than fiction      **Amazing Numbers in Biology** Rainer Flindt, 2006-12-21 This book of tables provides comparative data from the fields of zoology botany microbiology and human biology It is a must for everyone interested in biology but also of help for all parents to address questions such as Mama Papa how old can a be The plain facts of life from all areas of biology including such topics as growth rates of hair and nails and ages and weights of seeds are simply fascinating Biology comes alive in this comprehensive and entertaining reference work Warning Anybody who begins browsing through this book will not easily stop reading      **Oceans** Jon Bowermaster, 2010-10-08 Presents a collection of essays by leading experts examining the current condition of the world s oceans and their inhabitants and emphasizing the need to preserve them from the threat of pollution overfishing dead zones and global warming      **Thunderbirds** Mark A. Hall, Mark Lee Rollins, 2008-11-01 In this compelling compilation of evidence researcher Mark Hall presents the case for terrifying monstrous bird that has roamed our continents since the days of the ancient legends of the Thunderbird Some very large birds are being sighted in the skies over North America Described as an enormous black bird with a white ring around its long neck and a wingspan of up to 20 feet and more this giant bird of prey has been sighted from Alaska Canada and the Pacific Northwest and into the Midwest Appalachia and Pennsylvania The accounts are puzzling and hard to believe yet eyewitnesses swear by what they saw Evidence from around the world indicates that our ancestors knew and feared the bird which can carry away small children and animals      **The Shark That Walks On Land** Michael Bright, 2020-01-16 When you dive into the sea do you ever wonder what s down there beneath you poised to take an inquisitive bite Author of Jaws Peter Benchley and film director Steven Spielberg certainly did for below the waves lies a world we neither see nor understand an alien world where we are but the briefest of visitors The Shark that Walks on Land uncovers tales of ancient and modern mariners with stories of sea serpents mermaids and mermen sea dragons and the true identity of the legendary kraken But this book contains more than just a medley of maritime myths and mysteries for marine biologists it celebrates wonderful discoveries by blending the unknown and the familiar in an entertaining miscellany of facts figures and anecdotes about the myriad creatures that inhabit the oceans Along the way we meet the giants the most dangerous the oddballs and the record breakers and the shark that really does walk on land      **Life and Times of a Big River** Peter J. Marchand, 2015-04-15 When Richard Nixon signed the Alaska Native Claims Settlement Act in 1971 eighty million acres were flagged as possible national park land Field expeditions were tasked with recording what was contained in these vast acres Under this decree five men were sent into the sprawling roadless interior of Alaska unsure of what they d encounter and ultimately responsible for the fate of four thousand pristine acres Life and Times of a Big River follows Peter J Marchand and his team of biologists as they set out to explore the land that would ultimately become the Yukon Charley Rivers National Preserve Their encounters with strange plants rare insects and little known mammals bring to life a land once thought to be static and monotonous And their struggles to navigate and adapt to an unforgiving environment capture the rigorous demands of remote field work Weaving in and out of

Marchand's narrative is an account of the natural and cultural history of the area as it relates to the expedition and the region's Native peoples. Life and Times of a Big River chorinckles this riveting one of a kind journey of uncertainty and discovery from a disparate and at one point desperate group of biologists. **The Search for the Giant Squid** Richard Ellis, 1999-10-01 The most mysterious and elusive of all sea creatures the giant squid at least sixty feet long and weighing nearly a ton is also one of the largest. Yet for all its magnificent size and threatening undersea presence Architeuthis has remained a mystery. Until now. In this marvelous and beautifully illustrated book marine biologist explorer and artist Richard Ellis presents all that is known about the giant squid. Delving into myth literature popular culture and science he brings readers face to face with this remarkable creature. He also provides a thorough compelling study of what is known and what is still to be discovered about this exotic animal that has never been studied alive. Interweaving his engrossing narrative with a wealth of fascinating illustrations and photographs Ellis gives us the first comprehensive history of the only living creature that can truly be called a sea monster. **PREACHER AIN'T DONE 'TIL THE SNAKES ARE BACK IN THE BOX** Rickard Ljunggren, 2025-03-21 The book is about the Pentecostal churches in the southeastern United States that use venomous snakes during worship to affirm their faith to themselves and to other church members. In addition to the book's overall description of the phenomenon two pastors have also participated by sharing their faith. Of course the book is also about the snakes they use. Snakes always play the main role in my books. How are the snakes affected by being taken from the wild and handled during church services. **Worm** Kevin Butt, 2023-12-18 A richly illustrated celebration of the mysterious world of worms in science and culture. This book celebrates the mysterious world of worms from gardens to toothaches and beyond. Kevin Butt introduces all manner of worms including many that bear only superficial resemblance to our limbless sinuous friends in the dirt. To trace the intimate history between worms and people he discusses worms that live in bodies soil and water as well as worms from literature and mythology. Throughout the ages worms have been portrayed as benign even beautiful yet at other times spitefully ostracized as deadly creatures. This richly illustrated book looks at the microscopic and the very large indeed asking what the future holds for both human and worm kind. **Learn on the Loo** Graeme Donald, 2015-09-24 Learn on the Loo provides the perfect pre flush entertainment with bite sized chunks of wisdom that are sure to impress your friends family and colleagues. **Oceans** Participant, Jon Bowermaster, 2010-03-23 This unique tie in to the major motion picture Oceans coming this April from Disney National Geographic explores the health of our oceans and what we can do to improve it. More than 75 percent of the globe is covered by the oceans. It is sometimes difficult to understand why it is called Planet Earth rather than Planet Ocean. Since half the world's human population lives within a stone's throw of an ocean coastline the oceans health is increasingly important. Rich with resources and potential as a source of renewable energy new drugs drinking water for years we have treated them as both infinite and undamageable. But they are not. Over fishing climate change pollution acidification and more have put the world's oceans and marine life at great risk.

Oceans gathers some of the most insightful visionaries explorers and ocean lovers marine biologists politicians environmentalists fishermen sportsmen deep divers and more in a unique anthology in which each speaks to a unique aspect of our world's most dimly understood dimension Tigers of the World Ronald Tilson, Philip J. Nyhus, 2009-11-30 Tigers of the World Second Edition explores tiger biology ecology conservation management and the science and technology that make this possible In 1988 when the first edition was published tiger conservation was still in its infancy and two decades later there has been a revolution not only in what is known but how information about tigers is obtained and disseminated In the fast changing world of conservation there is a great need to summarize the vast and current state of the art to put this into historical perspective and to speculate in what yet remains to be done Tigers of the World Second Edition fulfills this need by bringing together in a unique way the world's leading tiger experts into one volume Despite the challenges ahead there are bright spots in this story and lessons aplenty not only for tiger specialists but large carnivore specialists conservation biologists wildlife managers natural resource policymakers and most importantly the caring public Examines the past twenty years of research from the world's leading tiger experts on biology politics and conservation Describes latest methods used to disseminate and obtain information needed for conservation and care of this species Includes coverage on genetics and ecology policy poaching and trade captive breeding and farming and the status of Asia's last wild tigers Excellent resource for grad courses in conservation biology wildlife management and veterinary programs New volume continues the classic Noyes Series in Animal Behavior Ecology Conservation and Management
