estado estudiando inglés durante mucho tiempo pero te da la impresión de que todavía no entiendes con claridad a la gente inglesa. O lo que es peor no consigues hacer que te entiendan. Se trata de un problema muy común entre los hispanohablantes que han invertido muchos años de su vida en clases de inglés logrando alcanzar un excelente nivel de vocabulario y gramática y todavía con grandes dificultades a la hora de comunicarse oralmente. La mayoría de esos problemas podrán resolverse si los hispanohablantes hubiesen prestado más atención al aspecto de la pronunciación teniendo en cuenta que es el área en la que más difieren el inglés y el español. Este libro está pensado para ayudar a resolver esos problemas de comunicación en inglés presentando las cuestiones más relevantes de la pronunciación inglesa y comparándolas con aquellas de la pronunciación española. No sólo abarca las vocales y las consonantes sino también otros aspectos como el ritmo, la entonación o la colocación del acento. El libro viene acompañado de un CD-ROM con material de audio y ejercicios interactivos.

How to Write Effective and Professional Business Letters in a Global Context Dueep Jyot Singh, John Davidson, 2018-03-26 Table of Contents Introduction Letter Writing Etiquette Clarity of Communication Keep It Brief KIB Tips Before You Send Your Letter Check for Accuracy Proper Spelling aka English as is Spoken Careful about the Titles Correcting your boss's Grammar Tone of Your Business Letter I Am so Angry Capital Letters Punctuation and Typos How to Address Letters Salutations Conclusion Native English speakers Author Bio Publisher Introduction When I was studying at the local management college more than 3 decades ago one of our professors told us students You may become senior ranking managers as you get promoted to higher ranks in your jobs but if you do not know how to write an impressive businesslike and thoroughly professional business letter you are going to go nowhere on the ladder to the top Many of us coughed rather sheepishly because according to us we were already managers in our minds eye and we had a secretary to take our dictation shorthand and rightly business letter for us Naturally we woke up to reality soon after when we began to work on our different jobs and often we had to take care of the correspondence ourselves Some of the letters were too confidential to be handed over to the office typing pool This was way back in the late eighties and early

nineties when letters were still written by hand and sent by mail We did not know that within the next 15 years the whole world would be tied up with an electronic network and correspondence would be done by tapping on a keyboard on a desktop screen Also this book is not restricted to letter writing to people in your own country or area In this millennial world today your job is to expand your horizons and that is why this book is going to tell you all about writing letters in a global context Also you are going to be told something about cultures and traditions and business environments of other lands and people which may look strange to you but that is the way business writing has been done for millenniums according to their culture standard of literacy and society Many people who are not quite well versed with office etiquette are under the impression that letter writing is something not very important because after all you are messaging your clients or you have one stereotyped format which you send out as acknowledgment for every email sent to your company with a paragraph telling the client that he is going to be contacted by somebody in the next 12 24 hours and thank you for getting in touch with us The mail of course has a do not reply address on top You may think that this is a pretty nifty and modern way of tracking your correspondence but in many parts of the world where business dealings and environments are still pretty old fashioned a well written letter is quite impressive especially when the receiver makes his first impression on your correspondence especially when it is a first time letter to his company I remember way back in 87 when I was at university in a comparatively small town and went to the market to buy some handmade traditional shoes for which that particular town was famous all over the country They did not speaking English there
