Global Crusoe Ann Marie Fallon, 2016-04-22 Global Crusoe travels across the twentieth century globe from a Native American reservation to a Botswanan village to explore the huge variety of contemporary incarnations of Daniel Defoe's intrepid character In her study of the novels poems short stories and films that adapt the Crusoe myth Ann Marie Fallon argues that the twentieth century Crusoe is not a lone struggling survivor but a cosmopolitan figure who serves as a warning against the dangers of individual isolation and colonial oppression Fallon uses feminist and postcolonial theory to reexamine

Defoe's original novel and several contemporary texts showing how writers take up the traumatic narratives of Crusoe in response to the intensifying transnational and postcolonial experiences of the second half of the twentieth century. Reading texts by authors such as Nadine Gordimer, Bessie Head, Derek Walcott, Elizabeth Bishop, and J. M. Coetzee within their social, historical, and political contexts, Fallon shows how contemporary revisions of the novel reveal the tensions inherent in the transnational project as people and ideas move across borders with frequency if not necessarily with ease. In the novel *Robinson Crusoe*, Crusoe's discovery of Friday's footprint fills him with such anxiety that he feels the print like an animal and burrows into his shelter. Likewise, modern readers and writers continue to experience a deep anxiety when confronting the narrative issues at the center of Crusoe's story.

**Beyond Technology** David Buckingham, 2013-04-17. *Beyond Technology* offers a challenging new analysis of learning, young people, and digital media. Disputing both utopian fantasies about the transformation of education and exaggerated fears about the corruption of childhood innocence, it offers a level-headed analysis of the impact of these new media on learning, drawing on a wide range of critical research. Buckingham argues that there is now a growing divide between the media-rich world of children's lives outside school and their experiences of technology in the classroom. Bridging this divide, he suggests, will require more than superficial attempts to import technology into schools or to combine education with digital entertainment. While debunking such fantasies of technological change, Buckingham also provides a constructive alternative, arguing that young people need to be equipped with a new form of digital literacy that is both critical and creative. *Beyond Technology* will be essential reading for all.

**Development** Nick Iuppa, Terry Borst, 2012-10-12 You're part of a new venture: an independent gaming company and you are about to undertake your first development project. The client wants a serious game, one with instructional goals and assessment metrics. Or you may be in a position to green-light such a project yourself, believing that it can advance your organization's mission and goals. This book provides a proven process to take an independent game project from start to finish. In order to build a successful game, you need to wear many hats. There are graphic artists, software engineers, designers, producers, marketers; all take part in the process at various coordinated stages, and the end result is hopefully a successful game. Veteran game producers and writers Iuppa and Borst cover all of these areas for you with step-by-step instructions and checklists to get the work done. The final section of the book offers a series of case studies from REAL indie games that have been developed and launched successfully and show exactly how the principles outlined in the book can be applied to real-world products. The book's associated author web site offers ancillary materials, references, as well as serious game demos and presentations.      **The Life and Adventures of Maj. Roger Sherman Potter** F. **The Life and Adventures Of...Roger Sherman Potter** Francis Colburn Adams, 1858      **Security and Hospitality in Literature and Culture** Jeffrey Clapp, Emily Ridge, 2015-10-05 With contributions from an international array of scholars, this volume opens a dialogue between discourses of security and hospitality in modern and contemporary literature and culture. The chapters in the volume span domestic spaces and detention camps, the experience of migration and the phenomena of tourism, interpersonal exchanges and cross-cultural interventions. The volume explores the multifarious ways in which subjects, citizens, communities and states negotiate the mutual and potentially exclusive desires to secure themselves and offer hospitality to others. From the individual's telephone and data to the threshold of the family home to the borders of the nation, sites of securitization confound hospitality's injunction to openness, gifting and refuge. In demonstrating an interrelation between ongoing discussions of hospitality and the intensifying attention to security, the book engages with a range of literary, cultural and geopolitical contexts, drawing on work from other disciplines including philosophy, political science and sociology. Further, it defines a new interdisciplinary area of inquiry that resonates with current academic interests in world literature, transnationalism and cosmopolitanism.      **The Edinburgh Gazetteer Or Geographical**

Harvey, 2019-07-24 This is the first book to focus entirely on the under-researched but crucial topic of women in the work of J M Coetzee, generally regarded as one of the world's most significant living writers. The fourteen essays in this collection raise

the central issue of how Coetzee's texts address the woman question There is a focus on Coetzee's representation of women engagement with women writers and the ethics of what has been termed his ventriloquism of women's voices in his fiction and autobiographical writings right up to his most recent novel *The Schooldays of Jesus* As such this collection makes important links between the disciplines of literary and gender studies It includes essays by well known Coetzee scholars as well as by emerging scholars from around the world providing fascinating and timely global insights into how his works are read from differing cultural and scholarly perspectives
