book introduces the study of children's literature addressing theoretical questions as well as the most relevant critical approaches to the discipline. The fourteen chapters draw on insights from academic disciplines ranging from cultural and literary studies to education and psychology and include an essay on what writers for children think about their craft. The result is a fascinating array of perspectives on key topics in children's literature as well as an introduction to such diverse concerns as literacy ideology stylistics feminism history culture and bibliotherapy. An extensive general bibliography is complemented by lists of further reading for each chapter and a glossary defines critical and technical terms making the book accessible for those coming to the field or to a particular approach for the first time. In this second edition there are four entirely new chapters; contributors have revisited and revised or rewritten seven of the chapters to reflect new thinking while the remaining three are classic essays widely acknowledged to be definitive. *Understanding Children's Literature* will not only be an invaluable guide for students of literature or education but it will also inform and enrich the practice of teachers and librarians.

*The Soviet Union in Literature for Children and Young Adults*, 1991-10-16. A comprehensive guide to children's and adolescent fiction, traditional literature and biography/autobiography dealing with the nationalities of the Soviet Union. This book is intended as a resource for teachers, librarians and parents seeking to imbue young people with a sympathetic understanding of another culture. The annotated bibliography thoroughly describes 536 books written in or translated into English and published from 1900 to 1990, portraying the lives of Russian and Soviet immigrants in Europe and North America. The literature itself reflects more than a thousand years of history from the establishment of Kievan Rus, the largest state of early medieval Europe, through the Mongol invasion and the rise and fall of imperial Russia to the establishment of the Soviet Union and the period of political and cultural ferment in the early 1990s. The sources are grouped according to major geographical and political regions: The Russian Federation, The Ukraine, Byelorussia and Moldavia, Estonia, Latvia and Lithuania, Armenia, Georgia and Azerbaijan, Kazakhstan, Kirghizia, Tajikistan, Turkmenistan and Uzbekistan, and further divided by genres. Annotations generally provide plot summary, literary analysis and criticism, evaluation of illustrations and information about literary and artistic awards. Reading and use levels are included with the citations. Indexes of author, translator and illustrator of titles and of subjects are provided, with the latter referring to topical areas as well as historical periods and personages and geographical and political areas and terms.
