Spanish Civil War At Sea Destroyers:

The Spanish Civil War at Sea Michael Alpert, 2021-09-15 The Spanish Civil War of 1936-1939 underlined the importance of the sea as the supply route to both General Franco's insurgents and the Spanish Republic. There were attempted blockades by Franco as well as attacks by his Italian and German allies against legitimate neutral, largely British merchant shipping bound for Spanish Republican ports and challenges to the Royal Navy which was obliged to maintain a heavy presence in the area. The conflict provoked splits in British public opinion. Events at sea both created and reflected the international tensions of the latter 1930s when the policy of appeasement of Germany and Italy dissuaded Britain from taking action against those countries' activities in Spain except to participate in a largely ineffective naval patrol to try to prevent the supply of war material to both sides. The book is based on original documentary sources in both Britain and Spain and is intended for the general reader as well as students and academics interested in the history of the 1930s in naval matters and in the Spanish Civil War.

Warships in the Spanish Civil War Angus Konstam, 2021-10-28 This detailed study of the naval Spanish Civil War describes how the Spanish Navy torn in two and comprising a Republican and Nationalist part fought a civil war at sea involving both Hitler's and Mussolini's navies. In July 1936 a pro fascist coup orchestrated by General Franco tore Spain apart and plunged the country into a bitter civil war. Like Spain itself the Spanish Navy was torn in two crews and most ships remained loyal to the Republican government but many of the Navy's officers joined Franco's rebels and warships under repair or mothballed in southern ports soon fell to the rebel advance. These formed the basis of Franco's Nationalist fleet and with both Italian and German help the rebels were able to contest the Republic's control of Spanish waters. Overall the Republican Navy held its own despite mounting losses until the collapse of the Republican Army led to the fleet seeking internment in French North Africa. Packed with contemporary photographs and full colour illustrations this study examines the composition and organization of the two rival fleets, the capabilities of their ships and submarines and the performance of their crews. It also covers the warships of the Basque Auxiliary Navy, an offshoot of the Republican Fleet and other navies who played a part in the conflict, most notably the Italian Regia Marina.

Destroyer Captain Roger Hill, 1975 This is an account of what it was like to command a destroyer during World War II Spanning 1942 to 1945 Hill commanded HMS Ledbury during the tragedy of Arctic convoy PQ17 and played an outstanding role in Operation Pedestal The pressures of command and the strain of years of continual fighting are conveyed here

US Flush-Deck Destroyers 1916-45 Mark Lardas, 2018-08-28 Four pipes and flush decks these ships were a distinctively American destroyer design Devised immediately prior to and during the United States involvement in World War I they dominated the US Navy's destroyer forces all the way through to World War II They were deployed on North Atlantic and Norwegian Sea convoys and virtually everywhere in the Pacific from Alaska to Australia Fifty were given to Great Britain in its hour of need in 1940 and many would serve in other navies fighting under the Soviet Canadian Norwegian and even the Imperial Japanese flags They also served in a variety of roles becoming seaplane tenders high speed transports minesweepers and minelayers One was even used as a self propelled mine during Operation Chariot destroying the dry dock at St Nazaire Fully illustrated throughout with commissioned artwork and contemporary photographs this volume reveals the operational history of these US Navy ships that fought with distinction in both World Wars

The Royal Netherlands Navy of World War II Ryan K. Noppen, 2020-08-20 In the late 19th and early 20th century a combination of coastal defence for the homeland and fleet

defence for the East Indies became the established naval strategy for the Royal Dutch Navy and set the template for the world wars Battleships were too expensive to build and maintain so after World War I there was significant investment in submarine development and construction A handful of modern light cruisers and a new class of destroyers were also constructed during the interwar years to serve as a small Fleet in Being in the East Indies as well as to support the actions of the navy s submarines The light cruiser HNLMS De Ruyter and the Java class light cruisers were the most powerful units of the new fleet whilst the backbone of the destroyer fleet was the Admiralen class and the Tromp class of destroyer leaders Beginning in December 1941 the Dutch Navy played a very active role in the defence of the East Indies against the Japanese during World War II The Battle of the Java Sea at the end of February 1942 crushed Dutch naval power in the East Indies sinking the cruisers Java and De Ruyter and killing Admiral Karel Doorman However several Dutch surface warships and submarines continued the fight against the Axis powers alongside the Allies until the end of World War II including a pair of British built destroyers Van Galen and Tjerk Hiddes This beautifully illustrated book from a leading scholar on Dutch military history provides a comprehensive guide to the Royal Netherlands Navy of the World War II period complete with detailed cutaways and battleplates of the fleet in action South Pacific Destroyer Estate of R S Crenshaw,2009-09-01 Today only a select few know firsthand what it is like to feel their ship shudder from the blast of their own guns watch enemy guns flash back and see friendly ships erupt in flames Russell Crenshaw is one of those few His riveting account of the savage night battle for the Solomon Islands in early 1943 offers readers a unique insider s perspective from the decks of one of the destroyers that bore the brunt of the struggle Russell Crenshaw was a gunnery officer on the USS Maury His vivid balanced and detailed narrative includes the Battle of Tassafarunga in November 1942 and Vella Gulf in August 1943 actions that earned his warship a Presidential Unit Citation and sixteen battle stars Crenshaw also discusses the impact of radar and voice radio the shortcomings of U S torpedoes and gunfire and the devastating effectiveness of Japan s super torpedo

