Soviet American Relations With Pakistan Iran And Afghanistan:

Soviet-American Relations with Pakistan, Iran and Afghanistan Hafeez Malik, 1987-03-02 This is a collective volume on Soviet American relations with the three rimland states of Iran Afghanistan and Pakistan The contributors argue that what happens in these three states would ultimately affect the states in the Gulf and the Middle East The USA maintains friendly relations only with Pakistan while her relations with Iran and Afghanistan are antagonistic The future penetration of the Soviet influence in Iran and Afghanistan is assessed and probable scenarios are discussed by the seventeen contributors who represent the military diplomacy and academia The concluding chapter synthesizes the discussions and the criticism of various papers The book is the most up to date thorough analysis of superpower relations with the three neighbouring states of the Soviet Union currently available

US Foreign Policy and the Iranian Revolution C. Emery, 2013-10-15 This book provides a fresh perspective on the origins of the confrontation between the US and Iran It demonstrates that contrary to the claims of Iran s leaders there was no instinctive American hostility towards the Revolution and explains why many assumptions guiding US policy were inappropriate for dealing with the new reality in Iran

US-Pakistan Relations Sadia Sulaiman, 2025-05-30 The US Pakistan ties have historically fluctuated due to third party involvement A significant trust deficit has resulted from the lack of bilateral push in the relationships Both the countries attempted to change the direction of their interaction after understanding this major issue in their relationship particularly following the US pullout from Afghanistan in 2021 The book traces the troubled history of the US Pakistan relationship and projects its future with an emphasis on issues beyond security that will bring the two countries people closer together and bridge the trust gap

Roads and Rivals Mahnaz Ispahani, 2019-05-15 Over the past two centuries the borderlands of Central South and West Asia have been transformed from the remote peripheries into areas of intense regional and international interest In *Roads and Rivals* Mahnaz Ispahani explores the crucial but unacknowledged role that land routes have played in the strategic political and economic evolution of those borderlands

Refugee Manipulation Stephen John Stedman, Dr. Fred Tanner, 2004-05-13 Since World War II refugee organizations have faced a recurrent challenge the manipulation of refugees by warring parties to further their own aims Some armies in civil wars facing military defeat use refugees as assets to establish the international legitimacy of their cause treat refugee camps as sanctuaries and recruitment pools and limit access to refugees to ensure that they will not repatriate Focusing on the geopolitical security environment surrounding militarized camps and the response of humanitarian agencies the contributors to this volume examine the ways armed groups manipulate refugees and how and why international actors assist their manipulation They then offer suggestions for reducing the ability of such groups to use the suffering of refugees to their own advantage The contributors examine three cases Cambodian refugees along the Thai border in the 1970s and 1980s Afghan refugees in

Pakistan in the 1980s and 1990s and Rwandan refugees in Eastern Zaire from 1994-96. They argue that refugee manipulation occurs because warring parties gain resources in their fight for power and other actors often the host government and regional and major powers encourage and support it. Manipulation is allowed to occur because the international refugee regime and major states have not identified a consistent approach to stopping it. In the post Cold War era the United Nations and its members have chosen to treat the issue as a humanitarian problem instead of a security problem. As the contributors make clear however manipulation of refugees has important ramifications for international security turning some civil wars into larger protracted regional wars. They argue that the geopolitics of refugee manipulation leads to sanguine conclusions about stopping it. Solutions must change the moral political and strategic calculations of states that are implicated in the manipulation. As long as the problem is not deemed a security threat.

Agents of Altruism: The Expansion of Humanitarian NGOs in Rwanda and Afghanistan Katrina West, 2017-11-01. This title was first published in 27-11-2001. Humanitarian nongovernmental organizations (NGOs) grew significantly in the last decades of the 20th century. The international NGO community today is a rich world of professional bodies, local organizations, mammoth multinationals, charities, advocacy groups, business-like organizations, ad hoc agencies, and voluntary associations. Humanitarian NGOs are powerful actors in conflict regions and influential campaigners at the international level. What are the reasons behind their growth? In answering that question, this book focuses on how and when NGOs became influential in humanitarian crises. Four case studies in Rwanda and Afghanistan are examined. The earliest is the crisis in Rwanda in the 1960s when only a few NGOs operated in Rwanda with limited budgets and experience. The second case study is the Soviet invasion of Afghanistan in 1979-89 by which time NGOs had developed considerably; by then they were operating on a global scale, receiving more funds, having closer ties with the media, executing bigger projects, and had also become more professional. The second Afghan case study focuses on the mujahidin and Taliban rule while the second Rwandan study centres on the 1994 genocide. These two studies reveal that enormous changes have taken place in the humanitarian NGO community since the 1980s. In this way, this book characterizes the changes that have taken place and then offers explanations for the nature and speed of the growth and change.

Air University Library Index to Military Periodicals, 1988. **The Taliban Courts in Afghanistan** Adam Baczko, 2024-02-06. Informed by the author's extensive fieldwork in Afghanistan, this socio-legal study examines how the Taliban used law and courts to substantiate their claim to embody the state, disseminate their vision of society, and establish local legitimacy. **The Taliban** M. J. Gohari, 2000. For many Westerners, Islam appears to contradict democratic values; yet these perceptions result from the characterization of certain Islamic movements as radical or fundamentalist. This book describes one such movement that has been condemned in the West: the Taliban in Afghanistan. Shedding light on their doctrine, it analyzes the rise of the Taliban and their effect on Afghan society, their impact on Afghanistan's neighbors, and their troubled relationship with the United Nations. It concludes with a short chapter on the life

and views of Bin Laden an elusive radical who has famously and brutally translated his beliefs into action **Asia, Southern** A. Dynamics of Change in the Persian Gulf Anoushiravan Ehteshami, 2013-03-05 The Persian Gulf has come to represent one of the most strategically significant waterways of the world In terms of geography geopolitics resources global political economy

and regional influence the Gulf is perhaps home to the world's most significant group of countries. Focusing on the complexities of the interplay between domestic level changes and region-wide interactions, this book presents the reader with the first comprehensive survey of the dynamics of change in this crucial area. Systemic oriented in its approach, the impact of war and revolution on the countries of the sub-region is discussed and the ways in which these factors have shaped the security dilemmas and responses of the Gulf States is also explored. The role of oil is examined in terms of the impact of its income on these states and societies and the manner in which oil has shaped the integration of these states into the global system. Oil has shrunk developmental time in these countries and has accelerated generational shift. At the same time it has created the dialectical relationship which now characterizes the difficult balance between prosperity and instability which is at the heart of the sub-region. Casting new light on the workings of a strategically significant part of the international system, this book will be an essential resource for students and scholars of international relations, international security and Middle Eastern politics.

Regime Change In Afghanistan Amin Saikal, William Maley, 2019-05-28 This book is a study of regime change in an underdeveloped country with a weak state and strong autonomous social organizations. Regime change is in many countries a traumatic and disruptive experience but few countries have paid as high a cost to retain traditionally accepted relationships of authority as has Afghanistan since the communist coup.
