The Guardian Strikes:

Workers' Movements and Strikes in the Twenty-First Century Jörg Nowak, Madhumita Dutta, Peter Birke, 2018-04-05 While workers movements have been largely phased out and considered out dated in most parts of the world during the 1990s the 21st century has seen a surge in new and unprecedented forms of strikes and workers organisations The collection of essays in this book spanning countries across global South and North provides an account of strikes and working class resistance in the 21st century Through original case studies the book looks at the various shades of workers movements analysing different forms of popular organisation as responses to new social and economic conditions such as restructuring of work and new areas of investment

International Law and Drone Strikes in Pakistan Sikander Ahmed Shah, 2014-11-13 While conventional warfare has an established body of legal precedence the legality of drone strikes by the United States in Pakistan and elsewhere remains ambiguous This book explores the legal and political issues surrounding the use of drones in Pakistan Drawing from international treaty law customary international law and statistical data on the impact of the strikes Sikander Ahmed Shah asks whether drone strikes by the United States in Pakistan are in compliance with international humanitarian law The book questions how international law views the giving of consent between States for military action and explores what this means for the interaction between sovereignty and consent The book goes on to look at the socio political realities of drone strikes in Pakistan scrutinizing the impact of drone strikes on both Pakistani politics and US Pakistan relationships Topics include the Pakistan army government relationship the evolution of international institutions as a result of drone strikes and the geopolitical dynamics affecting the region As a detailed and critical examination of the legal and political challenges presented by drone strikes this book will be essential to scholars and students of the law of armed conflict security studies political science and international relations

The Right to Strike in International Law Jeffrey Vogt, Janice Bellace, Lance Compa, K D Ewing, John Hendy QC, Klaus Lörcher, Tonia Novitz, 2020-03-19 This monograph was originally developed as a direct response to the claim made by members of the Employers Group at the 2012 International Labour Conference namely that the right to strike is not protected in international law and in particular by ILO Convention 87 on the right to freedom of association The group's apparent aim was to sow sufficient doubt as to the existence of an internationally protected right so that governments might seek to limit or prohibit the right to strike at the national level while still claiming compliance with their international obligations In consequence some governments have seized on the employers arguments to justify new limitations on that right The Right to Strike in International Law not merely refutes this claim but is the only complete and exhaustive analysis on this subject Based on deep legal research it finds that there is simply no credible basis for the claim that the right to strike does not enjoy the protection of international law indeed the authors demonstrate that it has attained the status of customary international law

From Student Strikes to the Extinction Rebellion Benjamin J. Richardson, 2020-12-25 Across the world millions of

people are taking to the streets demanding urgent action on climate breakdown and other environmental emergencies

Extinction Rebellion Fridays for Future and Climate Strikes are part of a new lexicon of environmental protest advocating civil disobedience to leverage change This groundbreaking book also a Special Issue of the Journal of Human Rights and the Environment critically unveils the legal and political context of this new wave of eco activisms It illustrates how the practise of dissent builds on a long tradition of grassroots activism such as the Anti Nuclear movement but brings into focus new participants such as school children and new distinctive aesthetic tactics such as the mass die ins and disobedience theatrics in public spaces *Strike for the Common Good* Rebecca Kolins Givan,Amy Schrager Lang,2020-10-08 In February 2018 35 000 public school educators and staff walked off the job in West Virginia More than 100 000 teachers in other states both right to work states like West Virginia and those with a unionized workforce followed them over the next year From Arizona Kentucky and Oklahoma to Colorado and California teachers announced to state legislators that not only their abysmal wages but the deplorable conditions of their work and the increasingly straitened circumstances of public education were unacceptable These recent teacher walkouts affirm public education as a crucial public benefit and understand the rampant disinvestment in public education not simply as a local issue affecting teacher paychecks but also as a danger to communities and to democracy Strike for the Common Good gathers together original essays written by teachers involved in strikes nationwide by students and parents who have supported them by journalists who have covered these strikes in depth and by outside analysts academic and otherwise Together the essays consider the place of these strikes in the broader landscape of recent labor organizing and battles over public education and attend to the largely female workforce and often largely non white student population of America s schools **Rethinking Job Security** Joanna Howe,2016-10-14 This book critically examines the proper role of the law in protecting job security in the contemporary workplace It provides a historical theoretical practical and comparative perspective on this under researched but fundamentally important legal mechanism at a time when the pressure to deregulate and dilute worker protective laws has taken on increased importance The volume critically analyses both statute and case law from three advanced industrialised liberal democracies with a common law foundation the UK Australia and the USA to understand the extent to which job security is realised By applying a common approach and a conceptual framework that emphasises the complex relationships between law the economy and society to analyse a series of national studies the book is also designed to draw upon the insights of comparative analysis to deepen our understanding of the limits and possibilities of legal regulation of job security The national case studies are supplemented by research that focuses on how supra national organisations have sought both to develop and disseminate new legal norms around the practices and processes of dismissal This study critically analyses and assesses the adequacy of the international regulatory framework for protecting the rights of employees in the dismissal process *The Rise of Politically Motivated Cyber Attacks* Tine Munk,2022-03-23 This book outlines the complexity in understanding different forms of cyber attacks the

