Michael G Coney SF Gateway Omnibus Michael G. Coney, 2014-11-13 Michael Greatrex Coney was a British born author who spent the last three decades of his life in Canada including 16 years in the British Columbia Forest Service His early work carried a sense of Cold War inspired paranoia but his repertoire was wide and perhaps his best novel HELLO SUMMER GOODBYE is a wistful story of adolescent love on a far distant planet The titles collected in this omnibus come from the fertile beginning of his career and include his debut novel MIRROR IMAGE CHARISMA and the BSFA AWARD winning BRONTOMEK

Brontomek Michael G. Coney, 2013-02-18 The planet Arcadia was on the verge of economic collapse Its human colony had been decimated by the strange Relay Effect in the aftermath still more colonists were leaving for other worlds The Hetherington Organisation promised to change that If the remaining colonists put themselves entirely in their hands for a five year period they would transform Arcadia into the most prosperous planet settled by mankind while preserving its great natural beauty It was an offer the Arcadians could not possibly refuse for the alternative after all was an accelerating slide into poverty and eventually savagery Only when the Hetherington Organisation s first cargo ships arrived unloading a huge stream of brontomeks huge robot agricultural machines heavily armoured and an army of amorphs aliens who were capable of moulding themselves into human form did the colony begin to realise what it had committed itself to Brontomek is a sequel to two earlier books Syzygy and Mirror Image Like it s predecessors it is an ingenious adventurous tale of the type which has rapidly made Coney one of SF s foremost entertainers Brontomek won the 1977 BSFA award for best novel

Syzygy Michael G. Coney, 2013-05-20 Once every fifty two years Arcadia s six erratic moons come together in a constellation that plays havoc with the ecological balance of the planet As a marine biologist at Riverside Research Centre Mark Swindon is chiefly concerned about the effect of catastrophic tides on his precious fish pens Then without warning a wave of seemingly motiveless violence sweeps through the normally sleepy colony and Mark too feels himself drawn against his will into a mysterious cycle of death and rebirth *Winter's Children* Michael G.

Coney, 2012-12-21 The countryside is hundreds of feet deep in snow and a small community is managing to exist in the bell

tower of a church just above the snow level For sustenance they make journeys to the shops of the village far below by tunnels They also stay alive by hunting the ferocious and telepathic bear like animals known as Pals The individuals in the small group are brilliantly portrayed in turn defeatist boastful querulous selfish and generous They are obsessive they argue but when danger threatens as it often does they immediately band together in their common fight for survival *The Ultimate Jungle* Michael G. Coney, 2013-10-02 Mankind will cease to exist at 6pm GMT on 28th March 3256 A computer prediction which threw the world into panic What to do Build a starship and take the chosen few to a new home in the stars Or search for an alternative timestream where mankind goes on forever Matt Helm is to captain the last space shuttle carrying passengers to the starship but his irrepressible desire for Fern Angelus corrupts his sense of duty He agrees to take part in her time experiments Set against a background of passion and longing Matt's uncanny success with mind projection meets unforeseen complications He projects his mind to a future Earth a world of shallow extensive seas mutated trees growing in layers on each other's branches and strangely evolved animals like snappersnouts humpers and energy creatures Matt's strange visions eventually meet reality when he discovers that the last load of passengers for the starship has been left behind and he is one of them Mirror Image Michael G. Coney, 2013-05-20 If an alien creature can so perfectly imitate a human being that not only is it physically and mentally indistinguishable from a man but it actually believes itself to be one what do you do with it Is it human This is the question which confronts Alex Stordahl supervisor of the harsh planet Marilyn Initially nobody had suspected anything unusual about the largely reptilian animal life Then Stordahl discovered the amorphs shapeless in their natural state but possessing a unique defence mechanism when closely approached by a possible aggressor they could adopt the form least likely to be attacked by the creature When it transpires that the creatures are harmless they are quickly absorbed into the colony to provide extra labour The ruthless owner of the development corporation arrives from Earth He wants to test the amorphs and brings with him a group of four brilliant but totally egotistical men And trouble soon starts *The Year's Best Science Fiction: Twenty-Third Annual Collection* Gardner R.
