1492-2020 HISPANIC HERITAGE TIMELINE Yolanda Zarate, 2022-01-20 The Hispanic heritage timeline from 1492 to 2020 evolved with Christopher Columbus and his famous discovery of America in 1492 The voyage for Columbus was sponsored by Queen Isabella and King Ferdinand and the Royal Crown of Old Castile present day Spain The voyage was done under the theory of Columbus that the world was round and not flat Columbus sailed west to reach the East Indies to buy spices for the Royal Crown Columbus did not find a short route to the East Indies by sailing west but found America for the Royal Crown of Old Castile America had vast lands rich in gold silver and precious stones and large River Valleys It was the ideal land for a new province to the Royal Crown of Old Castile America was indeed claimed by the Royal Crown of Old Castile in 1492 At the time it was not known that it was not just America but also the Americas South Central and North America So it was the Royal Crown of Old Castile that claimed the Americas making a major impact on the rest of world The Royal Crown sent the most trustworthy citizens to the New World as it was known then to explore settle and improve the new land In essence it was those of Hispanic heritage who explored settled and improved the Americas The first settlers in present day Texas USA and present day USA were Hispanics Without the Royal Crown of Spain and Hispanic heritage Texas and the USA would have had a different status in the world of today In essence versus consequences the Hispanic heritage was the prelude to Texas USA and the USA regardless of how the belief has been for centuries The Hispanic heritage forever it will be *Texas vs. California* Kenneth P. Miller, 2020-07-14 Texas and California are the leaders of Red and Blue America

As the nation has polarized its most populous and economically powerful states have taken charge of the opposing camps. These states now advance sharply contrasting political and policy agendas and view themselves as competitors for control of the nation's future. Kenneth P. Miller provides a detailed account of the rivalry's emergence, present state, and possible future. First, he explores why, despite their many similarities, the two states have become so deeply divided. As he shows, they experienced critical differences in their origins and in their later demographic, economic, cultural, and political development. Second, he describes how Texas and California have constructed opposing comprehensive policy models: one conservative, the other progressive. Miller highlights the states' contrasting policies in five areas: tax, labor, energy, and environment, poverty, and social issues, and also shows how Texas and California have led the red and blue state blocs in seeking to influence federal policy in these areas. The book concludes by assessing two models' strengths, vulnerabilities, and future prospects. The rivalry between the two states will likely continue for the foreseeable future because California will surely stay blue and Texas will likely remain red. The challenge for the two states and for the nation as a whole is to view the competition in a positive light and turn it to productive ends.

Exploring one of the primary rifts in American politics, *Texas vs. California* sheds light on virtually every aspect of the country's political system. Galan,2020-09-25 In 1721 Spain established a fort and mission on the Texas Louisiana border or frontera to stem the tide of people and goods flowing back and forth between northern New Spain and French Louisiana Named in part after the indigenous Adai people the complex of the presidio Nuestra Se ora del Pilar de los Adaes and the mission San Miguel de Cuellar de los Adaes became collectively known as Los Adaes It was the capital of Tejas for New Spain In the first book devoted to Los Adaes historian Francis X Galan traces the roots of the current US Mexico border to the colonial history of this all but forgotten Spanish fort and mission He

demonstrates that despite efforts to the contrary Spain could neither fully block the penetration of smuggled goods and settlers into Texas from Louisiana nor could it successfully convert the Native Americans to Christianity and the Spanish economic system In the aftermath of the transfer of Louisiana from France to Spain in 1762 Spain chose to shutter the fort and mission The settlers or Adaese os were forced to march to San Antonio in 1773 Some returned to East Texas soon after to establish Nacogdoches Others remained in San Antonio the new capital of Spanish Texas and settled on lands distributed from the secularized Mission San Antonio de Valero a mission now widely known as the Alamo Los Adaes the First Capital of Spanish Texas makes a major contribution to Texas history by providing a richer perspective on the shifting borders of colonial powers **Publications of the Texas Folklore Society ,1926**
