pathways in/beyond Asia Elaine Lynn-Ee Ho, Rhacel Salazar Parreñas, Brenda S.A. Yeoh, 2025-09-17 This edited volume explores the complex and varied pathways to citizenship that migrants navigate in both sending and receiving countries By examining the diverse strategies which migrants employ to handle uncertainties and global disparities this work highlights how citizenship pathways evolve across national and transnational spaces as well as over time Citizenship pathways are defined as the routes and processes through which migrants achieve citizenship recognition and redistribution influencing their pursuit of personal and family goals This approach reveals how different migrant groups experience membership and access economic opportunities with some gaining political and social rights while others face denial Additionally migrants responses to policy changes and their adaptive strategies reshape citizenship practices This volume underscores the dynamic interplay between migration and citizenship illustrating how power relations among states migrants and non migrants are continuously renegotiated affecting societal structures and individual life choices This book was originally published as a special issue of Ethnic and Racial Studies **Spaces of Contention** Byron Miller, 2016-04-01 As social movements have

become more complex geographers are increasingly studying the spatial dynamics of collective resistance and sociologists and political scientists increasingly analyzing the role of space place and scale in contentious political activity Occupying a position at the intersection of these disciplinary developments this book brings together leading scholars to examine how social movements have employed spatial practices to respond to and shape changing social and political contexts It is organised into three main sections 1 Place Space and Mobility sites of mobilization and regulation 2 Scale and Territory structuring collective interests identities and resources and 3 Networks connecting actors and resources across space It concludes by suggesting that different spatialities place scale networks interlink within one another in particular instances of

collective action playing distinctive yet complementary roles in shaping how these actions unfold in the political arena By mapping state of the art conceptual and empirical terrain across Geography Sociology and Political Science Spaces of Contention provides readers with a much needed guide to innovative research on the spatial constitution of social movements and how social movements tactically and strategically approach and produce space *Role of Media in Nation Building* Anand Shanker Singh, 2016-09-23 The concept of nation building is a multi dimensional process addressing various components simultaneously It takes into account the various historical and geographical perspectives of the country in question noting the peculiarities and diversity of its cultural ethos including its social economic and political structures This volume addresses these inter linked aspects and the innovative development of these structures and institutions However such changes and development must be directed to create a more culturally homogenous and productive society so that basic human needs like food shelter healthcare and education are fulfilled at the optimum level All round development and growth for the nation can be achieved only with a robust economy and political stability As such the process of nation building and development is a multifaceted phenomenon In the context of India this process is associated with the central values embodied in the preamble of the country s constitution which advocates for the establishment of secular socialist and democratic society based on well defined fundamental rights This anthology reflects these academic spirits and vistas An Introduction to Political Geography Martin Jones, Rhys Jones, Michael Woods, Mark Whitehead, Deborah Dixon, Matthew Hannah, 2014-11-13 An Introduction to Political Geography continues to provide a broad based introduction to contemporary political geography for students following undergraduate degree courses in geography and related subjects The text explores the full breadth of contemporary political geography covering not only traditional concerns such as the state geopolitics electoral geography and nationalism but also increasing important areas at the cutting edge of political geography research including globalization the geographies of regulation and governance geographies of policy formulation and delivery and themes at the intersection of political and cultural geography including the politics of place consumption landscapes of power citizenship identity politics and geographies of mobilization and resistance This second edition builds on the strengths of the first The main changes and enhancements are four new chapters on political geographies of globalization geographies of empire political geography and the environment and geopolitics and critical geopolitics significant updating and revision of the existing chapters to discuss key developments drawing on recent academic contributions and political events new case studies drawing on an increasing number of international and global examples additional boxes for key concepts and an enlarged glossary As with the first edition extensive use is made of case study examples illustrations explanatory boxes guides to further reading and a glossary of key terms to present the material in an easily accessible manner Through employment of these techniques this book introduces students to contributions from a range of social and political theories in the context of empirical case study examples By providing a basic introduction to such concepts and pointing to pathways

into more specialist material this book serves both as a core text for first and second year courses in political geography and as a resource alongside supplementary textbooks for more specialist third year courses

Carceral Spaces Nick Gill, 2016-04-15 This book draws together the work of a new community of scholars with a growing interest in carceral geography the geographical study of practices of imprisonment and detention It combines work by geographers on mainstream penal establishments where people are incarcerated by the prevailing legal system with geographers recent work on migrant detention centres where irregular migrants and refused asylum seekers are detained ostensibly pending decisions on admittance or repatriation Working in these contexts the book's contributors investigate the geographical location and spatialities of institutions the nature of spaces of incarceration and detention and experiences inside them governmentality and prisoner agency cultural geographies of penal spaces and mobility in the carceral context In dialogue with emergent and topical agendas in geography around mobility space and agency and in relation to international policy challenges such as the dis functionality of imprisonment and the search for alternatives to detention this book presents a timely addition to emergent interdisciplinary scholarship that will prompt dialogue among those working in geography criminology and prison sociology

