C. Glenn,Ralph Emerson Caryl,1928 Many farmers do not realize that small streams may be used in generating electricity Electrical equipment on the farm saves time and labor but if it is to be a sound investment the cost of installation should not be greater than the benefits obtained can justify The purpose of this bulletin is to acquaint farmers with the possibilities of developing the power of small streams by converting it into electrical energy and the uses to which such power can be put to give information which will enable them to avoid unnecessary expenditures to explain how to determine the power a stream will supply and to indicate the sources from which to secure additional information regarding the approximate cost of installing a plant suited to the power available The details of design installation and operation of electrical equipment are not within the scope of this bulletin      **Market Growers Journal** ,1925      **Weekly Market Growers Journal** ,1925      *Annual Business Meeting* American Fruit and Vegetable Shippers' Association,1924      Entrepreneurs in the Southern Upcountry Bruce W. Eelman,2010-01-25 In *Entrepreneurs in the Southern Upcountry* Bruce W Eelman follows the evolution of an entrepreneurial culture in a nineteenth century southern community outside the plantation belt Counter to the view that the Civil War and Reconstruction alone brought social and economic revolution to the South Eelman finds that antebellum Spartanburg businessmen advocated a comprehensive vision for modernizing their region Although their plans were forward looking they still supported slavery and racial segregation By the 1840s Spartanburg merchants manufacturers lawyers and other professionals were looking to capitalize on the area s natural resources by promoting iron and textile mills and a network of rail lines Recognizing that cultural change had to accompany material change these businessmen also worked to reshape legal and educational institutions Their prewar success was limited largely due to lowcountry planters political power However their modernizing spirit would serve as an important foundation for postwar development Although the Civil War brought unprecedented trauma to the Spartanburg community the modernizing merchants industrialists and lawyers strengthened their political and social clout in the aftermath As a result much of the modernizing blueprint of the 1850s was realized in the 1870s Eelman finds that Spartanburg s modernizers slowed legal and educational reform only when its implementation seemed likely to empower African Americans      *Peddlers, Merchants, and Manufacturers* Diane Catherine Vecchio,2024-01-04 2024 George C Rogers Jr Award Finalist best book of South Carolina history A new perspective on Jewish
