

# The Soviet Legacy

On July 13, 1944 the Soviet troops entered and occupied Vilnius, the capital of Lithuania. The rest of the country fell in a matter of a few days. The small Baltic state remained in oppression for the next five decades.

Its citizens lived through horrors difficult to even think about. They had jobs but many companies were inefficient. They could not always buy enough food for their families. Their religion was suppressed and the local language forbidden. And worst of all, their friends, family members and neighbours could be shipped to labour camps in Siberia without any notice, never to return.

Lithuania was not the only country to go through this. The Soviets took control of 15 countries by force at the end of the Second World War. Its government influenced the lives of nearly 291 million people.

It has now been 30 years since the collapse of the Union. So how are the former USSR countries doing today? Even though they have made economic and social progress, the legacy from the years of oppression is still present. In this visualisation, we explore how these countries compare to the rest of the world in terms of mental health, politics and economy.

The Soviet Legacy in Central Asia J. Glenn, 1999-08-05 This book analyses the new pattern of security concerns of the Central Asian successor states This region is said to encompass Kazakhstan Uzbekistan Tadzhikistan Kirghizstan and Turkmenistan The main contention of the book is that the security problems of these states are similar to those that faced other Third World countries after they attained independence That is due to the arbitrary creation of these states by external powers they lack a certain degree of societal cohesiveness arising from the fact that several ethnic communities reside within their borders It is this so called insecurity dilemma of each of the Central Asian states that is therefore examined

*Kazakhstan - Ethnicity, Language and Power* Bhavna Dave, 2007-09-13 Kazakhstan is emerging as the most dynamic economic and political actor in Central Asia It is the second largest country of the former Soviet Union after the Russian Federation and has rich natural resources particularly oil which is being exploited through massive US investment Kazakhstan has an impressive record of economic growth under the leadership of President Nursultan Nazarbaev and has ambitions to project itself as a modern wealthy civic state with a developed market economy At the same time Kazakhstan is one of the most ethnically diverse countries in the region with very substantial non Kazakh and non Muslim minorities Its political regime has used elements of political clientelism and neo traditional practices to bolster its rule Drawing from extensive ethnographic research interviews and archival materials this book traces the development of national identity and statehood in Kazakhstan focusing in particular on the attempts to build a national state It argues that Russification and Sovietization were not simply top down processes that they provide considerable scope for local initiatives and that Soviet ethnically based affirmative action policies have had a lasting impact on ethnic lite formation and the rise of a distinct brand of national consciousness

Routledge Handbook of Russian Security Roger E. Kanet, 2019-01-15 The Routledge Handbook of Russian Security offers a comprehensive collection of essays on all aspects of Russian security and foreign policy by international scholars from across the world The volume identifies key contemporary topics of research and debate and takes into account the changes that have occurred in the study of Russian security strategy since the end of the Cold War The handbook is organised into five sections The theory and nature of Russian security policy The domestic and foreign policy nexus Instruments used by Russia in pursuing its security Global and regional aspects of

Russian security and foreign policy Case studies of Russian involvement in a series of security conflicts The book concludes with case studies of the major examples of Russian involvement and operations in a series of security conflicts including that in Georgia the intervention in Ukraine and occupation of Crimea and the ongoing Civil War in Syria This volume will be of great interest to students of Russian security strategic studies foreign policy European politics and International Relations in general *The Politics of Bad Governance in Contemporary Russia* Vladimir Gel'man, 2022-07-06 In this book Vladimir Gel'man considers bad governance as a distinctive politico economic order that is based on a set of formal and informal rules norms and practices quite different from those of good governance Some countries are governed badly intentionally because the political leaders of these countries establish and maintain rules norms and practices that serve their own self interests Gel'man considers bad governance as a primarily agency driven rather than structure induced phenomenon He addresses the issue of causes and mechanisms of bad governance in Russia and beyond from a different scholarly optics which is based on a more general rationale of state building political regime dynamics and policy making He argues that although these days bad governance is almost universally perceived as an anomaly at least in developed countries in fact human history is largely a history of ineffective and corrupt governments while the rule of law and decent state regulatory quality are relatively recent matters of modern history when they emerged as side effects of state building Indeed the picture is quite the opposite bad governance is the norm while good governance is an exception The problem is that most rulers especially if their time horizons are short and the external constraints on their behavior are not especially binding tend to govern their domains in a predatory way because of the prevalence of short term over long term incentives Contemporary Russia may be considered as a prime example of this phenomenon Using an analysis of case studies of political and policy changes in Russia after the Soviet collapse Gel'man discusses the logic of building and maintaining the politico economic order of bad governance in Russia and paths of its possible transformation in a theoretical and comparative perspective **Authoritarian**

**Regionalism in the World of International Organizations** Anastassia V. Obydenkova, Alexander Libman, 2019-05-02 The interconnection between international organizations IOs membership and democratization has become a topic of intense debate However the main focus of the literature so far has been on IOs created by democratic states and comprised mostly of democracies for examples the European Union In contrast to existing studies this book focuses on another group of regional IOs referred to as non democratic IOs which are organizations founded by autocracies How do these newly emerged organizations interrelate and interact with the outside world How do they counteract and confront the danger of democratization in their own member states and neighboring states This book aims to address these questions by developing a new theory of authoritarian regionalism and by combining both quantitative and qualitative analysis to test it The quantitative analysis uses a large dataset of all regional organizations worldwide for the post World War II period with the aim of defining historical trends in development and the modification of regionalism over the last seven decades 1945 2015

Qualitative analysis refines and develops the argument by looking at the case of post Soviet Eurasia The book uncovers a new type of regionalism authoritarian regionalism and traces its historical roots as well as its implications for modern politics The book is the first attempt to systematically investigate the functioning and the impact of authoritarian regionalism as a new phenomenon as well as its implications for democratization world wide The book contributes to the theory of regionalism international organizations studies of autocracies foreign policy and democratization world wide Women's Imprisonment in Eastern Europe Arta Jalili Idrissi, 2023-11-16 The first qualitative study based on an ethnographic approach to women s carceral experiences in Latvia this book draws parallels across Eastern Europe and throughout the neoliberal West to provide a refreshing and timely addition to the study of criminology and the sociology of imprisonment
