A Catalogue of the Work by Henry Moore in the Tate Gallery. Collection To C.** John Russell, 1978 *The Henry Moore Gift* Henry Moore, 1978 *Henry Moore, Sculpting the 20th Century* Dorothy M. Kosinski, Henry Moore, Julian Andrews, Anita Feldman Bennett, Museum of Fine Arts (Dallas, Tex.), Dallas Museum of Art, Gail Davitt, Elizabeth Ann Brown, Fine Arts Museums of San Francisco, David Cohen, National Gallery of Art (U.S.), Steven A. Nash, Harriet F. Senie, Alan G. Wilkinson, 2001-01-01 Henry Moore 1898 1986 is arguably one of the most famous and beloved sculptors of the twentieth century yet in recent decades his work has fallen out of favor in the world of contemporary art criticism This handsome book examines this intriguing contradiction and seeks to reassess Moore s crucial contribution to art of the last century Looking at Moore s early engagements with primitivism his 1930s dialogue with abstraction and surrealism and his postwar interest in large scale public sculpture the authors show how the sculptor helped to define some of the most significant aspects of modernism The authors also contextualize within the polemics of early modernism Moore s emphasis on direct carving instead of modeling and the necessary balance between abstraction and what he called the psychological human element Moore s early sculpture largely unfamiliar to the general public is given particular attention enabling the reader to explore the evolution of thematic and formal elements in his work and his ongoing response to different materials Photographs some by Moore himself of over 120 works including plasters maquettes carvings bronzes and drawings are featured many of which are previously unpublished *Celebrating Moore* Henry Moore, 1998 In celebration of the 100th anniversary of Henry Moore s birth this book features the most important and comprehensive single group of Moore s Drawings graphics and sculpture More than 300 of Moore s acclaimed works are reproduced along with fresh insights and personal anecdotes by colleagues 290 color illustrations *Sculpture and the Museum* Christopher R. Marshall, 2017-07-05 *Sculpture and the Museum* is the first in depth examination of the varying roles and meanings assigned to sculpture in museums and galleries during the modern period from neo classical to contemporary art practice It considers a rich array of curatorial strategies and settings in order to examine the many reasons why sculpture has enjoyed a position of such considerable importance and complexity within the institutional framework of the museum and how changes to the museum have altered in turn the ways that we perceive the sculpture within it In particular the contributors consider the complex issue of how best to display sculpture across different periods and according to varying curatorial philosophies Sculptors discussed include Canova Rodin Henry Moore Flaxman and contemporary artists such as Rebecca Horn Rachel Whiteread Mark Dion and Olafur Eliasson with a variety of museums in America Canada and Europe presented as case studies Underlying all of these discussions is a concern to chart the critical importance of the acquisition placement and display of sculpture in museums and to explore the importance of sculptures as a forum for the expression of

programmatic statements of power prestige and the museum's own sense of itself in relation to its audiences and its broader institutional aspirations

revised and updated J Paul Getty Museum Handbook of the Collections includes many major objects that recently have been added to the collections as well as the more familiar masterpieces frequent visitors have become acquainted with over the

years from the antiquities drawings manuscripts paintings photographs and sculpture and decorative arts holdings Among the notable new accessions is a major collection of modern and contemporary sculpture a 2005 gift from the Fran and Ray

Stark Trust Moreover the new edition of the Handbook marks the historic moment at which the Museum commences operating on two sites simultaneously the dazzling Getty Center on a hilltop in Brentwood and the magnificently reimaged

accept the fact that cities towns and suburbs are all built for us not by us It also makes sensible urban planning or policy difficult The results have not been pretty Cities are dysfunctional in part because we have built them in ways that pollute our

ecosphere something that harms our health in a direct way Ecological stupidity is also economic stupidity and North American urban development is incomprehensibly expensive But cities also don t work socially their design discourages

casual public contact which is the source of strong local communities and of self confident collective action Fowler points to numerous examples of humans who have transcended this culture of separation
