networks in local amenities from sporting facilities to centers for the aged and in the public health system As a result by the start of the 20th century Spaniards had largely overcome any sense of inferiority in comparison with other major western European countries and the United States However Spain was hit by a severe economic recession between 2008 and 2011 and unemployment levels are still very high Moreover a large number of corruption cases have come to light and tensions between the central government and Catalan autonomous government have burst into open conflict Restructuring the Spanish economy ensuring probity in public life and accommodating Catalonia within the Spanish state are therefore key tasks in the decade the lies ahead This third edition of the Historical Dictionary of Spain contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has more than 700 cross referenced entries on important personalities as well as aspects of the country s politics economy foreign relations religion and culture The book is an excellent resource for students researchers and anyone wanting to know more about Spain The History of Spain Peter Pierson,1999-01-30 Every school and public library should update its resources on Spain with this lively and succinct narrative of Spain s long and rich historical experience Emphasizing people rather than abstract developments this narrative makes Spanish history readable and engaging Based on the most recent scholarship it examines the politics society economy and culture of Spain chronologically focusing on the last two centuries Pierson a noted authority on Spanish history traces Spain s foundations in the Roman empire and Muslim conquest to its golden age in the late Middle Ages its subsequent decline and its struggle to build a democratic government and modern economy following the dictatorship of Francisco Franco The work provides a timeline of events in Spanish history brief biographies of key figures and a bibliographic essay of interest to students and general readers An introductory chapter offers an overview of Spain today its geography government and politics economy religion and culture The next few chapters discuss its earliest cultures its place in the Roman empire its Christianization and years as a Germanic kingdom and its incorporation in 711 C E by military conquest into the world of Islam The energies developed in the Christian reconquest of Spain led to its embarkation on the conquest of an overseas empire in the Americas and the Philippines that lasted for more than 300 years and had a profound effect on global history The interests of the Habsburg 1516 1700 and Bourbon 1700 1808 1814 1868 and 1875 1931 dynasties on the Spanish throne made Spain a major player in European power politics into the years of the French Revolution and Napoleonic wars By 1825 its resources drained Spain painfully adjusted to straightened circumstances endured civil wars and dictatorships and struggled to build a democratic government and modern economy which it has accomplished today Encyclopedia of Historians and Historical Writing Kelly Boyd,2019-10-09 The Encyclopedia of Historians and Historical Writing contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical

Sheelagh M. Ellwood,2014-06-17 An excellent introduction to Franco s rise to power and his four decades as autocratic head of state in Spain The Congress of Vienna and its Legacy Mark Jarrett,2013-09-30 Two centuries ago Europe emerged from one of the greatest crises in its history In September 1814 the rulers of Europe and their ministers descended upon Vienna to reconstruct Europe after two decades of revolution and war with the major decisions made by the statesmen of the great powers The territorial reconstruction of Europe however is only a part of this story It was followed in the years 1815 to 1822 by a bold experiment in international cooperation and counter revolution known as the Congress System The Congress of Vienna and subsequent Congresses constituted a major turning point the first genuine attempt to forge an international order to bring long term peace to a troubled Europe and to control the pace of political change through international supervision and intervention In this book Mark Jarrett argues that the decade of the European Congresses in fact marked the beginning of our modern era with a profound impact upon the course of subsequent developments Based upon extensive research this book provides a fresh look at a pivotal but often neglected period *Censorship* Derek Jones,2001-12-01 First published in 2002 Routledge is an imprint of Taylor Francis an informa company **Western Europe 2023-2024** Wayne C.