actors involved and their motivations It explores the key challenges in investigating and prosecuting politically motivated cyber attacks the lack of consistency within regulatory frameworks and the grey zone that this creates for cybercriminals to operate within Connecting diverse literatures on cyberwarfare cyberterrorism and cyberprotests and categorising the different actors involved state sponsored supported groups hacktivists online protestors this book compares the means and methods used in attacks the various attackers and the current strategies employed by cybersecurity agencies It examines the current legislative framework and proposes ways in which it could be reconstructed moving beyond the traditional and fragmented definitions used to manage offline violence This book is an important contribution to the study of cyber attacks within the areas of criminology criminal justice law and policy It is a compelling reading for all those engaged in cybercrime cybersecurity and digital forensics

Media Representations of Anti-Austerity Protests in the EU Tao

Papaioannou, Suman Gupta, 2017-09-13 This book analyzes constructions of injustice group identification and participation in news and social media in anti austerity protests within the European Union EU Since 2008 EU member states have witnessed waves of protests and demonstrations against the adoption of austerity measures and alignment of domestic economies with the prevailing global neoliberal order Understanding how the media represents dissent and how it influences public deliberation is of critical importance It is accordingly necessary to explore the strategies deployed and role played by news and social media in representing and perhaps acting upon anti austerity protests in the Eurozone crisis This volume undertakes such a critical exploration

The Idea of Labour Law Guy Davidov, Brian Langille, 2011-06-02

There is growing interest in trying to understand and rethink the goals of labour law in light of changing realities in the labor market and regulation Responding to such fundamental questions as What is labor law for How can it be justified And on what should reforms be based This book challenges the way we think about labor law

News, Numbers and Public Opinion in a Data-Driven World An Nguyen, 2017-12-28 From the quality of the air we breathe to the national leaders we choose data and statistics are a pervasive feature of daily life and daily news But how do news numbers and public opinion interact with each other and with what impacts on society at large Featuring an international roster of established and emerging scholars this book is the first comprehensive collection of research into the little understood processes underpinning the uses misuses of statistical information in journalism and their socio psychological and political effects Moving beyond the hype around data journalism News Numbers and Public Opinion delves into a range of more latent fundamental questions such as Is it true that most citizens and journalists do not have the necessary skills and resources to critically process and assess numbers How do should journalists make sense of the increasingly data driven world What strategies formats and frames do journalists use to gather and represent different types of statistical data in their stories What are the socio psychological and political effects of such data gathering and representation routines formats and frames on the way people acquire knowledge and form attitudes What skills and resources do journalists and publics need to deal effectively with the influx of numbers into in daily

