Soviet Leadership In Transition

William C. Martel

Soviet Leadership In Transition:

Soviet Leadership in Transition Jerry F. Hough, 1980 Monograph speculating on effects of future change in USSR political leadership regarding soviet planned economy and foreign policy towards the USA profiles Elite members in the communist political party including past generations in public administration in military service and in the foreign policy establishment and asserts that future soviet leadership might try to improve the present conflictual relationships with the USA Graphs map and references

Soviet Leadership Transition Mary Costello, 1979 Soviet Succession Dimitri K. Simes, 1978 *The Great Transition* Raymond L. Garthoff, 2000-07-26 Raymond L. Garthoff examines the fateful final decade of U S Soviet relations from the start of the Reagan administration in 1981 through the end of the Soviet era the collapse of the communist bloc the end of Gorbachev's failed perestroika and the demise of the Soviet Union itself at the end of 1991 While standing on its own the book is a sequel to the author's earlier acclaimed *Détente and Confrontation American Soviet Relations from Nixon to Reagan* which covers the period 1969-1980 This volume features a detailed examination of the perspectives and actions of both the United States and the Soviet Union and their interaction including the interrelationships of domestic factors with foreign and security policies in both countries and the involvement of both powers with other countries around the world which infringed on their direct relationship Besides analyzing the turn from confrontation to détente over the years of the Reagan and Bush administrations and Brezhnev through the Gorbachev administration it reflects on the significance of the great transition from the cold war to a new era It thus illuminates the very relevant recent history that underlines and informs American Russian relations and the new situation of a post Soviet post cold war world Garthoff has obtained access to many formerly secret Soviet documents on this period in the Russian archives as well as to a number of official American documents that have only recently been declassified In addition he has been able to interview and discuss the issues with many active or former Soviet and American officials The author concludes that the key development was the advent of a Soviet leader Mikhail Gorbachev who recognized the need to cast off a failed world view and to end the cold war and who successfully moved with the United States under the Reagan and Bush administrations and others to achieve that goal notwithstanding his failure in the parallel attempt to revitalize and transform the Soviet Union Selected by Choice as an Outstanding Book of 1994

Hough, Soviet Leadership in Transition Harold Joseph Berman, 1981 *Recski Soviet Leadership in Transition* by Jerry F. Hough Washington D C 1980 The Devil in History Vladimir Tismaneanu, 2014-03-14 The Devil in History is a provocative analysis of the relationship between communism and fascism Reflecting the author's personal experiences within communist totalitarianism this is a book about political passions radicalism utopian ideals and their catastrophic consequences in the twentieth century's experiments in social engineering Vladimir Tismaneanu brilliantly compares communism and fascism as competing sometimes overlapping and occasionally strikingly similar systems of political totalitarianism He examines the inherent ideological appeal of these radical revolutionary political movements the

visions of salvation and revolution they pursued the value and types of charisma of leaders within these political movements the place of violence within these systems and their legacies in contemporary politics The author discusses thinkers who have shaped contemporary understanding of totalitarian movements people such as Hannah Arendt Raymond Aron Isaiah Berlin Albert Camus Francois Furet Tony Judt Ian Kershaw Leszek Kolakowski Richard Pipes and Robert C Tucker As much a theoretical analysis of the practical philosophies of Marxism Leninism and Fascism as it is a political biography of particular figures this book deals with the incarnation of diabolically nihilistic principles of human subjugation and conditioning in the name of presumably pure and purifying goals Ultimately the author claims that no ideological commitment no matter how absorbing should ever prevail over the sanctity of human life He comes to the conclusion that no party movement or leader holds the right to dictate to the followers to renounce their critical faculties and to embrace a pseudo miraculous a mystically self centered delusional vision of mandatory happiness

Russia's Economic Transitions Nicolas Spulber, 2003-04-10
Russia's Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000 The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move toward capitalist relations The second following the Communist revolution of 1917 brought to power a system of state ownership and administration a sui generis type of war economy state capitalism subjecting the economy's development to central commands The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership The three transitions originated within different settings but with a similar primary goal namely the changing of the economy's ownership pattern in the hopes of providing a better basis for subsequent development The treatment's originality impartiality and historical breadth have cogent economic social and political relevance

