Soviet Sociology, 1964-75 Mervyn Matthews, Thomas Anthony Jones, 1978 In Russian with English introduction **Soviet Sociology, 1964-1975** Mervyn Matthews, Thomas Anthony Jones, 1978 **Soviet Power and the Countryside** N. Melvin, 2003-11-04 Drawing upon extensive archival and other original sources Soviet Power and the Countryside offers a new approach to understanding the political dynamics that led to the collapse of the Soviet order A detailed analysis of the design implementation and collapse of Soviet policy toward the countryside is used to explore the implications of a broadening of participation in the policy process from the 1960s Neil J Melvin argues that the new knowledge about rural society created as a result of this process provided the basis for a fundamental change in the nature of power relations in the Soviet order leading to the decay and eventual collapse of policy making institutions The Politics of Knowledge in Central Asia Sarah Amsler, 2007-04-24 Through careful historical and ethnographic research and extensive use of local scholarly works this book provides a persuasive and careful analysis of the production of knowledge in Central Asia The author demonstrates that classical theories of science and society are inadequate for understanding the science project in Central Asia Instead a critical understanding of local science is more appropriate In the region the professional and political ethos of Marxism Leninism was incorporated into the logic of science on the periphery of the Soviet empire This book reveals that science organizes and constructed by Soviet rule was also defined by individual efforts of local scientists Their work to establish themselves between Marx and the market is therefore creating new political economies of knowledge at the edge of **Professions and the State** Anthony Jones, 2011 Unlike autonomous professionals in Western the scientific world system industrialized democracies professionals in a socialist bureaucratic setting operate as employees of the state The change in environment has important Implications not only for the practice of professions but also for the concept of professionalism itself This collection of nine essays is the first to survey the major professions In the USSR Czechoslovakia and Poland The contributors investigate the implications of professional experience in a socialist economy as well as relating changes in professional organization and power to reform movements in general and perestroika in particular In the series Labor and Social Change edited by Paula Rayman and Carmen Sirianni Patterns of Deprivation in the Soviet Union Under Brezhnev and Gorbachev Mervyn Matthews, 1989 The Socialist Sixties Anne E. Gorsuch, Diane P. Koenker, 2021-12-22 A very engaging collection of essays that adds much to an evolving literature on the social history of the Soviet Union and broader socialist societies Choice The 1960s have reemerged in scholarly and popular culture as a protean moment of cultural revolution and social transformation In this volume socialist societies in the Second World the Soviet Union East European countries and Cuba are the springboard for exploring global interconnections and cultural cross pollination between communist and capitalist countries and within the communist world Themes explored include flows of people and media the emergence of a flourishing youth culture sharing of songs films and personal experiences through tourism and international