work and life and how can newsrooms and journalism schools meet that need The book is a must read for not only journalists journalism and media scholars statisticians and data scientists but also anybody interested in the interplay between journalism statistics and society *Sunningdale, the Ulster Workers' Council strike and the struggle for democracy in Northern Ireland* David McCann, Cillian McGrattan, 2017-03-03 The Sunningdale experiment of 1973-4 witnessed the first attempt to establish peace in Northern Ireland through power sharing However its provisions particularly the cross border Council of Ireland proved to be a step too far The experiment floundered amid ongoing paramilitary led violence finally collapsing in May 1974 as a result of the Ulster Workers Council strike Drawing on new scholarship from some of the top political historians working on the period this book presents a series of reflections on how key protagonists struggled with notions of power sharing and the Irish dimension and how those struggles inhibited a deepening of democracy and the ending of violence for so long US Counterterrorism and the Human Rights of Foreigners Abroad Monika Heupel, Caiden Heaphy, Janina Heaphy, 2022-02-22 This book examines why the United States has introduced safeguards that are designed to prevent their counterterrorism policies from causing harm to non US citizens beyond US territory It investigates what made US policymakers take steps to put the gloves back on through five case studies on the emergence of such safeguards related to the right not to be tortured the right not to be arbitrarily detained the right to life in connection with targeted killing operations the right to seek asylum in connection with refugee resettlement and the right to privacy in connection with foreign mass surveillance The book exposes two mechanisms coercion and strategic learning which explain why the United States has introduced what the authors refer to as extraterritorial human rights safeguards thus demonstrating that the emerging norm that states have human rights obligations towards foreigners beyond their borders constrains policy choices This book will be of key interest to scholars and students of human rights counterterrorism US foreign policy human rights law and more broadly to political science and international relations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Drones and Global Order** Paul Lushenko, Srinjoy Bose, William Maley, 2021-12-28 This book explores the implications of drone warfare for the legitimacy of global order The literature on drone warfare has evolved from studying the proliferation of drones to measuring their effectiveness to exploring their legal moral and ethical impacts These three waves of scholarship do not however address the implications of drone warfare for global order This book fills the gap by contributing to a fourth wave of literature concerned with the trade offs imposed by drone warfare for global order The book draws on the English School of International Relations Theory which is premised on the existence of a society of states bounded by common norms values and institutions to argue that drone warfare imposes contradictions on the structural and normative pillars of global order These consist of the structure of international society and diffusion of military capabilities as well as the sovereign equality of states and laws of armed conflict The book presents a typology of contradictions imposed by

drone warfare within and across these axes that threaten the legitimacy of global order This framework also suggests a confounding consequence of drone warfare that scholars have not hitherto explored rigorously drone warfare can sometimes strengthen global order The volume concludes by proposing a research agenda to reconcile the complex and often counter intuitive impacts of drone warfare for global order This book will be of considerable interest to students of security studies global governance and International Relations

The Strike Zone R. Mark Janacek, 2016-03-29 It takes place every day business professionals evaluate the performance of an individual a department or team and perhaps even an entire company However for many managers the process of evaluating performance is a dreaded corporate ritual that fails to cut to the chase and answer the question Did the performer achieve the objective or not For nearly 35 years as a national and international management consultant Mark Janacek has helped Fortune 500 organizations around the globe to improve individual team and corporate performance An avid and lifelong baseball fan Janacek applies the simplicity of calling balls strikes and outs against the strike zone as a model for evaluating performance in the business setting The Strike Zone provides both a practical set of techniques as well as a strong philosophical foundation for simplifying and strengthening the evaluation process across the entire business enterprise For over three decades Janacek observed the hand wringing frustration of both managers and staff struggling with evaluation systems failing to identify and truly reward excellence in performance while correctly indicting poor performers that weigh down the organization The Strike Zone is designed to reverse this agonizing trend and vector corporate cultures to perform as never before Janacek liberates well meaning HR departments and company executives as he uncovers the ten most common evaluation traps found in many organizations The Strike Zone provides specific hard hitting strategies to avoid them Janacek s cutting edge approach makes The Strike Zone a must read for everyone competing in the business setting Regardless of your position owner executive manager team leader or individual contributor The Strike Zone will surely engage you with keen insights great depth of thought and ignite those long lost passions for excellence

Palestine-Israel in the Print News Media Luke Peterson, 2014-10-24 Israel Palestine in the Print News Media Contending Discourses is concerned with conceptions of language knowledge and thought about political conflict in the Middle East in two national news media communities the United States and the United Kingdom Arguing for the existence of national perspectives which are constructed distributed and reinforced in the print news media this study provides a detailed linguistic analysis of print news media coverage of four recent events in the Palestinian Israeli conflict in order to examine ideological patterns present in print news media coverage The two news communities are compared for lexical choices in news stories about the conflict attribution of agency in the discussion of conflict events the inclusion or exclusion of historical context in explanations of the conflict and reliance upon essentialist elements during and within print representations of Palestine Israel The book also devotes space to first hand testimony from journalists with extensive experience covering the conflict from within both news media institutions Unifying various avenues of academic enquiry

