Spanish Inquisition A Historical Revision

Philip Jenkins

Spanish Inquisition A Historical Revision:

The Spanish Inquisition Henry Kamen, 2014-05-27 In this completely updated edition of Henry Kamen's classic survey of the Spanish Inquisition the author incorporates the latest research in multiple languages to offer a new and thought provoking view of this fascinating period Kamen sets the notorious Christian tribunal into the broader context of Islamic and Jewish culture in the Mediterranean reassesses its consequences for Jewish culture measures its impact on Spain's intellectual life and firmly rebuts a variety of myths and exaggerations that have distorted understandings of the Inquisition He concludes with disturbing reflections on the impact of state security organizations in our own time

The Spanish Inquisition Henry Kamen, 1965 *The Spanish Inquisition* Henry Kamen, 1998-01-01 Thirty five years ago Kamen wrote a study of the Inquisition that received high praise This present work based on over 30 years of new research is not simply a complete revision of the earlier book Innovative in its presentation point of view information and themes it will revolutionize further study in the field *The Mirror of Spain, 1500-1700* J. N. Hillgarth, 2000 Spanish national character imposed and exposed *The Spanish Inquisition* Henry Kamen, 1976 Henry Kamen reassesses the significance and consequences of the expulsion of the Jews and also argues that there is little evidence for the alleged Jewishness of the conversos who were the Inquisition's first victims He presents a major revision of the impact of blood purity prejudices on Spanish society revises the figures given for execution of heretics by the tribunal and examines the amount of Spanish persecution in the context of executions in neighboring countries He gives a completely new picture of the infamous censorship system showing it to be much less effective than is often presented and he investigates the role played by foreign propaganda in the creation of the diabolic image of the Inquisition Kamen reconstructs the atmosphere of fear and oppression that typified the period relating it to the fear generated by community tensions He also demonstrates for the first time that the famous auto da fe was not a product of traditional Spanish piety but a deliberate tool of the inquisitors invented in the sixteenth century in order to boost their political standing

Heresy: The Spanish Inquisition Gerry Boehme, 2016-12-15 The Inquisition was used by the Catholic Church to suppress heresy long before the start of the Spanish Inquisition in 1478 The Inquisition in Spain was granted to investigate Jews who had converted to Christianity but it was soon hijacked by the state and used as a bludgeon against Jewish and Muslim communities that had lived in the region for centuries This book examines the historical background behind this shameful period the consequences of the persecution of the Jews and how the Inquisition was used in the battle of public perceptions when the Reformation divided Christianity in the West Included is a timeline of the important dates in the more than three hundred years of the Inquisition

Spanish Inquisition, 1478-1614, 2006-03-15 This collection of previously untranslated court documents testimonials and letters portrays the Spanish Inquisition in vivid detail offering fresh perspectives on such topics as the Inquisition's persecution of Jews and Muslims the role of women in Spanish religious culture the Inquisition's construction and persecution of witchcraft daily life inside an Inquisition prison and the

relationship between the Inquisition and the Spanish monarchy Headnotes introduce the selections and a general introduction provides historical political and legal context A map and index are included Death and Dying in Colonial Spanish America Martina Will de Chaparro, Miruna Achim, 2011-12-01 When the Spanish colonized the Americas they brought many cultural beliefs and practices with them not the least of which involved death and dying The essays in this volume explore the resulting intersections of cultures through recent scholarship related to death and dying in colonial Spanish America between the sixteenth and eighteenth centuries The authors address such important questions as What were the relationships between the worlds of the living and the dead How were these relationships sustained not just through religious dogma and rituals but also through everyday practices How was unnatural death defined within different population strata How did demographic and cultural changes affect mourning The variety of sources uncovered in the authors original archival research suggests the wide diversity of topics and approaches they employ Nahua annals Spanish chronicles Inquisition case records documents on land disputes sermons images and death registers Geographically the range of research focuses on the viceroyalties of New Spain Peru and New Granada The resulting records both documentary and archaeological offer us a variety of vantage points from which to view each of these cultural groups as they came into contact with others Much less tied to modern national boundaries or old imperial ones the many facets of the new historical research exploring the topic of death demonstrate that no attitudes or practices can be considered either Western or universal

