Soviet Naval Influence:

Soviet Naval Influence Michael McGwire, John McDonnell, 1977 The Soviet Navy Bruce W. Watson, Susan M. Watson, Calland Carnes, Brian Larson, 2020-01-09 Since Admiral Sergei G. Gorshkov was appointed to the office of commander in chief of the Soviet Navy in 1956 the Soviet Union has made a massive investment in naval construction training and operations. As a result the Soviet Navy has grown from a coastal defense force to one of the world's two strongest navies. This book offers a detailed assessment of every major aspect of the Soviet Navy from fleet structure and training facilities to command and control procedures and warfare and intelligence collection capabilities *Navies and Foreign Policy (Routledge Revivals)* Ken Booth, 2014-06-27 First published in 1977 this study offers a comprehensive systematic and integrated survey of the important relationship between navies and the making and execution of foreign policy. Ken Booth explains the functions navies can perform in both war and peace the influence they have on particular situations and how the relevant organisations can affect the character of naval actions. Ultimately navies are regarded as indispensable instruments of the state by a number of countries whilst all countries with a coast find some need to threaten a degree of force at sea. This book provides students and academics with the intellectual framework with which to assess the changing character of the navy **USSR, Analytical Survey of Literature** United States. Department of the Army, 1976 **Allocation of Resources in the Soviet Union and China** United States. Congress. Joint Economic Committee. Subcommittee on Priorities and Economy in Government, 1976 **Soviet Air Power** Kenneth Whiting, 2020-01-29 This comprehensive examination of Soviet air power analyzes the three branches of the USSR Military Air Forces: Frontal Aviation, Long Range Aviation, and Military Air Transport and Naval Aviation, and the National Air Defense, emphasizing World War II and postwar developments **The Military History of the Soviet Union** R. Higham, 2010-11-14 This volume provides an introduction to the history of the Soviet armed forces from 1917 to 1991. The authors highlight the many facets of the Cold War including the rise of the Soviet Navy after the Great Patriotic War and the collapse of the Soviet Union which marks its twentieth anniversary in 2011 The Sea in Soviet Strategy Bryan Raftery, Geoffrey Till, 1989-06-18 A review of the Soviet Navy by two maritime specialists placing it in its domestic and international context, assessing its present and future roles by looking at its ships, submarines, aircraft, its exercises and patterns of deployment, and by interpreting the Soviet Navy's own writings The Soviet Union United States. Congress. Joint Economic Committee, 1980 *Allocation of resources in the Soviet Union and China--1980* United States. Congress. Joint Economic Committee. Subcommittee on Priorities and Economy in Government, 1981 **Bases Abroad** Robert E. Harkavy, 1989 Analyzing the modern status of military bases and the diplomacy that defines their location and access, this book explores the global basing networks of the world's major military powers, their type

location and the politics and economics of their acquisition. It provides data on armaments intelligence communications research and space facilities tables and maps that display U S and Soviet global networks and the various military roles and nuclear deterrence capabilities for global power projection and support of client states in the Third World. Committee on Appropriations, 1974. Dept. of the Navy United States. Congress. Senate. Committee on Appropriations. Subcommittee on Department of Defense, 1974. **Department of Defense Appropriations for Fiscal Year 1975, Hearings Before ..., 93-2** United States. Congress. Senate. They also discuss competition. *Congressional Record* United States. Congress, 1969. *Land Based Air Power or Aircraft Carriers?* Gjert Lage Dyndal, 2016-04-22. During the 1960s, in the midst of its retreat from empire, the British government had to grapple with complex political and military problems in order to find a strategic defence policy that was both credible and affordable. Addressing what was perhaps the most contentious issue within those debates, this book charts the arguments that raged between supporters of a land based air power strategy and those who favoured aircraft carriers. Drawing upon a wealth of previously classified documents, the book reveals how the Admiralty and Air Ministry became interlocked in a bitter political struggle over which of their military strategies could best meet Britain's future foreign policy challenges. Whilst the broad story of this inter-service rivalry is well known, the Air Force's proposal for a series of island based airfields and the Navy championing of a small number of expensive but mobile aircraft carriers, the complexity and previous lack of archival sources means that it has until now only ever been partially researched and understood. Former studies have largely focused on the cancellation of the CVA 01 carrier programme and offered little depth as regards the Royal Air Force perspectives. Given that this was a two Service rivalry which greatly influenced many aspects of British foreign and defence policy decisions of the period, this book presents an important and balanced overview of the complex issues involved. Through this historical study of the British debate about maritime air power and strategic alternatives in the 1960s, the detailed arguments used for and against both alternatives demonstrate clear relevance to both historical and contemporary conceptual debates on carrier forces and land based air power. Both from military strategy and inter-service relationship perspectives, contemporary Britain and many other nations with maritime forces may learn much from this historical case.
