Soviet Military Policy An International Security Reader:

Soviet Military Policy Sean M. Lynn-Jones, Steven E. Miller, Stephen Van Evera, 1989 In this timely reader ten experts on the Soviet Union offer their perspectives on Soviet military strategy and defense policy covering the foreign policy context nuclear weapons conventional forces and force and Soviet diplomacy *Military Occupation and Diplomacy* Sergiu Verona, 1992 In 1958 after fourteen years of military occupation Khrushchev in an unprecedented act withdrew the Soviet Union's troops from Romania as part of a political move intended to encourage the withdrawal of Western military forces from Europe In analyzing this crucial historic episode Sergiu Verona's comprehensive study illustrates the dynamics of Soviet military presence in Romania and provides a framework for understanding Soviet security policy then and now as well as the interaction between Soviet military objectives and diplomacy Drawing on declassified archival material in the United States and the United Kingdom the author considers Khrushchev's reversal of Stalinist expansionism by examining the motivation function and operation of the initial occupation of Romania the complex involvement of Soviet diplomacy and its perception by the United States and other Western powers the process by which Khrushchev decided to withdraw Soviet troops from that country and the impact of this decision on Soviet policy Verona extends his analysis providing comparisons between Khrushchev's and Gorbachev's approaches to Eastern Europe noting that similarities exist not only in domestic policies but in the realm of foreign policy as well

The Russian Nuclear Shield from Stalin to Yeltsin J. Mathers, 2000-08-09 This book makes extensive use of Soviet sources to provide the first full analysis of Moscow's ballistic missile defence policy from its origins to the most recent post Soviet developments It considers the Soviets motivations for pursuing an anti ballistic missile capability and the extent of their success and reveals that ballistic missile defence policy was used by every political leadership from Khrushchev to Yeltsin as a means of sending signals about Moscow's intentions to the West Bulletin of the Atomic Scientists, 1989-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

A History Of Russia Volume 2 Walter G. Moss, 2004-10-01 Moss has significantly revised his text and bibliography in this second edition to reflect new research findings and controversies on numerous subjects He has also brought the history up to date by revising the post Soviet material which now covers events from the end of 1991 up to the present day This new edition retains the features of the successful first edition that have made it a popular choice in universities and colleges throughout the US Canada and around the world *Bulletin of the Atomic Scientists*, 1989-11 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin's iconic Doomsday Clock stimulates solutions for a safer world

Negotiating START Kerry M. Kartchner, The United States and the Soviet Union have been negotiating nuclear arms control agreements for over twenty years yet radical differences remain in the two sides

concept of and approaches to strategic stability and arms control This book compares and contrasts those approaches using START Strategic Arms Reduction Treaty as a case study Throughout two decades of negotiation U S policy has been directed toward dialogue that would encourage convergence of American and Soviet thought on nuclear deterrence In Kartchner's view that hope is belied not only by continuing asymmetries in the development and deployment of their strategic nuclear arsenals but by differing U S and Soviet negotiating positions The Reagan administration viewed START as a means of repudiating SALT II restoring a measure of balance in the U S Soviet strategic competition and as a way of closing the so called window of vulnerability In contrast Kartchner analyzes the Soviets differing views of nuclear balance emphasizing their satisfaction with SALT II and a strategic equilibrium shaped by a decade of bilateral arms control Kartchner offers a detailed exposition of the major negotiating issues in START contrasting concerns of U S and Soviet negotiators Not surprisingly each side's agenda was dominated by weapon systems that figure prominently in the other's development program The author concludes by summarizing and comparing American and Soviet quests for stability and drawing up an assessment of U S efforts in both SALT and START to use arms control negotiations as a kind of classroom for instructing Soviet officials in American notions of stabilizing versus destabilizing weapon technology and America's own ethnocentric view of stability START will profoundly affect the acquisition operation maintenance and cost of U S strategic nuclear forces well into the next century The history and analysis presented here will provide an essential source to policymakers and students of military political relations for much needed further study of this treaty's implications

The Defense Policies of Nations Douglas J. Murray, Paul R. Viotti, 1994 Now in its third edition The Defense Policies of Nations has been thoroughly updated to take into account the dramatic developments of recent years the dissolution of the Soviet Union the resurgence of East Asian powers the emergence of newly independent nations in Eastern Europe the continuing instability of the Middle East and the growing importance of third world nations in global security matters For those dealing with national defense issues on a daily basis or even for those interested in the subject because of its current relevance The Defense Policy of Nations is must reading Gen Theodore J Conway Military Review American Academy of Political and Social Science

Gender and International Security Laura Sjoberg,2009-10-16 This book defines the relationship between gender and international security analyzing and critiquing international security theory and practice from a gendered perspective Gender issues have an important place in the international security landscape but have been neglected both in the theory and practice of international security The passage and implementation of UN Security Council Resolution 1325 on Security Council operations the integration of gender concerns into peacekeeping the management of refugees post conflict disarmament and reintegration and protection for non combatants in times of war shows the increasing importance of gender sensitivity for actors on all fronts in global security This book aims to improve the quality and quantity of conversations between feminist security studies and security studies more generally in order to demonstrate the importance of gender analysis to the study of international security and to expand the feminist research program in Security Studies The chapters included in this book not only challenge the assumed irrelevance of gender they argue that gender is not a subsection of security studies to be compartmentalized or briefly considered as a side issue Rather the contributors argue that gender is conceptually empirically and normatively essential to studying international security They do so by critiquing and reconstructing key concepts of and theories in international security by looking for the increasingly complex roles women play as security actors and by looking at various contemporary security issues through gendered lenses Together these chapters make the case that accurate rigorous and ethical scholarship of international

security cannot be produced without taking account of women's presence in or the gendering of world politics This book will be of interest to all students of critical security studies gender studies and International Relations in general Laura Sjoberg is Assistant Professor of Political Science at the University of Florida She has a Phd in International Relations and Gender Studies from the University of Southern California and is the author of *Gender Justice and the Wars in Iraq* 2006 and with Caron Gentry *Mothers Monsters Whores Women's Violence in Global Politics* 2007 *Hopes and Fears* Hanna Newcombe, 1992-01-01 IV VALUES AND COOPERATION **Nuclear Diplomacy and Crisis Management** Sean M. Lynn-Jones, Steven E. Miller, Stephen Van Evera, 1990 These essays from the journal *International Security* examine the effects of the nuclear revolution on the international system and the role nuclear threats have played in international crises The authors offer important new interpretations of the role of nuclear weapons in preventing a third world war of the uses of atomic superiority and of the effectiveness of nuclear threats Sean M Lynn Jones is the Managing Editor of *International Security* Steven E Miller is a Senior Research Fellow at the Stockholm International Peace Research Institute and co editor of the journal Stephen Van Evera is an Adjunct Fellow at the Center for Science and International Affairs at Harvard University Contributors John Mueller Robert Jervis Richard K Betts Marc Trachtenberg Roger Dugman Scott D Sagan Gordon Chang H W Brands Jr Barry Blechman and Douglas Hart **On Cultural Ground** Robert David Johnson, 1994 **Energy Research Abstracts**, 1988 National Security, Military Power & the Role of Force in International Relations Army Library (U.S.), 1976 National Security, Military Power & the Role of Force in International Relations United States.
