Spanish Sahara:

The Western Saharans Virginia Thompson, Richard Adloff, 2025-08-01 Since the Spanish withdrawal from their Saharan colonies in 1975 a determined guerrilla war was fought against the Moroccans by the Polisario who claimed the territory as their rightful country This war which also involved Mauritania threatened to involve Morocco and Algeria in open conflict and could lead to a much more serious conflict within the Arab World First published in 1980 *The Western Saharans* looks at the background to the conflict and provides a comprehensive economic political and social portrait of the key constituents Mauritania the Spanish Sahara Morocco and the Polisario Front This book will be of interest to students and researchers of politics and history

Africa in the Contemporary Spanish Novel, 1990-2010 Mahan L. Ellison, 2021-08-19 The time period of 1990 2010 marks a significant moment in Spanish literary publishing that emphasized a new focus on Africa and African voices and signaled the beginning of a publishing boom of Hispano African authors and themes Africa in the Contemporary Spanish Novel 1990 2010 analyzes the strategies that Spanish and Hispano African authors employ when writing about Africa in the contemporary Spanish novel Focusing on the former Spanish colonial territories of Morocco Western Sahara and Equatorial Guinea Mahan L Ellison analyzes the post colonial literary discourse about these regions at the turn of the twenty first century He examines the new ways of conceptualizing Africa that depart from an Orientalist framework as advanced by novelists such as Lorenzo Silva Concha L pez Saras a Ram n Mayrata and others Throughout Ellison also places the novels within their historical context specifically engaging with the theoretical ideas of Edward Said's Orientalism 1978 to determine to what extent his analysis of Orientalist discourse still holds value for a study of the Spanish novel of thirty years later

The First Right Bradley R. Simpson, Associate Professor of History and Asian Studies Bradley R Simpson, 2025-10-14 The idea of self-determination is one of the most significant in modern international politics For more than a century diplomats lawyers scholars activists and ordinary people in every part of the globe have wrestled with its meaning and implications for decolonization human rights sovereignty and international order The First Right argues that there was no one self-determination but a century-long contest between contending visions of sovereignty and rights that were as varied and changing as the nature of sovereignty itself In this globe-spanning narrative Simpson argues that self-determination's meaning has often emerged not just from the United Nations but from the claims of movements and peoples on the margins of international society Powerful states he shows persistently rejected expansive self-determination claims arguing that these threatened great power conflict the dissolution of international order or the unravelling of the world economy Pacific Island territories indigenous peoples regional and secessionist movements and transnational solidarity groups among others rejected the efforts of large powerful states to define self-determination along narrow lines Instead international historian Bradley R Simpson shows they offered expansive visions of economic political and cultural sovereignty ranging far beyond the movement for decolonization with which they are often associated As they did so these movements and groups helped to vernacularize self-determination as a language of social justice and rights for people around the world An ambitious work of global breadth on a key geopolitical issue The First Right transforms how we think about the making of the twentieth-century world order and the place of the global South and decolonization in it **AF Press Clips**, 1975

Congress,1975 *Spanish Empire* Kelly Mass, The marriage of Ferdinand of Aragon and Isabella of Castile in the late 15th century laid the foundation for what would become the Spanish Empire Their union created a personal alliance between the two powerful kingdoms forming the basis for modern Spain This confederation of the Crowns of Castile and Aragon brought together Iberia s economic and military strength under the House of Trast mara although the two crowns remained legally distinct The union proved significant because it enabled them to share governance over various regions and kingdoms particularly in the eastern Mediterranean Their reign saw major successes most notably the Christian reconquest of the Muslim Kingdom of Granada completed in 1492 This victory not only unified the Iberian Peninsula but also earned Ferdinand and Isabella the title of Catholic Monarchs a recognition granted by Pope Alexander VI While Isabella focused on consolidating power in Iberia Ferdinand directed his attention toward expanding influence abroad pursuing military campaigns in North Africa France and Italy Despite their achievements the concept of Early Modern Spain as a coherent political entity can be somewhat misleading The Habsburg monarchy that succeeded Ferdinand and Isabella was a hybrid structure with no formal name to describe the territories collectively During the Early Modern period the term Spain often referred to the entire Iberian Peninsula in a geographical rather than a political sense reflecting a continuation of medieval traditions *International Boundary Study* ,1961