The Politics of Transition in Central Asia and the Caucasus Amanda E Wooden, Christoph H. Stefes, 2009-06-08
Most books on the Caucasus and Central Asia are country by country studies This book on the other hand fills a gap in Central Eurasian studies as one of the few comparative case study books on Central Eurasia covering both the Caucasus and Central Asia it considers key themes right across the two regions highlighting both political change and continuity Comparative case study chapters written by regional experts from a variety of methodological backgrounds provide historical context and evaluate Soviet political legacies and emerging policy outcomes Key topics include the varied types and sources of authoritarianism political opposition and protest politics predetermined outcomes of post Soviet economic choices social and stability impacts of natural resource wealth variations in educational reform international norm influence on gender policy and the power of human rights activists Overall the book provides a thorough up to date overview of what is increasingly becoming a significant area of concern

Engaging the Evil Empire Simon Miles, 2020-10-15
In a narrative redefining approach *Engaging the Evil Empire* dramatically alters how we look at the beginning of the end of the Cold War Tracking key events in US Soviet relations across the years between 1980 and 1985 Simon Miles shows that covert

engagement gave way to overt conversation as both superpowers determined that open diplomacy was the best means of furthering their own primarily competitive goals Miles narrates the history of these dramatic years as President Ronald Reagan consistently applied a disciplined carrot and stick approach reaching out to Moscow while at the same time excoriating the Soviet system and building up US military capabilities The received wisdom in diplomatic circles is that the beginning of the end of the Cold War came from changing policy preferences and that President Reagan in particular opted for a more conciliatory and less bellicose diplomatic approach In reality Miles clearly demonstrates Reagan and ranking officials in the National Security Council had determined that the United States enjoyed a strategic margin of error that permitted it to engage Moscow overtly As US grand strategy developed so did that of the Soviet Union Engaging the Evil Empire covers five critical years of Cold War history when Soviet leaders tried to reduce tensions between the two nations in order to gain economic breathing room and to ensure domestic political stability prioritize expenditures on butter over those on guns Miles's bold narrative shifts the focus of Cold War historians away from exclusive attention on Washington by focusing on the years of back channel communiqués and internal strategy debates in Moscow as well as Prague and East Berlin

Understanding Post-Soviet Transitions Christoph H. Stefes, 2006-07-25 This book provides an account of systemic corruption within the context of post Soviet economic and political transitions Focusing on Armenia and Georgia it shows how systemic corruption has developed since the fall of Soviet rule and how corruption has shaped the emerging economic and political systems of these two countries

Mao's China and the Sino-Soviet Split Mingjiang Li, 2013-03-01 The Sino Soviet split in the 1960s was one of the most significant events of the Cold War Why did the Sino Soviet alliance hailed by its creators as unbreakable eternal and as representing brotherly solidarity break up Why did their relations eventually evolve into open hostility and military confrontation With the publication of several works on the subject in the past decade we are now in a better position to understand and explain the origins of the Sino Soviet split But at the same time new questions and puzzles have also emerged The scholarly debate on this issue is still fierce This book the result of extensive research on declassified documents at the Chinese Foreign Ministry and on numerous other new Chinese materials sheds new light on the problem and makes a significant contribution to the debate More than simply an empirical case study by theorising the concept of the ideological dilemma Mingjiang Li's book attempts to address the relationship between ideology and foreign policy and discusses such pressing questions as why it is that an ideology can sometimes effectively dictate foreign policy whilst at other times exercises almost no significant influence at all This book will be of essential reading to anyone interested in Chinese Soviet history Cold War history International Relations and the theory of ideology

Grand Strategy in Theory and Practice William C. Martel, 2015-01-12 This book explores fundamental questions about grand strategy as it has evolved across generations and countries It provides an overview of the ancient era of grand strategy and a detailed discussion of its philosophical military and economic foundations in the modern era The author investigates

