The National Association for Soviet and East European Studies exists for the purpose of promoting study and research on the social sciences as they relate to the Soviet Union and the countries of Eastern Europe. The Monograph Series is intended to promote the publication of works presenting substantial and original research in the economics, politics, sociology and modern history of the USSR and Eastern Europe.

Soviet Publishing Policy

Philip G. Altbach, Edith S. Hoshino

Soviet Publishing Policy:

Soviet Book Publishing Policy Gregory Walker, 2008-06-26 This book first published in 1978 provides a broad and comprehensive view of the Soviet book publishing industry based on extensive use of Soviet sources and on visits and interviews conducted in the Soviet Union Book publishing is examined both as a manufacturing and distributing industry enmeshed in the machinery of central planning and as a disseminator of ideas influenced and controlled by the organs of government the Communist Party and the censorship A policy approach is used to study the operations and management of the vast Soviet publishing industry examining the complex pressures which affect its administration and the impact those pressures have on books published in the USSR The powers of the Communist Party government ministries and the censorship over the publishing houses are analysed The perspective of the book is wide enough to take in questions about the place of the author in the publishing process and the role played by printing and book selling Attention is paid to the special problems in publishing different types of books fiction textbooks scientific works mass political literature and so on **The Crystallization of Soviet Publishing Policy 1917-1919** Christina Jaremko, 1983 *International Book Publishing: An Encyclopedia* Philip G. Altbach, Edith S. Hoshino, 2015-05-08 First Published in 1996 This encyclopedia is unique in several ways As the first international reference source on publishing it is a pioneering venture Our aim is to provide comprehensive discussion and analysis of key subjects relating to books and publishing worldwide The sixty four essays included here feature not only factual and statistical information about the topic but also analysis and evaluation of those facts and figures The chapters are significantly more comprehensive than those typically found in an encyclopedia **Encyclopedia of Soviet Law** F. J. Ferdinand Joseph Maria Feldbrugge, Gerard Pieter Van den Berg, William Bradford Simons, 1985-04-26 The revised Encyclopedia follows the format of the 1973 edition It is a compilation of nearly 500 short factual articles on Soviet domestic and international law *Book Diplomacy in the Cultural Cold War*, 2025-06-26 Broadly speaking book diplomacy covers the use of books to achieve certain objectives related to the foreign policy interests of a given country usually involving state private partnerships of varying degrees In this volume scholars from different disciplines examine in detail how books functioned as tools of soft power and cultural diplomacy during the cultural Cold War This study also introduces a 10 point typology to examine the many forms and practices of Cold War book diplomacy and the diversity of objectives and outcomes that they involved Looking beyond the Cold War this volume stresses the continuing importance of books as a distinct form of material culture used to convey information around the world Contributors are Tahoor Ali Hanna Blum Deborah Cohn Cile Cottenet Alexander Erokhin Esmaeil Haddadian Moghaddam Musa Igrek Julia Lin Thompson R sa Magnsd ttir Christos Mais Hafiz Abid Masood Mila Milani Birgitte Beck Pristed Giles Scott Smith Ilaria Sicari and Steven W Witt *Publishing Policy in Soviet Russia, 1917-1919* Christina I. Jaremko, 1985 **The Red Pencil** Marianna Tax Choldin, Maurice Friedberg, 2024-11-26 The Red Pencil 1989 examines the many ways in which Soviet censorship interfered

in the creative process in the words of those who experienced it first hand It helps to identify the ways in which Soviet artistic and intellectual production was shaped by the practices of Soviet censorship The book goes beyond the simple recounting of banned books and taboo subjects to examine the more subtle issue of how Soviet writers attempted to strike a balance between accommodating the demands of government censorship while retaining for themselves a modicum of unfettered expression and intellectual integrity Most of the contributing authors were active as writers critics editors film and theatre specialists or scientists prior to their departure from the Soviet Union in the 1970s *Adjustment, Structural Change, and Economic Efficiency* Jozef M. van Brabant, 1987-12-25 This 1988 book examines the indirect instruments and the related institutions that help to coordinate key economic decisions within and among the economies belonging to the Council for Mutual Economic Assistance CMEA The chief purpose is two fold to assess their adequacy in light of the forced economic adjustments of the early 1980s and to formulate feasible changes for both in order to avert a recurrence of such developmental obstacles Jozef van Brabant argues that these instruments and institutions are inadequate He proposes that a resumption of rapid growth depends largely upon bolstering factor productivity growth which can only be achieved through positive structural changes and a root and branch reform of the individual and groupwide economic mechanisms **The Bolsheviks and the Red Army 1918-1921** Francesco Benvenuti, 1988-10-28 The emergence of the military agency of the Soviet state is a crucial but neglected aspect of inter war Soviet history and in this pioneering study Francesco Benvenuti provides a detailed analysis of the politics as opposed to the operational activities of the Red Army during the Civil War Several historians have suggested that the roots of Stalinism may be found in the Bolshevik experience during the Civil War and Benvenuti shows that the military opposition inside the party was much stronger than conventionally supposed Trotsky's subsequent political weakness owed much to his ruthless pursuit of military goals not always in direct harmony with party interests as did his technocratic attempts to extend the role of specialist advisers at the expense of party officials The Economic Organization of War Communism 1918-1921 Silvana Malle, 2002-08-08 An assessment of the first Soviet economic system comparing programmes with outcomes and theory with practice **Soviet Military Power**, 1989 **Monthly Catalog of United States Government Publications**, 1995 **Problems of Communism**, 1961 Collective Farms which Work? Nigel Swain, 1985-06-13 Analyzes the lessons learned from thirty years of actually existing socialism within the collective farm system of Hungary Provides the first thorough sociological analysis in English of this example of successful collectivization through a detailed study of its internal social structure and relevant decision making processes **Red Petrograd** S. A. Smith, Stephen Anthony Smith, 1983 Deals with problem of workers control in Russia **The History of Poland Since 1863** Roy Francis Leslie, R. F. Leslie, 1983-05-19 This is an account of the evolution of Poland from conditions of subjection to its reconstruction in 1918 development in the years between the two World Wars and reorganisation after 1945 It begins at a time when Poland was still suffering from the legacy of the eighteenth century Partitions and burdened

