Metropolis David L. Hoffmann, 2018-08-06 During the 1930s 23 million peasants left their villages and moved to Soviet cities where they comprised almost half the urban population and more than half the nation's industrial workers Drawing on previously inaccessible archival materials David L Hoffmann shows how this massive migration to the cities an influx unprecedented in world history had major consequences for the nature of the Soviet system and the character of Russian society even today Hoffmann focuses on events in Moscow between the launching of the industrialization drive in 1929 and the outbreak of war in 1941 He reconstructs the attempts of Party leaders to reshape the social identity and behavior of the millions of newly urbanized workers who appeared to offer a broad base of support for the socialist regime The former peasants however had brought with them their own forms of cultural expression social organization work habits and attitudes toward authority Hoffmann demonstrates that Moscow's new inhabitants established social identities and understandings of the world very different from those prescribed by Soviet authorities Their refusal to conform to the authorities model of a loyal proletariat thwarted Party efforts to construct a social and political order consistent with Bolshevik ideology The conservative and coercive policies that Party leaders adopted in response he argues contributed to the Soviet Union's emergence as an authoritarian welfare state **Studies in Communist Affairs**, 1976 **Autobiographical Statements in Twentieth-Century Russian Literature** Jane Gary Harris, 2014-07-14 The fifteen essays in this volume explore the

extraordinary range and diversity of the autobiographical mode in twentieth century Russian literature from various critical perspectives They will whet the appetite of readers interested in penetrating beyond the canonical texts of Russian literature The introduction focuses on the central issues and key problems of current autobiographical theory and practice in both the West and in the Soviet Union while each essay treats an aspect of auto biographical praxis in the context of an individual author s work and often in dialogue with another of the included writers Examined here are first the experimental writings of the early years of the twentieth century Rozanov Remizov and Bely second the unique autobiographical statements of the mid 1920s through the early 1940s Mandelstam Pasternak Olesha and Zoshchenko and finally the diverse and vital contemporary writings of the 1960s through the 1980s as exemplified not only by creative writers but also by scholars by Soviet citizens as well as by emigrés Trifonov Nadezhda Mandelstam Lydia Ginzburg Nabokov Jakobson Sinyavsky and Limonov Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Nuclear Blackmail and Nuclear Balance Richard K. Betts, 2010-12-01 In numerous crises after World War II Berlin Korea the Taiwan Straits and the Middle East the United States resorted to vague threats to use nuclear weapons in order to deter Soviet or Chinese military action On a few occasions the Soviet Union also engaged in nuclear saber rattling Using declassified documents and other sources this volume examines those crises and compares the decisionmaking processes of leaders who considered nuclear threats with the commonly accepted logic of nuclear deterrence and coercion Rejecting standard explanations of our leader's logic in these cases Betts suggests that U S presidents were neither consciously bluffing when they made nuclear threats nor prepared to face the consequences if their threats failed The author also challenges the myth that the 1950s was a golden age of low vulnerability for the United States and details how nuclear parity has and has not altered conditions that gave rise to nuclear blackmail in the past

Saints and Revolutionaries Marcia A. Morris, 1993-02-04 An examination of literary works spanning more than seven centuries this volume studies the ascetic hero and asceticism exploring the elusive interplay between religion politics and belles lettres in Russia The first part places works including the thirteenth century Kievan Crypt Patericon and Life of Avraamii Smolenskii Epiphanius's Life of Sergii Radonezhskii and other lives written in the north of Russia

in the context of crucial religious doctrines such as apocalypticism and deification The author shows how Old Russian literature plays a major cultural role in the continuing development of these doctrines on Russian soil The second part traces a revival of the Russian fascination with themes of apocalypse and perfectibility to the nineteenth and early twentieth centuries Morris also documents the development of a divergence in ideological approach between Russian writers who continued to view apocalypticism and deification as religious phenomena and those who used them as tools of social and political struggle Works by Gogol Tolstoy Dostoevsky Chernyshevsky and Gorky as well as classic novels of the socialist realist tradition are analyzed as evidence of the underlying unity of the literary manifestations of this ostensibly bifurcated intellectual tradition

Soviet Union and Iran M. Rezun, 2024-12-23 *Andrey Bely* John E. Malmstad, 2019-05-15 No figure in turn of the century Russia John Malmstad asserts better epitomizes the paradoxes of that era than Andrey Bely 1880-1934 Eulogized by Boris Pasternak as the most remarkable writer of our age and now widely regarded as the seminal figure in Russian modernism and as one of the major writers of this century Bely subjected the received standards of truth and value in literature to a penetrating and radical critique After a long period of suppression under the Stalinist regime Bely has become the object of growing critical attention in both East and West Originating in a symposium held in 1984 under the auspices of the Harriman Institute at Columbia University on the fiftieth anniversary of Bely's death this volume includes ten essays by established scholars of modern Russian literature including leading Western specialists on Bely The essays survey Bely's major works in all genres summarize present research on Bely reassess critical approaches and offer fresh interpretations Analytic summaries of primary works make the essays fully accessible to non Slavist readers

Russia and the Idea of the West Robert D.
