Exodus and the Odyssey which are entwined within the book by both a common link with Egypt and a review of ancient chronology They were both antecedents to the rise of Christianity which is at the heart of Western Culture It was inspired by a desire to understand the spiritual message of the Odyssey which required both geographical and spiritual interpretations of the poem Linked to this was a desire to understand the political context of the Trojan story which required resolving the false hiatus in the archaeology of Troy This resulted in a new paradigm for understanding ancient chronology which revealed the stories behind the Exodus and the location of the Garden of Eden Writing the book has been a long and eventful journey longer than Odysseus 19 years away from home The book is written in five parts Universal Chronology Based on the identification of Menophres with Thutmose III and of the Bubastite Portal s reference to Shoshenq s participation in the Battle of Qarqar the Egyptian Third Intermediate Period is shortened by 120 years with a pharaoh ruling from Tanis and subordinate kings at Bubastis and Thebes The Exodus Using the Universal Chronology and genealogical information and dates provided by the Bible it is demonstrated that the story of the Exodus is a combination of two events being the exodus of the Hyksos led by Abraham in 1406 BC following the eruption of Thera and the exodus of the Atenist Levite priests led by Moses in about the first year of Tutankhamun 1204 BC The story of Abraham also reveals the location of the Garden of Eden in the heartland of the Levant Radiocarbon Dating The process that created the dendrochronology based radiocarbon calibration curve is demonstrated to be a flawed non scientific process that relied upon circular arguments The Odyssey By comparing the life and work of Archilochus to both the Odyssey and the Iliad it is shown that Archilochus must have been the author of the Odyssey The allegory within the Odyssey is also discussed to provide both geographical and spiritual interpretations of the poem Western Culture The two main streams of Western Culture Ancient Greece and Christianity are shown to have had their foundations in the stories surrounding the Trojan War the spiritual message of the Odyssey and the influences of Egypt on Greece and Judaism It is shown how Greek and Jewish religions were fused to create the Gospels and contributed towards modern astrology

Herodotus: Histories Book IX Herodotus, 2002-12-05 Book IX of Herodotus Histories provides the conclusion and climax to his work as the victories at Plataea and Mycale complete the improbable Greek victory over Persia The major themes of the work are all here echoed modified and revisited and Book IX is thus essential for exploring its meaning or range of possible meanings This commentary the first in English devoted solely to Book IX in over a century treats Herodotus work as both an historical narrative and a work of literature incorporating the results of recent scholarly work in the fields of Greek history and historiography It contains a Greek text together with detailed philological literary and historical notes designed to assist the intermediate and advanced Greek student It will also be of use to graduate students and scholars

Xenophon: Ethical Principles and Historical Enquiry Christopher Tuplin, Fiona Hobden, 2012-08-28 Xenophon's personal history was exceptional for its combination of Socratic education and the exercise of military leadership in a time of crisis His writings provide an intellectually and morally consistent response to his times and to the issue of ethical but effective leadership and they play a special role in defining our sense of the post Athenian Empire Greek world Recent Xenophonic scholarship has established the general truth of these claims The current volume will not only reinforce them but also contribute to greater understanding of a voice that is neither simply ironic nor simply ingenuous and of a view of the world that is informed by an engagement with history

Allusion, Authority, and Truth

Phillip Mitsis, Christos Tsagalis, 2010 The past few decades have seen the development of new critical methods with which the poetic and rhetorical dimensions of ancient Greek texts can be evaluated In this volume an international group of distinguished scholars comes together to examine how a wide range of ancient texts in different genres were able to assert their authority and claims to truth often alluding to one another in subtle ways as they attempted to project their own superiority A series of illuminating new readings is offered of both particular passages and whole works in the light of these new critical advances Publisher's description

Eusebius of Caesarea Apostle Arne Horn, 2016-05-14 The Chronicle Pantodape historia is divided into two parts The first part the Chronographia Chronographia gives an epitome of universal history from the sources arranged according to nations The second part the Canons Chronikoi kanones furnishes a synchronism of the historical material in parallel columns the equivalent of a parallel time line The work as a whole has been lost in the original Greek but it may be reconstructed from later chronographers of the Byzantine school who made excerpts from the work especially George Syncellus The tables of the second part have been completely preserved in a Latin translation by Jerome and both parts are still extant in an Armenian translation
