**Visual Content Processing and Representation** Narciso Garcia, José M. Martinez, Luis Salgado, 2003-10-02 The purpose of VLBV 2003 was to provide an international forum for the discussion of the state of the art of visual content processing techniques standards and applications covering areas such as video image

analysis representation and coding communications and delivery consumption synthesis protection and adaptation The topics of special interest include all the areas relevant to image communications nowadays from representation and coding to content classification adaptation and personalization A meeting covering such a wide range of topics takes many years to develop So please follow a brief story of the evolution of this relevant and specialized forum and of its adaptation to the prevailing interests along time At the beginning of 1993 the idea of a specialized workshop to discuss topics in advanced image communications came in Lausanne Switzerland at a meeting of the steering committee of the International Picture Coding Symposium Therefore the so called International Workshop on Coding Techniques for Very Low Bit rate Video VLBV was born as low bit rate research was considered to be the leading edge The first workshop was held at the University of Illinois at Urbana Champaign USA in 1993 the second at the University of Essex in Colchester UK in April 1994 the third at NTT in Tokyo Japan in November 1995 the fourth at the University of Linköping Sweden in July 1997 the fifth in Urbana again in October 1998 Until this last workshop VLBV life was closely tied with MPEG 4 that is to low bit rate research

*Computer Vision - ECCV 2004* Tomas Pajdla, Jiri Matas, 2004-05-12 Welcome to the proceedings of the 8th European Conference on Computer Vision Following a very successful ECCV 2002 the response to our call for papers was almost equally strong 555 papers were submitted We accepted 41 papers for oral and 149 papers for poster presentation Several innovations were introduced into the review process First the number of program committee members was increased to reduce their review load We managed to assign to program committee members no more than 12 papers Second we adopted a paper ranking system Program committee members were asked to rank all the papers assigned to them even those that were reviewed by additional reviewers Third we allowed authors to respond to the reviews consolidated in a discussion involving the area chair and the reviewers Fourth their reports their reviews and their responses were made available to the authors as well as to the program committee members Our aim was to provide the authors with maximal feedback and to let the program committee members know how authors reacted to their reviews and how their reviews were or were not reflected in the final decision Finally we reduced the length of reviewed papers from 15 to 12 pages The preparation of ECCV 2004 went smoothly thanks to the efforts of the organizing committee the area chairs the program committee and the reviewers We are indebted to Anders Heyden Mads Nielsen and Henrik J Nielsen for passing on ECCV traditions and to Dominique Asselineau from ENST TSI who kindly provided his GestRFIA conference software We thank Jan Olof Eklundh and Andrew Zisserman for encouraging us to organize ECCV 2004 in Prague
