exiled for a violation of intergalactic law. A short time after landing Andy and his best friend despondently accept a mysterious job offer that takes them to a secret spaceport deep in the jungles of Central America. Here a ruthless ex-space captain Reed Ballinger plans to blast his way back into the galaxy. Andy, torn between loyalty to his friend and a growing awareness that Ballinger's way means war, finally flees the spaceport. He joins Project Nobel, a brilliant and dangerous scheme to thwart Ballinger and to convince the Star Brain, the machine that rules the galaxy that Earth deserves to regain its place in space. Milton Lesser skillfully evokes the world of tomorrow in a dramatic story certain to appeal to all science fiction enthusiasts.

Spacemen Die at Home and Four More Stories Edward W. Ludwig, 2024-12-16 Edward W. Ludwig's anthology *Spacemen Die at Home and Four More Stories* is a captivating collection of science fiction tales that explore the complexities of human ambition and connection. *Spacemen Die at Home* centers on Ben, a young graduate of the U.S. Academy of Interplanetary Flight who faces a conflict between his dreams of space travel and a life with Laura, offering a poignant reflection on ambition and domesticity. *The Holes* and *John Smith* brings readers to Mars where a struggling band discovers success through John Smith's otherworldly music while exploring themes of belonging and destiny. *In The Drivers* the thrilling sport of Driving on Jetways serves as a dangerous outlet for youth with Tom Rogers confronting societal pressure and his own fears. *Juvenile Delinquent* presents a dystopian future where reading is rebellious as young Ronnie challenges societal norms, highlighting issues of censorship and individuality. *To Save Earth* follows Captain Jeffrey Torkel and his crew aboard a starship grappling with isolation and ethical dilemmas as they strive to save Earth, exploring human resilience and the boundaries of sanity. This anthology delves into themes of exploration, societal pressures, and the human spirit, making it a must-read for science fiction enthusiasts. With its compelling narratives and imaginative settings, *Spacemen Die at Home and Four More Stories* invites readers to ponder the vast possibilities of the universe and the sacrifices made in the pursuit of dreams.

The Far Traveler A. Bertram Chandler, 2015-12-17 *The Far Traveler* was hardly the sort of starship to use in the study of lost space colonies. Lost colonies were likely to be desperate, eccentric, and otherwise unappreciative. And *The Far Traveler* was a rich woman's toy constructed of gold and directed by an omniscient dictatorial and feminine computer known

as Big Sister John Grimes had become that golden vessel's captain. A captain in name only because nobody could talk back to Big Sister or the haughty beauty who owned everything aboard. But Grimes was a man of many resources and lost space colonies were placed that did not observe the civilized rules. You could be sure therefore that the man known as the Commodore Hornblower of Outer Space would be likely to come through okay even if the ladies mechanical and physical never expected him to.

30-Day Wonder Richard Wilson, 2020-09-28 Actually there wasn't much more hard news that first day I hung around for a while after the night man came on the way you do when a big story is going wanting to see what will happen next but finally I left I listened to the radio as I drove home from the bus stop and watched the 15 minute night television news programs then went to bed Any coffee I said to the copy boy as I came in grinning it in lieu of a good morning You must be the sole support of Brazil he said Africa I said This powdered stuff comes from Africa It's an education being around you Sam he said I said good morning to Charlie Price and read in There had been as I suspected little hard news after President Allison's statement Much of the night file had consisted of rehashing the known facts and padding these out with interpretation and speculation Washington officials said the contents of the Monolithian note were being

studied and a reply might be expected soon These would be State Department and White House spokesmen who didn't want to be identified Diplomatic sources said it was reasonable to assume that Britain France Russia and perhaps India and the United Arab Republic had received similar notes These would be embassy personnel asserting their belief that any sensible aliens would not have snubbed their countries by communicating only with the United States Experienced observers said receipt of the note had taken officials by surprise and that lights were burning late in government buildings as policy makers tried to cope overnight with the advent of interplanetary relations These would be newsmen interviewing each other Unconfirmed reports said any race of people capable of hurtling billions of miles across space would be sure to have an equally advanced military machine whose weapons would be to our nuclear stuff what our stuff was to the M 1 rifle This would be a roundup of informed guessing and common sense

The Monographs Ben Cardall, 2024-06-06 The first iteration of The Monographs was comprehensive yet only introductory when thinking about how to do things in the same way that Sherlock Holmes did This time we go even deeper From looking at the practices of neuroscience that we can follow in order to develop our emotional control and the sharpness of our minds Not only useful for when we approach casework but also for how we look at someone in order to figure out what they do for a living Especially interesting because this is very often considered the holy grail within this field This second edition will build upon all of the elements from the first Including even more theory development and practice drills This is so much more than a compendium of riddles and puzzles It is a critical thinking course to use with all aspects of your life and the mysteries you take up along the way Instant memorisation and awareness of the people and things in your surroundings managing the accuracy of your critical thinking in connection to any biases reading the face insights from the animals in someone's life step by step programs for reading shoes tattoos phones skin and even a treatise on criminal profiling elements that you can use in conjunction with your work and much much more You will see the world in a way that nobody else around you will unless they have a copy of this book No longer will there be the footprints of a gigantic hound but the steps of you building your own capabilities within the world of the consulting detective
