He argues that the portrait in fiction often functions not as a transparent index to character or as a means of producing a straightforward likeness but rather as a cue for misreading and a sign of the slipperiness and subjectivity of interpretation. The book is concerned with more than simply the appearance of portraits in Romantic fiction; however, more broadly, *The Portrait in Fiction of the Romantic Period* investigates how the language of portraiture pervades the novel in this period and how the two art forms exert mutual stylistic influence on each other. ... *Catalogue of Printed Books* British Museum.