Ullrich, 2014-09-23 This volume introduces and compares different concepts of culture in social movement research It assesses their advantages and shortcomings drawing links to anthropology discourse analysis sociology of emotions narration spatial theory and others Each contribution's approach is illustrated with recent cases of mobilization

Negotiating Universalism in India and Latin America Andres Mejia-Acosta, Louise Tillin, 2021-06-15 This book explores how vertical inter governmental political and fiscal bargains and horizontal variation in political social and economic conditions across regions contribute to or undermine the provision of inclusive and sustainable social policies at the subnational level in Latin America and India The question of how to advance universal social rights while reducing territorial inequalities has been a central dilemma for Latin America and India After several decades of ambitious decentralization reforms in both regions the balance between local accountability versus centralized planning remains a theoretical and empirical problem in need of systematic exploration The chapters in this volume incorporate both federal and decentralized unitary states pointing to common political tensions across unitary and federal settings despite the typically greater institutionalization of regional autonomy in federal countries The contributors examine the territorial dimension of universalism and explore in greater and empirical detail the causal links between fiscal transfers social policies and outcomes and highlight the political dynamics that shape fiscal decentralization reforms and the welfare state The chapters in this book were originally published as a special issue of *Regional Federal Studies*

Television and Terror A. Hoskins, B. O'Loughlin, 2007-12-03 The advent of the twenty first century was marked by a succession of conflicts and catastrophes that demanded unrestrained journalism Hoskins and O Loughlin demonstrate that television tarnished by its economy of liveness and its impositions of immediacy

education human geography sociology social policy and political theory in order to consider the idea of the pedagogical state as a means of understanding the strategies employed to re educate citizens The book aims to critically interrogate the cultural practices of governing citizens in contemporary liberal societies Governing through pedagogy can be identified as an emerging tactic by which both state agencies and other non state actors manage administer discipline shape care for and enable liberal citizens Hence discourses of active citizenship participatory democracy community empowerment personalised responsibility behaviour change and community cohesion are productively viewed through the conceptual lens of the pedagogical state Chapters consider the spaces of schools universities the voluntary sector civil society organisations parenting initiatives the media government departments and state agencies as fruitful empirical sites through which pedagogy is worked and re worked This book was originally published as a special issue of *Citizenship Studies* People - States - Territories Rhys Jones, 2011-07-26 *People States Territories* examines the role of state personnel in shaping and being shaped by state organizations and territories and demonstrates how agents have actively contributed to the reproduction and transformation of the British state over the long term A valuable corrective to recent characterizations of territory as a static and given geographical concept An explication of the political geographies of state reproduction and transformation through its focus on state territoriality and the variegated character of state power Considerable empirical insight into the consolidation of the British state over the long term *Changing cities* The Open University, This 15 hour free course explored how contemporary processes of urbanisation challenge how we think about political agency

Political Geography, 2014-05-22 We live in a rapidly changing world in which politics is becoming both more and less predictable at the same time this makes political geography a particularly exciting topic to study To make sense of the continuities and disruptions within this political world requires a strongly focused yet flexible text This new sixth edition of Peter Taylor s *Political Geography* proves itself fit for the task of coping with a frequently and rapidly changing geo political landscape Co authored again with Colin Flint it retains the intellectual clarity rigour and vision of previous editions based upon its world systems approach Reflecting the backdrop of the current global climate this is the *Empire globalization and climate change* edition in which global political change is being driven by three related processes the role of cities in economic and political networks the problems facing territorially based notions of democratic politics and citizenship and the ongoing spectre of war This sixth edition remains a core text for students of political geography geopolitics international relations and political science as well as more broadly across human geography and the social sciences *Spaces of Environmental Justice* Ryan Holifield, Michael Porter, Gordon Walker, 2011-06-28 In this cutting edge volume leading scholars examine a diverse range of environmental inequalities from around the world Shows how far the field has moved beyond its original focus on uneven distributions of pollution in the USA Considers the influence of critical geographical and social theory on environmental justice studies Examines a range of possibilities for future research directions Explores the

challenges of investigating and pursuing environmental justice at a time of rapid economic and environmental change

Leviathan Undone? Roger Keil, Rianne Mahon, 2010-01-01 Caught in the trap of the nation state and frozen in postwar bloc logic critical political economy has been found wanting when it comes to problematizing space and scale Globalization and the rise of world cities and regions have shaken the discipline's foundations and fostered new interest in the concept of scale Leviathan Undone brings together leading theorists and scholars from a variety of disciplines to develop a new language to understand the spatial restructuring that has accompanied globalization By treating scale as the core concept of our time these innovative groundbreaking essays bring a new sensibility to classical and contemporary concerns in Canadian and international political economy