British Cruisers Norman Friedman,2011-01-24 For most of the twentieth century Britain possessed both the world s largest merchant fleet and its most extensive overseas territories It is not surprising therefore that the Royal Navy always showed a particular interest in the cruiser a multi purpose warship needed in large numbers to defend trade routes and police the empire Above all other types the cruiser s competing demands of quality and quantity placed a heavy burden on designers and for most of the inter war years Britain sought to square this circle through international treaties restricting both size and numbers In the process she virtually invented the heavy cruiser and inspired the large 6in armed cruiser neither of which ironically served her best interests For the first time this book seeks to comprehend the full policy background from which a different and entirely original picture emerges of British cruiser development After the war the cruiser s role was reconsidered and the final chapters of the book cover modernisations the plans for missile armed ships and the convoluted process that turned the through deck cruiser into the Invincible class light carriers With detailed appendices

of ship data and illustrated in depth with photos and A D Baker s specially commissioned plans British Cruisers truly matches the lofty standards set by Friedman s previous books on British destroyers

From Versailles to Mers el-Kébir George E Melton, 2015-10-15 The two decades before World War II were some of the most unsettled in modern history From Versailles to Mers el K bir examines one of the most unlikely and perhaps least studied relationships to form during that turbulent era the alliance of the Royal Navy and the French fleet Beginning from a global perspective and gradually narrowing George E Melton brings new insights to the diplomacy that led to this often strained cooperation and reinterprets some of the most important events of early World War II By the mid 1930s the Royal Navy and French fleet had overextended themselves with global defense commitments owing mainly to the collapse of the world war alliances and to an ominous shift in the balance of world naval power To maximize their power England and France combined their assets in a naval alliance Successful in keeping both Italy and Japan neutral early in the war that alliance brought the French and English success against German surface raiders and U boat operations in the Atlantic The two powers were on such good terms that in 1939 during a joint operation to the north of Scotland HMS Hood and its escorts served for a week under the command of Vice Admiral Marcel Gensoul French commander of the Dunkerque Afterward the British seamen affectionately referred to the Dunkerque as the friend of the Hood Still the union was not an altogether happy one The global defense imperatives of the Admiralty frustrated the regional ambitions of the Rue Royale The union ultimately came to a violent end when the British attacked the French squadron at Mers el K bir in the summer of 1940 after France had signed an armistice with Germany What followed was a poorly constructed cover up to mask the operation as a regrettable but necessary action Melton s study challenges this popular myth Thoroughly researched and documented From Versailles to Mers el K bir concludes that the operation was a disastrous failure

The Spanish-American War Pascual Cervera y Topete, 1899 In the Cortes at Madrid on the 30th day of October 1899 the minister of war was requested by the Count de Las Almenas and Senators Gonz lez and D vila to transmit to the senate chamber as early as possible the proceedings held in the supreme council of war and navy from August 1 1899 to date relative to the wars in Cuba Puerto Rico and the Philippines The minister of war replying said in part I do not know whether the Count de las Almenas and the worthy companions whom he represents have sufficiently considered the grave step of bringing into a political chamber and submitting to parliamentary discussion adjudged causes of the extreme gravity of those referred to I repeat that while I greatly respect such right I believe that there may be serious objections to a debate of this nature because perhaps the high tribunal of the army and navy which has adjudged these causes in accordance with law and its own conscience and to whose functions and importance great respect is due might suffer though only apparently in its prestige For that reason I consider it neither expedient nor prudent to transmit to the chamber the documents asked for It is not therefore probable that the proceedings of the courts in the cases of Admirals Cervera and Montojo will be made public Admiral Cervera having in view the vindication of himself had obtained from the Queen in