Comprehending Antisemitism through the Ages: A Historical Perspective Armin Lange, Kerstin Mayerhofer, Dina Porat, Lawrence H. Schiffman, 2021-08-23 This volume traces the history of antisemitism from antiquity through contemporary manifestations of the discrimination of Jews It documents the religious sociological political and economic contexts in which antisemitism thrived and thrives and shows how such circumstances served as support and reinforcement for a curtailment of the Jews social status The volume sheds light on historical processes of discrimination and identifies them as a key factor in the contemporary and future fight against antisemitism *Acquittals in the Spanish Inquisition* Gunnar W. Knutsen, 2024-10-28 The Spanish Inquisition has become such a byword for injustice that many forget it was also a judicial system capable of acquittal This study of more than 67 000 trials uncovers over 2 500 formal acquittals more than 6 600 suspended trials and nearly 2 100 with unknown or no recorded outcomes The inquisitors were jurists who frequently held other judgeships before and after their tenure and used the same evidentiary rules as other Spanish courts If every acquittal may be taken as an admission of error the Spanish Inquisition admitted its errors thousands of times occasionally even putting them on public display at the autos de fe An acquittal can also be taken as a sign that the inquisitors did not wish to punish the innocent and that while they were quick to arrest and charge people on flimsy evidence they were too conscientious to convict them without further proof However it is also clear that the Holy Office at times did bend twist or even break the law when it suited it in order to secure a conviction This book is aimed at students scholars and general

readers seeking a nuanced understanding of the Spanish Inquisition and its workings *Seven Myths of the Spanish Inquisition* Gretchen D. Starr-LeBeau, 2023-07-03 Gretchen Starr LeBeau's *Seven Myths of the Spanish Inquisition* provides an excellent introduction to Habsburg Spain's most reviled and misunderstood institution. Drawn from archival sources and modern scholarship, this concise study presents the long and tortured history of the Spanish Inquisition in an accessible format for readers interested in the intersection of religion and jurisprudence. Addressing common misconceptions about the procedures, effectiveness, and reach of the Inquisition, this work argues convincingly for an updated assessment encompassing change over time and variations across Spain and its empire. Students of the early modern period will benefit from the volume's logical organization, glossary of terms, and suggestions for further reading. Benjamin Ehlers, University of Georgia

The Former Jews of This Kingdom N. Zeldes, 2003 This book studies the converted Jews in Sicily following the 1492 expulsion, using contemporary sources to examine their legal, economic, and cultural circumstances. It also sheds new light on Spanish Royal policies and the establishment of the Inquisition in Sicily. *"The Former Jews of this Kingdom"* Nadia Zeldes, 2021-10-11 This book examines the presence of the converted Jews in Sicily following the 1492 expulsion, discussing their legal status, economic activities, and integration into Sicilian society and the phenomenon of conversion and return of many exiles. The research is based on the account of books of the Spanish Inquisition in Sicily and other contemporary sources. Detailed inventories of confiscated property offer insights into the converts' cultural world and can also be of interest to the scholar of social and material history in Early Modern Europe. By focussing on royal policies towards the converted Jews and on the process of establishing the Spanish Inquisition in Sicily, the study sheds new light on Ferdinand the Catholic's politics in Sicily and southern Italy.

Anatomy of Torture Ron E. Hassner, 2022-04-15 Does torture work? Can controversial techniques such as waterboarding extract crucial and reliable intelligence? Since 9/11, this question has been angrily debated in the halls of power and the court of public opinion. In *Anatomy of Torture*, Ron E. Hassner mines the archives of the Spanish Inquisition to propose an answer that will frustrate and infuriate both sides of the divide. The Inquisition's scribes recorded every torment, every scream, and every confession in the torture chamber. Their transcripts reveal that Inquisitors used torture deliberately and meticulously, unlike the rash, improvised methods used by the United States after 9/11. In their relentless pursuit of underground Jewish communities in Spain and Mexico, the Inquisition tortured in cold blood. But they treated any information extracted with caution; torture was used to test information provided through other means, not to uncover startling new evidence. Hassner's findings in *Anatomy of Torture* have important implications for ongoing torture debates. Rather than insist that torture is ineffective, torture critics should focus their attention on the morality of torture. If torture is evil, its efficacy is irrelevant. At the same time, torture defenders cannot advocate for torture as a counterterrorist quick fix; torture has never located nor will ever locate the hypothetical ticking bomb that is frequently invoked to justify brutality in the name of security. **The Empire of the Cities** Aurelio Espinosa, 2009 This study of the

