New York's Columbia Presbyterian Hospital is spearheading the health care revolution that is yielding powerful new healing tools that will forever change the way we think of medicine. In this ground-breaking book, he describes his pioneering work combining cutting-edge Western medicine with such Eastern techniques as acupuncture and chi gong as well as such controversial therapies as hypnosis, music, massage, reflexology, aromatherapy, and energy healing. The inspiring and affecting stories of his patients are the heart of this book, from the extraordinary discipline of Frank Torre, who used his professional sports training to psych himself into healing after heart transplant surgery, to the impossible recovery of blues great Johnny Copeland, who was roused from a seemingly impenetrable coma through the force of his own music. In recounting his patients' experiences, Dr. Oz forges a blueprint for the radical new medicine of the next millennium, drawing on the best from Eastern and Western therapies and empowering patients to become partners with doctors in promoting their own recovery.
