Reconstructing Reality in the Courtroom W. Lance Bennett, Martha S. Feldman, 2014-03-13 Reconstructing Reality in the Courtroom explains what makes stories believable and how ordinary people connect complex legal arguments and evidence presented in trials to assess guilt and innocence The explanation takes the core elements of narrative the who what where when how why and shows how average people who hear hundreds of stories every day use the connections between these elements to assess credibility A series of simple experiments outside the courtroom provides evidence for the explanation showing that there is little relationship between the actual truth of a story and the degree to which the story is believed to be true by an audience of

random listeners not familiar with the teller So how do jurors make a particular legal judgment Based on courtroom observation trial transcripts and credibility experiments Bennett and Feldman create a method of diagramming stories that shows exactly what makes some stories more believable than others Prosecutors and defense attorneys can use this method of analyzing stories to weigh the strategies and tactics available to them scholars can use it to assess the process of legal judgment Now in its Second Edition this much cited resource adds a new preface by the authors as well as new forewords from divergent perspectives From his experience in law practice William S Bailey notes that the book offers timeless insights as its authors adapt a broad structural framework of storytelling to the criminal trial context making it come alive in the dynamic real world courtroom environment Law and society scholar Anna Maria Marshall writes that the book s emphasis on storytelling will resonate with scholars studying legal consciousness where narrative plays an important theoretical and methodological role This new edition will be a welcome addition to the Law and Society community Reconstructing Reality in the Courtroom is as timely as it was when this classic was first published Here Bennett and Feldman provide great insight into the importance of storytelling as a basis of justice in American criminal trials It deserves very wide readership Elizabeth F Loftus Distinguished Professor University of California Irvine Author Eyewitness Testimony 1996 This classic law and society study on the power of legal stories is a rich and compelling empirical analysis of the dynamics of story construction in trials The book remains an essential resource for law students litigators academics and any others who wish to understand the interpretive significance of the stories told in the courtroom Jeannine Bell Professor of Law and Neizer Faculty Fellow Indiana University Maurer School of Law Bloomington Author Hate Thy Neighbor 2013 Part of the Classics of Law Society Series from Quid Pro Books

Food in the Movies, 2d ed. Steve Zimmerman, 2010-07-28 Although food has been part of motion pictures since the silent era for the most part it has been treated with about as much respect as movie extras it s always been there on the screen but seldom noticed For the most part filmmakers have settled on three basic ways to treat food as a prop in which the food is usually obscured from sight or ignored by the actors as a transition device to compress time and help advance the plot as a symbol or metaphor or in some other meaningful way to make a dramatic point or to reveal an aspect of an actor s character mood or thought process This hugely expanded and revised edition details 400 food scenes in addition to the 400 films reviewed for the first edition and an introduction tracing the technical artistic and cultural forces that contributed to the emergence of food films