these aspects through the lenses of four approaches those of historians social scientists practitioners and military strategists The main goal is to provide contemporary policy makers and scholars with a historic and analytic framework in which to evaluate and conduct grand strategy By providing greater analytical clarity about grand strategy and describing its nature and its utility for the state this book presents a comprehensive theory on the practice of grand strategy in order to articulate the United States past present and future purpose and position on the world stage ***The Organization for Security and Co-operation in Europe (OSCE)*** David J. Galbreath, 2007-05-03 During the Cold War the two global superpowers were able to come together to resolve many issues of transparency and common challenges leading to a change in European and global security The OSCE covered the area formerly occupied by NATO and the Warsaw Pact championing the Helsinki Final Act which became a key international instrument to encourage peace and security Following the end of the Cold War the OSCE became a key institution positioned between the European Union and NATO focusing on furthering democracy protecting human and minority rights and encouraging military reform in a drastically dynamic region David J Galbreath sheds light on an institution that changed the face of global security during the Cold War and championed the rise of democratization in Central and Eastern Europe as well as the former Soviet republics following the collapse of the Soviet Union **Three-way Street** Joshua S. Goldstein, John R. Freeman, 1990 How can the world's most powerful nations cooperate despite their conflicting interests In *Three Way Street* Joshua S Goldstein and John R Freeman analyze the complex intersection defined by relations among the United States the Soviet Union and China over the past forty years The authors demonstrate that three major schools of international relations theory all game theoretic psychological and quantitative empirical approaches have all advocated a strategy that employs cooperative initiatives and reciprocal responses in order to elicit cooperation from other countries Critics have questioned whether such approaches can model how countries actually behave but Goldstein and Freeman provide a wealth of detailed empirical evidence showing the existence and effectiveness of strategic reciprocity among the three countries between 1948 and 1989 Specifically they establish that relations among the three countries have improved in recent decades through a two steps forward one step back pattern Their innovative and remarkably accessible synthesis of leading theoretical perspectives brilliantly illuminates the nature and workings of international cooperation

Issues on My Mind George P. Shultz, Henry A. Kissinger, 2013-09-01 Former Nixon and Reagan cabinet member George Shultz offers his views on how to govern more effectively get our economy back on track take advantage of new opportunities in the energy field combat the use of addictive drugs apply a strategic overview to diplomacy and identify necessary steps to achieve a world without nuclear weapons If we can successfully handle each of these issues Shultz explains we in the United States and people in the rest of the world will have the prospect of a better future **US-Japan Trade Friction** T. David Mason, Abdul M. Turay, 1991-06-18 Relations between Japan and the US remain strong and government to government relations continue to be productive However complaints can be heard This volume reflects these sentiments and emphasizes

the need to promote closer ties and greater understanding between the US and Japan **Turmoil and Triumph** George P. Shultz, 2010-08-31 George Schultz recounts his years working for the Reagan administration including foreign policy and the power struggle between the State Department and the National Security Council in this candid reflection on his years as Secretary of State Turmoil and Triumph isn't just a memoir though it is that too it's a thrilling retrospective on the eight tumultuous years that Schultz worked as secretary of state under President Ronald Reagan Under Schultz's strong leadership America braved a nuclear arms race with the Soviet Union increasingly damaging waves of terrorism abroad scandals such as the Iran Contra crisis and eventually the end of the decades long Cold War With the strong convictions and startling candor for which Schultz is known this personal account takes readers into the heart of the Reagan administration revealing the behind the scenes talks and churning tensions that informed a transitional decade that many Americans now look back on as one of the country's most exalted **Russia after the Cold War** Mike Bowker, Cameron Ross, 2014-06-17 In Russia after the Cold War the editors provide an accessible and comprehensive survey of the state of Russia at the end of the twentieth century as it seeks to come to terms with its new status in the world community the pressures and tensions arising from economic and social change and with the problems of ensuring a democratic future Written by a specially commissioned team of internationally respected experts on contemporary Russia Russia after the Cold War is ideally suited as a main text for introductory courses on modern Russia within a politics Area Studies or combined social science degree Contributors Alexei Avtonomov Edwin Bacon John Berryman Christoph Bluth Michael Cox Nadia Davidova Mark Galeotti James Hughes Roger E Kanet Julie A Lund Nick Manning Andrew Patmore Anthony Phillips Richard Sakwa Peter Shearman Mark Webber Stephen Webber Stephen White Matthew Wyman **The SALT II Treaty** United States. Congress. Senate. Committee on Foreign Relations, 1979 **Hearings, Reports and Prints of the Senate Committee on Foreign Relations** United States. Congress. Senate. Committee on Foreign Relations, 1979

Unveiling the Magic of Words: A Review of "**Soviet Leadership In Transition**"

In some sort of defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Soviet Leadership In Transition**," a mesmerizing literary masterpiece penned by a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book's central themes, examine its distinctive writing style, and assess its profound affect on the souls of its readers.
