The republic of Turkey and the Soviet Union both emerged from the wreckage of empires surrounding World War I and pathways of literary exchange soon opened between the two revolutionary states Even as the Turkish government pursued a friendly relationship with the USSR it began to persecute communist writers Whether going through official channels or fleeing repression many Turkish writers traveled to the Soviet Union during the 1920s and 1930s publishing original work editing prominent literary journals and translating both Russian classics and Soviet literature into Turkish Writing in Red traces the literary and exilic itineraries of Turkish communist and former communist writers examining revolutionary aesthetics and politics across Turkey and the Soviet Union from the mid 1920s through the 1960s Nergis Ertürk considers a wide range of texts spanning genres such as erotic comedy historical fiction and film and socialist realist novels and theater by writers including Nâzım Hikmet Vâli Nureddin Nizamettin Nazif Suat Dervî and Abidin Dino She argues that these works belong simultaneously to modern Turkish literature a transnational Soviet republic of letters and the global literary archive of world revolution alongside those of other writers who made the magic pilgrimage to Moscow Exploring how Turkish communist writers on the run produced a remarkable transnational literature of dissent Writing in Red offers a new account of global revolutionary literary culture *The Impossible Border* Annemarie H.

Sammartino,2014-01-03 Between 1914 and 1922 millions of Europeans left their homes as a result of war postwar settlements and revolution After 1918 the immense movement of people across Germany's eastern border posed a sharp challenge to the new Weimar Republic Ethnic Germans flooded over the border from the new Polish state Russian migrants poured into the German capital and East European Jews sought protection in Germany from the upheaval in their homelands Nor was the movement in one direction only German Freikorps sought to found a soldiers colony in Latvia and a group of

German socialists planned to settle in a Soviet factory town In The Impossible Border Annemarie H Sammartino explores these waves of migration and their consequences for Germany Migration became a flashpoint for such controversies as the relative importance of ethnic and cultural belonging the interaction of nationalism and political ideologies and whether or not Germany could serve as a place of refuge for those seeking asylum Sammartino shows the significance of migration for understanding the difficulties confronting the Weimar Republic and the growing appeal of political extremism Sammartino demonstrates that the moderation of the state in confronting migration was not merely by default but also by design However the ability of a republican nation state to control its borders became a barometer for its overall success or failure Meanwhile debates about migration were a forum for political extremists to develop increasingly radical understandings of the relationship between the state its citizens and its frontiers The widespread conviction that the democratic republic could not control its impossible Eastern borders fostered the ideologies of those on the radical right who sought to resolve the issue by force and for all time

Stalinist Confessions Igal Halfin,2009-08-30 During Stalin's Great Terror accusations of treason struck fear in the hearts of Soviet citizens and lengthy imprisonment or firing squads often followed Many of the accused sealed their fates by agreeing to confessions after torture or interrogation by the NKVD Some however gave up without a fight In Stalinist Confessions Igal Halfin investigates the phenomenon of a mass surrender to the will of the state He deciphers the skillfully rendered discourse through which Stalin defined his cult of personality and consolidated his power by building a grassroots base of support and instilling a collective psyche in every citizen By rooting out evil opposition wherever it hid good communists could realize purity morality and their place in the greatest society in history Confessing to trumped up charges comrades made willing sacrifices to their belief in socialism and the necessity of finding and making examples of its enemies Halfin focuses his study on Leningrad Communist University as a microcosm of Soviet society Here eager students proved their loyalty to the new socialism by uncovering opposition within the University Through their meetings and self reports

students sought to become Stalin's New Man Using his exhaustive research in Soviet archives including NKVD records party materials student and instructor journals letters and newspapers Halfin examines the transformation in the language of Stalinist socialism From an initial attitude that dismissed dissent as an error in judgment and redeemable through contrition to a doctrine where members of the opposition became innately wicked and their reform impossible Stalin's socialism now defined loyalty in strictly black and white terms Collusion or allegiance real or contrived now or in the past with enemies of the people Trotsky Zinoviev Bukharin Germans capitalists was unforgivable The party now took to the task of purging itself with ever increasing zeal

The Unionist Factor Erik Jan Zürcher,1984-01-01 **Jewries at the Frontier**

Sander L. Gilman,Milton Shain,1999 Traversing far flung Jewish communities in South Africa Australia Texas Brazil China New Zealand Quebec and elsewhere this wide ranging collection explores the notion of frontier in the Jewish experience as a historical geographical reality and a conceptual framework As a compelling alternative to viewing the periphery only as a locus of dispossession and exile from the homeland this work imagines a new Jewish history written as the history of the Jews at the frontier In this new history governed by the dynamics of change confrontation and accommodation marginalized experiences are brought to the center and all participants are given voice By articulating the tension between the center periphery model and the frontier model Jewries at the Frontier shows how the productive confrontation between and among cultures and peoples generates a new multivocal account of Jewish history