Spanish monarchy bureaucracy and representative government under Charles V before and after the comunero revolt 1520 1521 demonstrates how the emperor and Castilian republics institutionalized management procedures that promoted accountability advanced a meritocracy and facilitated expansionism and domestic stability *Ferdinand and Isabella* J. Edwards,2014-06-11 This book is about a couple not a single dominant ruler Thus it raises issues of gender and the dynamics of a marriage over thirty five years as well as the practice of monarchical power The reader sees Ferdinand and Isabella struggle to establish their regime and then work out an elaborate reform programme in Church and State It sees them fight a total war by fifteenth century standards against Muslim Granada leading to that kingdom s conquest and an equally total war through the Inquisition and the Church in general to convert Spanish Jews and Muslims to Christianity and to reform and purify the religious and social lives of the established Christians themselves For readers interested in Early European History

Defining Nature's Limits Neil Tarrant,2022-11-18 A look at the history of censorship science and magic from the Middle Ages to the post Reformation era Neil Tarrant challenges conventional thinking by looking at the longer history of censorship considering a five hundred year continuity of goals and methods stretching from the late eleventh century to well into the sixteenth Unlike earlier studies *Defining Nature's Limits* engages the history of both learned and popular magic Tarrant explains how the church developed a program that sought to codify what was proper belief through confession inquisition and punishment and prosecuted what they considered superstition or heresy that stretched beyond the boundaries of religion These efforts were continued by the Roman Inquisition established in 1542 Although it was designed primarily to combat Protestantism from the outset the new institution investigated both practitioners of illicit magic and inquiries into natural philosophy delegitimizing certain practices and thus shaping the development of early modern science Describing the dynamics of censorship that continued well into the post Reformation era *Defining Nature's Limits* is revisionist history that will interest scholars of the history science the history of magic and the history of the church alike *The New Anti-Catholicism* Philip Jenkins,2003-04-17 Anti Catholicism has a long history in America And as Philip Jenkins argues in *The New Anti Catholicism* this virulent strain of hatred once thought dead is alive and well in our nation but few people seem to notice or care A statement that is seen as racist misogynistic anti Semitic or homophobic can haunt a speaker for years writes Jenkins but it is still possible to make hostile and vituperative public statements about Roman Catholicism without fear of serious repercussions Jenkins shines a light on anti Catholic sentiment in American society and illuminates its causes looking closely at gay and feminist anti Catholicism anti Catholic rhetoric and imagery in the media and the anti Catholicism of the academic world For newspapers and newsmagazines for television news and in movies for major book publishers the Catholic Church has come to provide a grossly stereotyped public villain Catholic opinions doctrines and individual leaders are frequently the butt of harsh satire Indeed the notion that the church is a deadly enemy of women the idea of Catholic misogyny is commonly accepted in the news media and in popular culture says Jenkins And the recent pedophile priest

scandal he shows has revived many ancient anti Catholic stereotypes It was said that with the election of John F Kennedy anti Catholicism in America was dead This provocative new book corrects that illusion drawing attention to this important issue

The Routledge Companion to Iberian Studies Javier Muñoz-Basols, Manuel Delgado Morales, Laura Lonsdale, 2017-03-16 This book provides a comprehensive state of the art account of the field reaffirming Iberian Studies as a dynamic and evolving discipline offering promising areas of future research It is an essential tool for research in Iberian Studies

Preaching Spanish Nationalism across the Hispanic Atlantic, 1759-1823 Scott Eastman, 2012-01-16 In this debut work Scott Eastman tackles the complex issue of nationalism in the eighteenth and nineteenth century Spanish Atlantic empire Preaching Spanish Nationalism across the Hispanic Atlantic challenges the idea that nationalism arose from the ashes of confessional society Rather the tenets of Roman Catholicism and the ideals of Enlightenment worked together to lay the basis for a mixed modernity within the territories of the Spanish monarchy Drawing on sermons catechisms political pamphlets and newspapers Eastman demonstrates how religion and tradition cohered within burgeoning nationalist discourses in both Spain and Mexico And though the inclusive notion of Spanish nationalism faded as the revolutions in the Hispanic Atlantic world established new loyalty to postcolonial states the religious imagery and rhetoric that had served to define Spanish identity survived and resurfaced throughout the course of the long nineteenth century Preaching Spanish Nationalism across the Hispanic Atlantic skillfully debates the prevailing view that the monolithic Catholic Church as the symbol of the ancien régime subverted a secular progression toward nationalism and modernity Eastman deftly contends that the common political and religious culture of the Spanish Atlantic empire ultimately transformed its subjects into citizens of the Hispanic Atlantic world
