Soviet Problem In American German Relations:

The Soviet Problem in American-German Relations Uwe Nerlich, James A. Thomson, 1985 **Reunification and West German-Soviet Relations** Werner Feld, 2012-12-06 The intellectual debts which I have incurred in the preparation of this study are many. Foremost I wish to express my warm appreciation and gratitude to Professor Henry L. Mason for his sound advice, gentle encouragement and continuous guidance. In addition I would like to extend my sincere thanks to Professors David R. Deener, Warren Roberts Jr. and John L. Snell for their critical comments and helpful suggestions which led to frequent and fruitful reconsideration of the substance and form of the inquiry. I am also very grateful to Professor J. W. Smurr who made many constructive suggestions with regard to the content and style of the manuscript. A special debt is owed to Mr. Jon Reinhardt who read the manuscript in its entirety and suggested a number of stylistic improvements. Richard Paulig, former Consul General of the Federal Republic of Germany in New Orleans, Louisiana, was most helpful by assisting in the collection of certain source materials and the staff members of the Bundestag library in Bonn, Germany, under the direction of Bibliotheksoberrat Dr. Heinz Matthes aided the research for this study with outstanding efficiency. Finally, my most heartfelt expressions of gratitude are reserved for my wife Betty whose encouragement and sympathetic understanding have helped me through this work.

The United States and Germany in the Era of the Cold War, 1945-1990 Detlef Junker, Philipp Gassert, Wilfried Mausbach, David B. Morris, 2004-05-17 Publisher Description **Problems of Communism**, 1988

United States Technology Export Control Douglas E. McDaniel, 1993-03-17 This is a broad ranging study of U.S. strategic export control policy. In particular, this book analyzes and evaluates the effectiveness of export controls in delaying the acquisition of militarily sensitive high technology by the Soviet Union and its allied states. Furthermore, the question of whether or not U.S. economic competitiveness in various high technology sectors has been unduly undermined by export controls is also evaluated. Numerous official government studies and reports supplemented by a host of interviews with government officials, businesspeople and analysts in the United States and Europe are utilized in drawing conclusions and posting policy recommendations. The consequences for export control policy of the revolutionary political upheavals in Eastern Europe and the former U.S.S.R. are also addressed. The study concludes that the strategic security goal of utilizing controls to hinder and delay the acquisition of militarily significant high technology by the former Soviet Union and its allied states was generally effective. More controversially, McDaniel argues that export controls per se have not been a significant determinant of lagging U.S. competitiveness in high technology. However, this conclusion is qualified by the observation that while overall trends in U.S. high technology exports to important trading partners do not suggest that controls by themselves have unduly hurt U.S. exporters, individual sectors and small firms may be disadvantaged. Finally, the study cautions that U.S. policy must adapt or risk becoming outmoded and increasingly ineffective. This book will be of interest to scholars and students of international relations, international political economy and international business.
