Carlisle, 2005-03-17 With the Left and Right amusingly placed into left hand v 1 and right hand v 2 volumes respectively this encyclopedia contains articles on the people ideas events laws and issues associated with left and right politics in language that will be accessible to the high school and undergraduate student as well as the general reader Each entry includes cross references and a bibliography Among the topics for politics of the left are Susan B Anthony Jean Jacques Rousseau abolitionism desegregation ACLU the New Deal Solidarity and the Workingmen s Party Entries are included in each volume for 40 countries and regions giving the history and current affairs for politics in each Among the topics for the right are capitalism Darwinism censorship martial law and the Christian Coalition The contributors teach at universities worldwide some are independent scholars Carlisle is at Rutgers U Annotation 2004 Book News Inc Portland OR booknews com *Soviet Constitutional Crisis* Robert Sharlet, 2016-06-16 Moving from the adoption of the post Stalin Constitution of 1977 through its subsequent implementation under Brezhnev Andropov and Chernenko to the radical legal restructuring of the Gorbachev years Robert Sharlet traces the gradual evolution of a nascent constitutionalism in the erstwhile USSR Sharlet a noted authority on Soviet law and constitutional development demonstrates the gradual transformation of law from an instrument of Communist Party rule into the new rules of the game for nonauthoritarian political development In effect he argues one of Gorbachev s most durable achievements may be his redefinition of Soviet politics into a legal idiom along with his relocation of policymaking from behind the closed doors of Party conclaves into the more open emergent arena of constitutional government In analyzing the politics of law from the Brezhnev era to the rise of Yeltsin the author takes account of the war of laws the symbolic uses of the Soviet constitution and even the fact that the leaders of the failed coup attempted to justify their seizure of power on constitutional grounds Constitutionalism has sufficiently suffused Soviet public life the book concludes that most of the sovereign republics as successors to the former USSR have begun designing their futures to varying degrees in constitutional forms **The Institutional Foundations of Ukrainian Democracy** Nataliya Kibita, 2024-08-12 Ukraine and Russia are today at opposite points of the political spectrum Despite 300 years of contact with Russian authoritarian politics Ukraine s post independence period has been characterised by pluralism To explain why and how Ukraine s and Russia s paths diverged this monograph investigates the century long and Soviet origins of regionalism in Ukraine which the author argues are at the foundation of the modern Ukrainian institutional system Drawing on unused archival material the book re examines the relationship between Moscow Kyiv and the Ukrainian regions in the period from spring 1917 to summer 1994 to demonstrate how interlinked political and economic incentives and constraints determined the opportunities and institutional interests of both the Ukrainian leadership and those of the Ukrainian regions and how this institutional framework affected in turn the dynamic of the relationship between the central leadership in Moscow the

Ukrainian leadership and the regions The result weak central authority and pronounced regionalism was Ukraine s Soviet legacy and the established power of regional clans made post Soviet Ukrainian politics resistant to Russian style authoritarianism even when the Soviet centralised party state system collapsed This innovative and wide ranging approach to the history of economic management highlights the importance of considering long term historical trends for understanding both the complicated nature of Soviet institutions and their varied and contested legacies across post Soviet space

Political Protest and Social Change C. Andrain,D. Apter,1994-12-19 This book probes three issues about the linkage between political protests and social change First why do individuals participate in protest activities including nonviolent movements and revolutions How do cultural beliefs sociopolitical structures personal attitudes motives and perceptions shape the decision to participate Second why do participants choose certain tactics Protesters use different types of tactics violent vs nonviolent public vs covert organized vs spontaneous and confrontation vs accommodation with other groups political parties and government agencies Most activists view a particular tactic as a useful means to attain their policy demands Third what policy consequences emerge from the activities of protest movements The book explores the impact of protests on social change and on the distribution of political power particularly greater access of subordinate groups to government policymakers A theory of political opportunities helps explain these issues about the origins activities and outcomes of protests

Political Protest and Social Change Charles F. Andrain,David Ernest Apter,1995-09 At the close of the twentieth century political protests have erupted throughout the world While the collapse of communism was certainly one of the most spectacular protest related events smaller protests have become ubiquitous In Los Angeles labor activists campaign against commercial real estate owners to unionize janitors mainly Latina immigrants In the People s Republic of China peasants revolt against tax collectors Amazonian Indians protest public and economic policies that destroy their culture and rainforest habitat This book analyzes the reciprocal impact of cultural beliefs sociopolitical structures and individual behaviors on protests throughout the world Why do individuals participate in protest activities How do cultural beliefs personal attitudes and subjective perception influence the potential protester Addressing the issue of agency in protest the authors also examine why protestors enlist different tactics to achieve their goals Why are some protests violent and others nonviolent When and why do activists conclude that it is better to accommodate than confront Finally and crucially what are the consequences of protest movements

Where Nation-States Come From Philip G.

Roeder,2012-01-09 To date the world can lay claim to little more than 190 sovereign independent entities recognized as nation states while by some estimates there may be up to eight hundred more nation state projects underway and seven to eight thousand potential projects Why do a few such endeavors come to fruition while most fail Standard explanations have pointed to national awakenings nationalist mobilizations economic efficiency military prowess or intervention by the great powers *Where Nation States Come From* provides a compelling alternative account one that incorporates an in depth

examination of the Russian Empire the Soviet Union and their successor states Philip Roeder argues that almost all successful nation state projects have been associated with a particular political institution prior to independence the segment state a jurisdiction defined by both human and territorial boundaries Independence represents an administrative upgrade of a segment state Before independence segmental institutions shape politics on the periphery of an existing sovereign state Leaders of segment states are thus better positioned than other proponents of nation state endeavors to forge locally hegemonic national identities Before independence segmental institutions also shape the politics between the periphery and center of existing states Leaders of segment states are hence also more able to challenge the status quo and to induce the leaders of the existing state to concede independence Roeder clarifies the mechanisms that link such institutions to outcomes and demonstrates that these relationships have prevailed around the world through most of the age of nationalism **Red**

Sunset Philip G. Roeder,1993-10-10 Why did the Soviet system fail How is it that a political order born of revolution perished from stagnation What caused a seemingly stable polity to collapse Philip Roeder finds the answer to these questions in the Bolshevik constitution the fundamental rules of the Soviet system that evolved from revolutionary times into the post Stalin era These rules increasingly prevented the Communist party from responding to the immense social changes that it had itself set in motion although the Soviet political system initially had vast resources for transforming society its ability to transform itself became severely limited In Roeder s view the problem was not that Soviet leaders did not attempt to change but that their attempts were so often defeated by institutional resistance to reform The leaders successful efforts to stabilize the political system reduced its adaptability and as the need for reform continued to mount stability became a fatal flaw Roeder s analysis of institutional constraints on political behavior represents a striking departure from the biographical approach common to other analyses of Soviet leadership and provides a strong basis for comparison of the Soviet experience with constitutional transformation in other authoritarian polities **Rotten Foundations**

Peter W. Sperlich,2002-11-30 Sperlich examines the ideological foundations of the socialist regime of the former German Democratic Republic He provides a detailed analysis of the nature of the GDR s legitimating ideology and of the reasons why the ideology ultimately failed to legitimate the regime The study uses primary source documents extensively as well as the little existing secondary literature This is part of Sperlich s larger project dealing with the government society economy political participation and administration of the law and the system of courts of the GDR This definitive treatment of the GDR provides the background essential to an understanding of all communist systems of the twentieth century As such it is vital reading for scholars students and other researchers seeking to understand the rise and ultimate collapse of communist systems and in particular the decline of the German Democratic Republic **China And The Crisis Of Marxism-leninism**