with problems of sizeable ethnic minorities inadequate agrarian reforms and sluggish industrial development sustained by foreign capital It traces the history through to independence and then to the transformation of the country in the last thirty years Although many of the problems of the past have now disappeared industrialisation the structure of peasant agriculture and political association with the Soviet Union present the Polish People's Republic with difficulties that have yet to be resolved Substantial achievements in an ethnically homogeneous state must be set against substantial discontents This history provides the English speaking reader with a scholarly synthesis based mainly on literature in Polish and other East European languages It will be essential reading for historians of Eastern Europe and for those interested in modern Polish society

The Routledge Handbook of Russian International Relations Studies Maria Lagutina, Natalia Tsvetkova, Alexander Sergunin, 2023-02-27 This handbook examines the study of international relations IR in Russia giving a comprehensive analysis of historical theoretic conceptual geographical and institutional aspects It identifies the place and role of Russia in global IR and discusses the factors that facilitate or impede the development of Russian IR studies The contributors represent diverse Russian regions and IR schools and offer an overview of different intellectual traditions and key IR paradigms in the post Soviet era Filling the vacuum in international understanding of the Russian perspective on pivotal international issues they demonstrate the continuity and change in Russia's international policy course over the past three decades and explain how different foreign policy schools and concepts have affected Russian foreign policy making and the decision making process Providing a unique contribution to the discussion on non Western IR theory this handbook will appeal to scholars and students of international relations Russian studies world politics and international studies

International and National Law in Russia and Eastern Europe George Ginsburgs, Roger Stenson Clark, F. J. Ferdinand Joseph Maria Feldbrugge, Stanisław Pomorski, 2001-08-21 The disappearance of the USSR as a superpower to be replaced by the Russian Federation and a host of new states has had wide ranging consequences in the field of law The establishment of market economies and the need to set up institutional frameworks to foster the rule of law have precipitated comprehensive domestic law reforms in the countries concerned The major focus of the present work however is on the metamorphosis of the network of international law relations brought about by the fundamental change in the political and constitutional climate and the emergence of numerous new actors Apart from the relations between states as the classical province of international law the impact of international law on national legal orders has acquired overwhelming importance and the successor states of the Soviet Union have not escaped the effect of this development Some of the most urgent questions thrown up by these developments are analyzed by a team of leading legal specialists from the Russian Federation North America and Western Europe

Translation, Manipulation and Interpreting Aiga Dukāte, 2009 The most provocative claim ever made about translation that from the point of view of the target literature all translation implies a degree of manipulation of the source text for a certain purpose Hermans 1985 11 known as the manipulation hypothesis

serves as the departure point for this study Translation is manipulation What does it mean How can it be Can it be trusted And what about its sister activity interpreting The book provides answers to all these questions and more It investigates the allegedly manipulative side of translation and interpreting and offers an overview of scholarly and practitioner stances on translation and interpreting as manipulation as well as a fine grained typology of translational manipulation with examples This study would appeal to translators interpreters scholars and students alike *Joseph Stalin* David R. Egan, Melinda A. Egan, 2007-07-25 With the opening of Russian and communist bloc archives dating from the Soviet era there has been a significant increase of scholarly writings pertaining to Joseph Stalin Widely considered to be among the most influential historical figures of the twentieth century Stalin continues to be a source of intense study In the absence of a comprehensive compilation of periodical literature the need for *Joseph Stalin An Annotated Bibliography of English Language Periodical Literature to 2005* is conspicuous Ranging from editorials and news reports to academic articles the more than 1 700 sources cited collectively cover the full range of his life the various aspects of his leadership and virtually all facets of the system and practices traditionally associated with his name The coverage in this bibliography extends beyond the person of Stalin to include the subjects of Stalinism the Stalinist system the Stalin phenomenon and those policies and practices of the Communist Party and Soviet state associated with him This volume also provides a record of scholarly opinion on Stalin and sheds light on the evolution and current state of Stalinology An effort has been made to list only those articles in which Stalin figures prominently but in some instances articles have been included which do not center on Stalin but are worthy of listing for other reasons The book is divided into fourteen main sections General Studies and Overviews Biographical Information and Psychological Assessments The Revolutionary Movement October Revolution and Civil War Rise to Power Politics Economics Society and Social Policy Nationalism and Nationality Policy Culture Religion Philosophy and Theory Foreign Relations and International Communism Military Affairs and De Stalinization Including a subject index of several hundred headings and even greater number of subheadings this comprehensive annotated bibliography should be of benefit to those individuals who for the purpose of research or classroom