reflecting upon the acquisition of information and the development of knowledge this book will be of interest to those seeking a new approach to the Palestinian Israeli conflict The 1981 Irish Hunger Strike Michael C. Mentel,2024-01-19 The hunger strike of 1981 is regarded as one of the most tragic events in Irish history Ten men died over a period of 217 days in the H Blocks of Long Kesh Maze prison while exercising the most extreme form of civil disobedience available to them The Troubles that gave rise to the hunger strike had roots in the centuries of socio economic subjugation and religious persecution in Ireland In 1971 the British government began internment without trial for persons suspected of belonging to paramilitary organizations Eventually the British government granted Special Category Status to these prisoners before later stripping it from the prisons by 1976 leading to a five year prisoner protest that culminated in the 1981 hunger strike This book critically examines declassified British government documents that detail how the government s policies led to the 1981 hunger strike how Margaret Thatcher exacerbated the strike by refusing steps to end it and how the hunger strike eventually led to peace in the north Analysis also illustrates how the 1981 hunger strike and the ten men who died on it forced a revolutionary change in the political and governmental structure of the north and paved a road to peace that concluded with the signing of the 1998 Good Friday Agreement *Palgrave Dictionary of Public Order Policing, Protest and Political Violence* P. Joyce,Neil Wain,2014-11-04 Protest and political violence are concerns of global importance in the twenty first century This dictionary brings together in one comprehensive volume a number of key issues relating to the conduct of protest and political violence and the response of the state and police to such activities **News and Civil Society** Jen Birks,2016-05-13 Civil Society has not been more relevant as a concept and a practice since the fall of communism in Eastern Europe Global events from Tahir Square to Wall St have brought a new relevance and urgency to questions about the boundaries of legitimate dissent and public order policing the meaning of tolerance in the context of conflicting rights claims and how we can agree on the shared values of the good society This timely book examines the representation of civil society in news media exploring the popular understanding of this contested space in relation to conflicting legitimating frames as the neo liberal Big Society activist political participation or postmodern apolitical tolerance With close reference to prominent news stories including the UK state visit of Pope Benedict XVI anti austerity protests and industrial action police infiltration of the environmental movement and the Occupy camp at St Paul s Cathedral in London News and Civil Society scrutinises different facets of contemporary civil society civility and civic virtue A cross disciplinary engagement with questions of national identity and pluralism civil liberties and dissent power and accountability this book will appeal to those with interests in media journalism sociology citizenship and political studies Young People and Stories for the Anthropocene Peter Kelly,Peter Kraftl,Diego Carbajo Padilla,Rosalyn Black,Deborah MacDonald,Meave Noonan,Ana Sofia Ribeiro,2022-09-26 This edited collection presents stories of children and young people s entanglements with times of ongoing crisis in the Anthropocene The authors use biographical narratives and arts based methodologies to further the

discussion surrounding young people's well-being, resilience, and enterprise. Through these stories, they seek to critically engage with the literature on the Anthropocene and interrogate concepts such as agency, structure, and belonging.

Targeted Killings, Law and Counter-Terrorism Effectiveness Ophir Falk, 2020-06-01. This book examines the permissibility and effectiveness of targeted killing in campaigns against terror. Targeted killing has become a primary counterterrorism measure used by several countries in their confrontation with lethal threats. The practice has been extensively used by the US in Afghanistan, Iraq, Pakistan, Yemen, and Somalia, and by Israel in the West Bank and Gaza. Several studies have already explored the difficult balance between achieving security while maintaining the liberties and rights of a country's civilians. This book goes a step further by seeking to examine whether maintaining those liberties by complying with legal standards and minimizing unintended deaths can be more effective for national security. Using targeted killing applied by Israel in particular, as well as the United States during the first decade of the twenty-first century as case studies, this book explores that question and ultimately assesses whether compliance with legal standards can strengthen a state in its campaign against terrorism and thus provide stronger security. The book focuses on civilian-related criteria, hypothesizing that minimizing civilian casualties will maximize effectiveness in an asymmetric war setting. The conclusions are not limited to a specific tactic or theater and, if adopted, might have far-reaching implications for how asymmetric warfare is strategized. This book will be of much interest to students of counterterrorism, law, Middle Eastern studies, and security studies.

This Engaging Realm of E-book Books: A Comprehensive Guide Revealing the Benefits of E-book Books: A World of Ease and Versatility E-book books, with their inherent mobility and ease of access, have liberated readers from the limitations of hardcopy books. Gone are the days of lugging bulky novels or carefully searching for particular titles in shops.
